Appointment of Sweeten To Direct Development Announced by Harnewll
MacDonald Named Director of Placement; Sweeten To oversee Fund Raising Drives
E. Craig Sweeten, Jr., director of placement at the University, has been named director of development by Dr. Gaylord P. Harnewll, president of the University, this morning.

Since 1950, Sweeten has served in the Placement Service at the University, and as assistant director, he has served in the University's Business Office. He is also a member of the Phi Kappa Beta fraternity, and he is currently the president of the board of directors of the Phi Kappa Beta fraternity.

Three Years President While he was an undergraduate student at the University, Sweeten was elected president of his class three times. He also was chairman of the class and president of the fresh-some group.

Since the post of director of development has been vacated, Sweeten will assume his duties immediately.

Managers To Elect Top Coach of Year The manager of the basketball team, the managers of the football team, and the managers of the baseball team will elect the Year Award winner, according to Robert E. Black, chairman of the board of directors of the Pennsylvania Athletic Association. The manager of the basketball team will elect the top coach of the year.

Penn Players Elect Falen, Six Others
James E. Falen, a junior, was selected chairman of the Board of Directors of Pennsylvania Players. Other members of the board were M. K. Schaefer, chairman; E. H. Miller, secretary; and R. G. Miller, treasurer.

The new board members were elected at the annual meeting of the Pennsylvania Players. The meeting was called to order by M. K. Schaefer, chairman, and the meeting was adjourned without further action.

Penn Track Squad Competes In Inquirer Games Tomorrow
In its only local appearance of the indoor season, the Penn track team is scheduled to meet A.A.U. Stars in the Inquirer meet at Convention Hall tomorrow. The record entry list includes many of the outstanding track men of the nation's top colleges and universities.

pany Rams CA Building
A new Chevrolet sedan was badly damaged yesterday afternoon when it crashed into the Christian Association building yesterday afternoon. The driver of the car, Edward J. Roman, was not hit in the accident.

New Philosophy is GNP Need of Wike
The Republican Party's need for a new philosophy, according to Howard B. Wike, chairman of the New York City Republican Party, is the GNP under President Eisenhower.

Mr. Wike said that the GNP under President Eisenhower is the key to the Republican Party's success in the upcoming elections.

The GNP under President Eisenhower is the key to the Republican Party's success in the upcoming elections, according to Howard B. Wike, chairman of the New York City Republican Party.

Mr. Wike said that the GNP under President Eisenhower is the key to the Republican Party's success in the upcoming elections.
Announced by Horn well Cil, captain of the soccer team association and former president University, Dr. Harnwell named Top Coach of Year immediately. He also was chairman of the Board of the Eugene A. Ryglel Award. Those voting are the officers of the Eugene A. Ryglel Gymnasium. The award is based on the merit of the recipient in his contribution to the University. The winner of the voting will be announced at the annual Interacademic Day of Penn's Kappa Beta Junior Honor Society yesterday. Klik Klik and Key will sponsor the voting of over 35 students from preparatory schools in the Philadelphia area to campus for its annual Interacademic Day on February 11, Charles Bunting, chairman of the program, announced yesterday. A program of activities has been planned for the day, and the students will attend the Pennsylvania-Penn State basketball game that night. The day's events will include intercollegiate events and a dinner at the Princeton Inn at 6:30.

Emphasis On Dormitions Penn Players Elect Falen, Six Others James E. Falen was elected Chairman of the Board of Governors of Pennsylvania Players yesterday afternoon, announced Mark Silverstein, outgoing chairman. Together with Falen three board members were reelected and three new selections were made. Joseph Bertsch, Herbert R. Miller, and Edward L. Weinstock were named to the board.

The new chairman, a Wharton graduate, is editor of the 1942 Junior Alumni and is a member of Sigma Chi fraternity. He has appeared most recently as Dr. Olin in the Players production of "Therese Raquin," playing his role in the forthcoming presentation of "Kiss Me Kate." Falen vacates his position of Vice-Chairman of the Board of Governors to take his new post.

Penn Track Squad Competes In Inquirer Games Tomorrow

In its last appearance of the season the track team will compete against A.A. Track and Field for Convention Hall tomorrow. The Quaker entries are Al Kline and possibly John Halin, the Elstenhower administration, and the fourth period exists today in the Lincoln administration and the Elstenhower administration. The work which the pair have done is especially important in areas like television and radio.

Dick Cencsitz and Earl Killiam battle LaSalle's Bob Ames under the boards for a rebound last year, Yale, led by Bob Ames and his two speedy sophomores. Haines in the Inquirer meet two years ago, the Elstenhower administration, and the last four years have been successful for the Quaker in the Inquirer meet.

The mile runners, in their first test of the year, will meet Cornell, second to the Penn trackers last year. Yale, led by Bob Cencsitz winner of the Boston 108, and Fordham, clocked at 9:45.

To win, the balloon passers may have to do their best and then only on the singles. The Quakers' doubles will win the match, the two titles last week. Darnell and the two speedy septronicss are brightened by the experienced Kline and the two speedy septronicss. Darnell ran the best time among the nine titles last week and Dardik ran 9:47:1 as a freshman.

The two-mile relay of Darnell, Dark, Jerry Avery, and Jim Smith, is a prime favorite, but it is not certain that the Quaker will win the event because of the time schedule. Trained by Ev Humbert, will be the favorite in this race.

It has been a year since the Christian Association building at Westcott was entered into the Christion Association building at Westcott. The driver of the car, Edward J. Roman of Camden, New Jersey, was not injured in the accident.

Roman's car, which was traveling north on 35th Street, went out of control as Roman attempted to avoid another auto that was entering the intersection moving west on Locust Street.

FIRST TEAM

A new Chevrolet sedan was badly damaged yesterday afternoon when it crashed into the Christian Association building after Roman lost control of the car.

The driver of the car, Edward J. Roman of Camden, New Jersey, was not injured in the accident.

Roman's car, which was traveling north on 35th Street, went out of control as Roman attempted to avoid another auto that was entering the intersection moving west on Locust Street.
Close Up

Hollywood Suffers Financial Setback; Industry Leaders Monkey With Problem

Hollywood is once more in the financial doldrums. The business sections of "Va- riety" are replete with stories of failures and the comings and goings of producers. The picture business is in a state of crisis.

Right now there are controversies of Caddi on the set of "The Great Adventure," which is a sequel of the last two films. The studio is in trouble and the directors are looking for new ideas. One of the most interesting developments is the story of the new idea, which is what they would say.

The latest development is that we are facing a serious financial setback. Domestic is off, and Production is now in a state of flux.

Editor: Mr. Magazine has been our guide throughout the period. We have been with him since he was a young man. We think of him as our dear friend.

—From The Hollywood Reporter

Letter To The Editor

The Daily Pennsylvanian

Dear Editor,

I am writing to you on behalf of all Penn students. I would like to express our feelings on the current financial situation of the university. The university is facing a severe financial crisis.

Although the university has been able to maintain its operations, the financial situation is becoming increasingly difficult. The university is in urgent need of help and support from the Penn community.

We implore all Penn students to consider contributing to the university's financial efforts. Every dollar counts, and your support will make a significant difference.

Sincerely,

[Student's Name]

Pander Heart' Mediocre Offering

by David Morris

This week "The Pander Heart" concludes its stay at the Forest Theatre. The new comedy offered by the big name is called 'Pander Heart' and has been a hit in the city.

The play takes place around a small town in the deep south. It concerns Daniel Ponder, an actor from New York who has never been to the South before. His only family is his father and his marriage to a Circulate. He is the son of a wealthy family.

Daniel Ponder's lawyer wants to annul the marriage. However, it is certain the play won't be produced. But perhaps the "Pander Heart" comedy is trying to say.

The scene then reverts back to the time when Daniel Ponder first signed his wife's name on the legal documents. It becomes clear that the person who is hard to describe, but can best be described as a movie star, could possibly classify Daniel Ponder in the same category without fear of complaint.

For the play has some rather notable elements. The play is performed in the magnificent stage manager's suite of ice cream cones. The performers, who could have been in her new home, were white and blue, with a short black skirt on. There is a genuine, an electric, a refrigerator of sound, and, in the middle of the room, a clothes washer. The scene is the living room of her new home. She stands before it, a smile on her face.

Worshin' Ammunition

Trivial Amazing

The scene then returns back to the court room and the trial where Daniel is found guilty. He is then taken to a cell and the comedy is unnatural in situation but the trial continues.

Daniel Ponder was convicted of murder on Daniel Pon- der's wife. But perhaps the "Pander Heart" comedy is trying to say.

The scene then reverts back to the time when Daniel Ponder first signed his wife's name on the legal documents. It becomes clear that the person who is hard to describe, but can best be described as a movie star, could possibly classify Daniel Ponder in the same category without fear of complaint.

What's doing
at Pratt & Whitney Aircraft

Domestic Travel — in the Age of Jet Transports

Starting in 1959, United Air Lines' flight between Los Angeles and New York will be 4½ hours — between Chicago and New York, only 50 minutes. By placing the first contract order for jet transporters to be used in domestic operations, United Air Lines has upheld its reputation as a pioneer in American air travel. Its new fleet of 50 Douglas DC-8 Clippers will be powered by the most powerful production aircraft engines in the world, J-57 turbojets, designed and developed by Pratt & Whitney Aircraft.

It is only a matter of time until jet transporters are standard equipment along the air lanes of the world. The large majority of them will be powered by Pratt & Whitney Aircraft jet engines — an achievement of great significance.

A jet-turbine powerplant that develops 10,000 pounds of thrust — or more — involves some of the most complex problems of present-day engineering. A glance at the roster of today's J-57—powered military aircraft* is proud testimony to the success with which those problems were resolved by Pratt & Whitney Aircraft engineers.

Pratt & Whitney Aircraft J-57 Turbines is blazing the way for a new generation of American aviation. Already powering many of the most important types of military aircraft, the J-57 is now leading the world into an era of commercial jet transportation.
Honor Societies Deserve More Recognition at Penn

by Eugene Lyle Stoler

For too long a period of time, there has been too much recognition given to those honor societies whose membership is based on a point system for University activities. The athletic and extra-curricular program in this school has been interrelated to bring honor and glory to "Your Old Pinkie." Although there has been a great "de-commercialization" of Ivy League athletics, there is still more recognition given to the athlete and the person participating in extra-curricular activities than to the scholar. This is an institution of learning, baseball, and other activities. The three well-known senior honor societies in the University are Phi Beta Kappa, Sigma Xi, and Alpha Kappa Psi. Phi Beta Kappa is the liberal arts honor society for the best scholarship in the student body. Sigma Xi is the science honor society for the best papers presented in the sciences. Alpha Kappa Psi is the business honor society for the best scholarship in business administration.

There are four major honor societies whose membership is based on academic prowess, which should be given more recognition than they are allotted. These are Phi Beta Kappa, Beta Gamma Sigma, Sigma Xi, and Sigma Tau. Phi Beta Kappa, the liberal arts honor society, is the most well-known of the four. Founded nationally in 1776, the chapter here being established in 1883, the society has grown to encompass 183 chapters. The officers consist of Dr. William Cobb, President; Dr. Wesley G. Hutchinson, Vice-President; Dr. Otto F. Altschul, Secretary; and Dr. E. R. Dickson, Treasurer. At the present there are thirty members in the chapter on this campus, with扩充补货。The requirements for the present senior class. The basic requirements for membership are that in his Junior year one must have a 4.6 overall average; that in his Senior year he must have a 4.4 overall average; and as a high Senior he must have, as a high Junior he must have a 4.6 overall average. He must have a 4.4 overall average, and as a high Senior he must have a 4.4 overall average.

Marks Lead to Interview

But the marks one attains merely qualify him for an interview with the undergraduate officers. Each in turn judges him on character and well-roundedness. The most recent initiation occurred in November, when nine students became members. The Society has recently been given its annual scholarship awards to the top ten Freshmen and Sophomores, ten junior and senior students, with a total scholarship of $250, and another $250 to a person who is selected for outstanding scholarship. At present, four students are being given Friday night from three o'clock until four o'clock, and then at the all-night exam occurring the weekend of December third, with the all-night exam being given Friday night from twelve o'clock midnight until eight a.m. The banquet was held on the following night, Saturday. The occasion was attended by all the members of the society and the person attending the largest number of events is given the award.

The officers of Tau Beta Pi are Leonard Shaw, President; Leon Zelby, Corresponding Secretary; Dr. Wesley G. Hutchinson, Vice-President; Joel Ehrenkranz, Vice-President; and Mr. Doug Zelby, Secretary. The requisites for one to become a member of this organization are that in his Junior year one must have a 4.0 overall average; as a High Junior he must have a 4.5 overall average, and as a high Senior he must have a 4.4 overall average.

What do metallurgists do in a chemical company?

GEORGE M. LINCOLN, JR., expects to receive his B.S. in metal- lurgical engineering from Lehigh University in 1957. George is active in sports, vice president at his junior class, and a partipant in many other campus activities. He's starting his employ- ment investigations early, for he feels that the selection of an employer is one of the most important decisions in a man's career.

George Lincoln asks:

What do metallurgists do in a chemical company?

They have an almost endless variety of interesting problems to face, George. As a student of metallurgy you know that about two-thirds of all known chemical elements are metals. Many of them are revealing valuable new applications, when highly purified on a commercial scale. Du Pont is greatly interested in several metallic and semi-metallic elements. My own experience at Du Pont ranges from work on titanium pigments, to metallic titanium production, and to the ultra-pure silicon used in transistors. I can appreciate some of our metallurgical problems when I point out that impurities in transistor silicon have to be below one part in 100 million. That's equivalent to one pound of impurities distributed through a train of ore cars twenty miles long!

Some of our metallurgists carry out fundamental research on new metals, and, in the development stage, Du Pont is greatly interested in several metallic and semi-metallic elements. My own experience at Du Pont ranges from work on titanium pigments, to metallic titanium production, and to the ultra-pure silicon used in transistors. I can appreciate some of our metallurgical problems when I point out that impurities in transistor silicon have to be below one part in 100 million. Mermen Rout Lafayette; Oppose Lehigh Saturday

Winning nine straight times before losing the final event of the meet, Pennsylvania's varsity swimming team (4-2) routed Lafayette, 49-3, yesterday afternoon.

The meet served as a preliminary for Saturday's meet against Lehigh at 3 and the Penn pool. Coach Jack Molina has predicted that the Lehigh meet will be the stiffest of the season.

St. Joseph's JV Quintet Trounces Quaker Frosh

Two sparkling performances by Penn's Paul Major and Al Roth last night, as the Quaker froshman dropped an all-time record to the St. Joseph's J.V. at the Palestra.

Keise broke the 30-point mark and Schwartz pumped in 19 to account for more than half of the score's total, but this was more than offset by the most unexpected upset of the Hawks. The J.V. defeated the Duke Blue devils, 30-15, and most of them jump shots, and five free throws for 29 points, while Steve Liddle contributed 18.

Penn obtained a short-lived margin early in a tight first half, but a string of 12 straight points during the latter stages of the game gave the St. Joseph's J.V. an unassailable 28-7 triumph.

The Quakers spent their first half on the floor behind the free-throw line, but each had his moments in the second half of the game when the J.V. was on the floor.

Winless Penn Matmen Battle Yale at Palestra

FOR THE 50 COLLEGE STUDENTS WHO WRITE THE BEST NAMES FOR VICEROY’S PURE, WHITE, NATURAL FILTER!

---

**HINTS TO HELP YOU WIN!**

You'll think of dozens of names when you read these facts: The Viceroy Filter is the most modern in the world today. Performed through 20 years of research! It contains no cotton, no paper, no charcoal, no asbestos, no foreign substance of any kind! Made from Pure Cellulose—a soft, natural material found in many good foods you eat! No charcoal! No foreign substance of any kind! Made from Pure Cellulose—Soft...Snow-white...Natural!

---

**JUST FOLLOW THESE EASY RULES!**

1. On any plain paper, write the name you think most suitable for the filter. When writing filter, remember the word "filter." You can think of dozens of names like "Super-Pure," "Filtron," "Flavor Flow," "Cellulrate," "Twice-The-Taste"...You can use one, two or three words. Any name may win!

2. Mail your entry to Vice President College, P. O. Box 64, Mount Vernon 10, New York. Write plainly or print your name on your college and your mailing address at college. Ask your college and your college newspaper to publicize this contest. You can also see the picture of the Viceroy Filter Tip here or cut from the backs of two Col. pictures.

3. Contest open in all students standing colleges and universities in the U.S.A.

5. From named elsewhere in this ad, winners of the ten Thunderbirds will be permitted to designate the school organization in which they are enrolled to receive the ten RCA Victor Color TV Sets! Write the name of the organization you want to receive this award on your entry.
