Dr. Samuel N. Kramer, associate director of the University Museum, will be the first to lecture in Hillel's new series dealing with Israel today at 4:30 p.m. in the Hillel Theater. Dr. Kramer will speak on "The Roots of Israel," a subject he is familiar with since he is a native of the Holy Land. He will present a historical survey of the land of the Bible and its people and the cultural contributions of the Hebrews to the world.

M&W '55 Tour Has Less Deficit Than '54 Show

Receipts Less in 1955; Philadelphia Loss More

Based on a preliminary report, Mask and Wig's income was less than last year's tour, but only slightly less than the loss they realized in 1954. Although gross receipts from the cities that Mask and Wig performed in were higher in 1954 than in 1955, total expenses were considerably less this past year than in 1954.

All the performances in 1955 suffered more of a loss per day than they did in 1954 with the exceptions of Syracuse, Buffalo andDetroit. The figures for the expenses incurred in Syracuse and Buffalo are incomplete, however.

Attendance in 1954 for Philadelphia was slightly less than the year before, but dollar performances were given last year, compared to seven this year.

Expenses that were less than in 1954 were meals and transportation costs. Wages and expenses of different personnel, however, were higher in 1955 than in 1954, but less than 1953.

In addition to space to mark the year's play, Dr. Kramer will speak on the history of the Mask and Wig production. He will also discuss the M&W's plans as an aid to students in their summer camp.

Kramer is considered one of the foremost experts in Scrolls. He was a member of the editorial board of the University of Pennsylvania's Scrolls. He has made many contributions to the world in the field of Syriology. He is a member of the Publications Committee on Student Affairs, and the Undergraduate Council president; and John Dugan, who was recently elected editor, unanimously agreed on his appointment as the only one who could be equal to the job.

Organizational Veterans' Meeting Held in Houston Hall Friday at 1 p.m.

An organizational meeting of the Veteran's Club—a new group with the purpose of promoting close relations between veterans and the general welfare of all veterans attending the University—will be held tomorrow at 1:00 p.m. in the Franklin Room of Houston Hall.

The meeting is sponsored by a group of 14 service veterans and is open to all undergraduates who have served in the United States Armed Forces. Approximately 500 members of the student body are eligible to join the organization.

The idea for the veterans' organization originated last semester when the officers of the pilot group George Harvey, president; Albert Berenblum, vice-president; and senior Chuck Ross garnered support from the student body.

The officers of the pilot group are: George Harvey, president; Albert Berenblum, vice-president; David Hamburger, secretary; and senior Chuck Ross, treasurer.

Letter To The Editor

Editor, The Daily Pennsylvaniaian:

The Interfraternity Council Disciplinary Committee recently asked the Disciplinary Committee of the fraternity men to provide them with a list of all fraternities and the disciplinary actions against members who carry out actions not consistent with the spirit of the Constitution. In this respect, it is true that the placement of Campus Guards on the toll road is the work of the Disciplinary Committee, and that the work of the Disciplinary Committee has been kept secret, as have the many incidents that they have investigated. This article contains information gathered from sources other than the Disciplinary Committee.

The University employs twenty-one men who are charged with the duty of protecting the university from the activities of fraternities and sororities. In this case, the Disciplinary Committee's work has been carried out by the University Police Department.

The University Police Department is a part of the Law Enforcement Division of the University of Pennsylvania. It consists of two main groups: the University Police and the University Fire Department. The University Police has jurisdiction over all areas of the University campus, while the University Fire Department has jurisdiction over the University's fire prevention and emergency services.

The University Police Department is responsible for enforcing the rules and regulations of the University, as well as providing a safe and secure environment for all members of the University community. The University Fire Department is responsible for ensuring that the University is free from fire hazards and is able to respond to any fire incidents that may occur.

The University Police Department is made up of a number of different units, including the University Police, the University Fire Department, and the University Police Department's Emergency Management Services.

University Police: The University Police is responsible for providing security services on the University campus, as well as responding to emergency situations. The University Police is composed of sworn officers, who are sworn in as police officers, and civilian officers, who are not sworn in as police officers.

University Fire Department: The University Fire Department is responsible for preventing and extinguishing fires on the University campus. The University Fire Department is composed of fire fighters, who are trained to respond to and extinguish fires.

Emergency Management Services: The Emergency Management Services provide emergency services to the University community, including medical assistance, transportation of individuals to medical facilities, and the coordination of emergency response efforts.

The University Police Department is committed to providing a safe and secure environment for all members of the University community. They are dedicated to enforcing the rules and regulations of the University, as well as providing a safe and secure environment for all members of the University community. The University Police Department is also committed to providing a variety of emergency services to the University community, including medical assistance, transportation of individuals to medical facilities, and the coordination of emergency response efforts.

**Honor System**

Columbia's Student Board has given its support to the eventual establishment of an honor system in the hopes of curbing the strong competition for marks which is believed to be the cause of much of the cheating on exams.

An eleven-man board, which represents the four undergraduate classes, voted eight in favor of the proposal, with three abstaining. The board insists that an indoctrination period of several years would be necessary before the program could be put into full force.

Board members voting for the proposal felt that the cutthroat competition for high marks in the college had brought about a spirit of moral laxity, and that a sense of individual student responsibility should be fostered.

Those who abstained expressed doubt that an honor system would remedy the situation, and felt that the college had a definite responsibility to develop a sense of the importance of honor itself.
