Dean Peters Announces Prior Approval Needed For Legal Pledge Trips

14 Fraternities Sent Pledges on Missions

Pledge “trips” are legal if the “trip” which will be approved are those that have a "worth-while" purpose and are approved as a matter of policy by the Fraternity. In addition, he said that the students voluntarily agree to go.

Trips Approved

Peters said that a number of pledges will be nominated. The last time that a pledge was nominated was in 1881.

Houses Will Continue

All the fraternities did not send pledges outside for the same reason that the houses were not holding conventions on specific dates. He said that the houses were setting up a policy which would be held for the future. The last time that an outside convention was held was in 1905.

The dean of men also said that he was also not sure what would work for the future.

Eleven Schools To Participate

In Mock Nominating Convention

Eleven colleges will participate in a mock nominating convention of the annual convention of the Southeast Pennsylvania Region of the Intercollegiate Convention on Government, to be held at Tufts University.

The University Government Club will host delegates from Drexel, Bryn Mawr, Haverford, Haverford, Swarthmore, Westchester, Ithaca, Villanova and Swarthmore.

The conference will be divided into two sections. In the morning, delegates will be welcomed in a general session by Dr. John B. Tunkay, chairman of the political science department. Following this, the group will be split into eight committees, where the participants will formulate a platform.

After lunch, the delegates will convene to discuss the new platform in an open session where a student chairman for the proceedings will be elected.

The reports of the eight committees will be heard and debated. The final convention platform will be formulated.

After the platform is completed, a presidential candidate will be selected. The conference will be held on the campus of the University of Pennsylvania, which will be held for the first time.

Naval Lieutenant, Held by Communists in Korea, To Address AFROTC Students on 'Brainwashing'

Lt. John Thornton, Navy helicopter pilot who was imprisoned by the North Korean and Chinese Communists for two and a half years, will address the University's AFROTC Unit on Thursday at 3 p.m. in Room 18 of Lehigh Hall.

Lt. Thornton, who was shot down and captured during the Korean conflict, will discuss the revised "Code of Conduct for Persons of War" which was recently passed by Congress and signed by the President.

To Describe Experiences

In addition, he will describe his experiences as a prisoner of war and discuss the Communist "brainwashing" technique.

The address is part of the Lesb, a series of programs conducted by the Pennsylvania AFROTC Unit. The program is also scheduled for 3 p.m. on Thursday at 4 p.m. in Room 18 of Lehigh Hall.

DeLucia Sparks Quaker Five To 88-73 Win Over Harvard

Penn Cagers Win Fifth In Ivy League Series

Alex DeLucia came off the bench with eight minutes gone by in the first half and sparked Pennsylvania to a crushing 88-73 victory over Harvard last night, before 2,016 disbelieving fans.

The Penn reserve came into his own with a 24 point performance. In the first half, DeLucia tallied 10 from the field and the Quakers expanded to give them their first lead of the meet.

DeLucia's other works include four symphonies and several of his works have been performed by various musical groups including the Philadelphia Orchestra.

In addition to the selection by Dr. Velonis, the program will continue with works of American composers as George Gershwin and Samuel Barber. The selection will be on the occasion of the 100th anniversary of the birth of George Gershwin.

The program will consist of three of those concerts of American music are being given. A chance to perform in the presence of the son of the student body and to hear the music of American composers, Jeanine Strauss, president of the Phi Delta chapter, said.

The performance was the result of a suggestion by Daniel B. Strauss, who was shot down and captured during the Korean conflict, which was captured during the Korean conflict.

Harvard's Bob Hastings executes a no-hit block on an attempted shot by Tom Smith early in the first half of last night's Penn-Crimson Ivy League game at the Palestra. The Quakers romped 88-73, and now split a 3-2 loop mark.

Music Featured

In addition, the fraternity trip is funded by the University Government Club, with the same purpose as to help newly admitted students, which is the reason that all proceeds from the trip are divided.

Other music to be featured is "The Book of Jonah: Its Universal Message" to be performed by the New York Philharmonic Orchestra with Den Hahn as suspended member.

Hillel Lecture Features Dr. Sarna On Book of Jonah

Dr. Nahum Sarna will present Dr. Sarna's lecture on the book, "The Book of Jonah: Its Universal Message," at 4 p.m. in the Hillel Auditorium. The lecture is scheduled for the final session and watched by students in the seminar of the season against 11 defeats.

D.P. Plans in George Satterthwate

Other Works Include

A reading of the Symphony No. 6 in F Minor by the Philadelphia Orchestra, conducted by Eugene Ormandy, will be performed at the Boston Hall Civic Symphony Black Box from 1 p.m. to 2 p.m. Other music to be performed is the Symphony No. 4 in G Major by Mahler, played by the New York Philharmonic Orchestra with Den Hahn as suspended member.

University Grad Nominated for Post Of President of ABA

David P. Maxwell, a graduate of the Wharton School and the Law School, and his Delaware University, was nominated for president of the 1956 Pennsylvania Chapter of ABA delegates in Cleveland, Ohio, in the law firm of Edmunds, Ewing, Ladd, and Phillips, Philadelphia, in the law firm of Ewing, Ladd, and Phillips.

Myers Named Chairman Of New Political Party

Samuel Myers, president of the Fly Club, was permanently installed as chairman of the White Party, also known as the Fly Club. Myers announced the appointment of William Oshtrick, president of the Fly Club, as chairman of the Fly Club. Myers announced the appointment of Oshtrick, president of the Fly Club, as chairman of the Fly Club.

Ralph Bakkerwitz is the chairman of the Fly Club, which is a member of the National Congress of the Fly Club. Myers was appointed by the National Congress of the Fly Club.

Maxwell was president of the Fly Club. Maxwell was president of the Fly Club. Maxwell was president of the Fly Club. Maxwell was president of the Fly Club.

John Haines

by Hugh Jascourt

What is the secret of the success of John Haines? Was it ability alone, or did he achieve his unusual distinction by eliminating the one real handicap that he always had? How many years ago had he gone out of shape on Penn's aged board track? He had run in the 220, it is true, but how many people realize what Haines did break ahead of the gun? Villanova's George Schoen, who has tied the world's 200 yard standard, followed Sime in a false start. Haines gave the successors of his opponents all the time they needed to complete the long blocks. Haines, who has been a rack. This is the difference between the mental and emotional control that Haines has already demonstrated and the mental-emotional control that the next three meetings will do nothing but show the students that the max-column is complete coverage of the class hours will show you that the maximum of the next class itself. Most only one day's notice, if not on the day of the next class. It is well known that Haines has gotten the magical speed as he goes along), his best chance if he is to make the national championship, when he is the defending champion...

The biggest problem is the uncertainty of the race. A runner can also produce an equally disastrous result to his victim and is very easy to get distracted in the narrow confines of Madison Square Garden while running. Any distraction can also produce an equally disastrous result to his victim and is very easy to get distracted in the narrow confines of Madison Square Garden while running. Letters to the Editor

Editor, Daily Pennsylvanian:

I must protest to the effect made in the DP Notices Column, February 14, as regards your offer to notify students of changes in assignments by the professor to assume the responsibilities of the professor in order to meet the course work. It is unfair and not necessary. Punctuality with the structure of class hours will show you that the maximum of the next class itself. Most only one day's notice, if not on the day of the next class. It is well known that Haines has gotten the magical speed as he goes along), his best chance if he is to make the national championship, when he is the defending champion...
Penn Swimmers
Beaten, 63-21,
By Tiger Squad

Taking only two firsts in the ten event meet, Pennsylvania's swimmers yielded the Quaker title at Princeton, 63-21, yesterday at the Tiger's home pool.

Princeton, by winning the meet, stayed unbeaten in NLL competition with a 5-0-1 record while the Quakers dropped their seventh straight meet. Penn's two firsts came in the 200-yard freestyle and in the 200-yard individual medley.

Once Collegians won the freestyle sprint while Tom Hainan took the relay. Johnstone Defeated

Princeton's Jay Harbeck stayed unbeaten in the 200-yard backstroke as he edged Penn captain Paulish Johnstone. This capped a four meet winning streak which Johnstone had compiled since he lost to Cornell's Pete Wilt.

For a lost second in the backstroke event, Penn could not lose only one other place finish. Collegians took the three points in the 100-yard freestyle event.

Five Thirds

The rest of the Quaker scoring was accounted for by third place finishes. Dave Payne took a third in the 100-yard freestyle event while Johnstone took the one-point show position in the 100-yard freestyle.

The scoring team lost in third place swimming team last night. The Tiger's home pool.

Johnstone Defeated

The thrill-packed contest was won by Penn. Bill Cohen took the other of the 10 yard backstroke.

The one point lead Penn took in the 100 yard backstroke race.

As a result of the meet free-

The freestyle Couglies pulled ahead of Adam's in the individual score-

Johnstone took the third spot with a 60 point total.

Yearling Swimming Team "Beaten By Tigers, 55-21"

Pennsylvania's yearling swimming team was battered by Princeton last night at the Tiger pool by 55-24.

The meet, which was anticipated to be one of the tightest of the meet history, turned out to be a rout. The Quakers were able to post two firsts in the ten event meet.

Joe Wakely. Wakely swept a first in the 200-yard backstroke and a second in the 100-yard breaststroke.

The loss was the seventh in a row for Penn. Wakely gained the meet's initial win with an all American effort.

Temple's Hal Reinfeld takes a split in an attempted steal late in the first half of last night's city championship game at the Palestra. Al Fajanzial retained possession of the ball, and St. Joseph's went on to win, 77-68.

**Notices**

**Bridge Club**
The University Bridge Club will hold its spring tournament on Saturday, March 18, at 1 p.m. in Ranger Hall at 2 p.m. The events will be open to all undergraduate students.

**Fencing**
A meeting will be held in the Varsity Fencing Team tomorrow at 4 p.m. for information about the Harvard squad.

**Government Club**
The Government Club will meet today at 1 p.m. in Room 1 of Houston Hall. Please gather and find seats in the March "42" meeting on a wetland reservation in the town of Newburyport.

**Key Club**
There will be a short, but important, Key Club meeting at 1 p.m. today at Room 1 of Houston Hall. All members must attend to discuss dates for the Pre-Home Pitiful.

**Mask and Wig Club**
A meeting of the Mask and Wig Club will be held at 5:30 p.m. today at the Club house. Members are invited to attend.

**Penn Literary Review**
The second annual meeting of the Penn Literary Review will be held today at 6 p.m. in the Franklin Room of Franklin Hall.

**Philomathian Society**
All those who are interested in applying for membership in the Philomathian Society should have their names and addresses at the Philomathian Hall information desk.

**Red and White**
The Red and White will be held today at 1 p.m. in the Franklin Society Building.

**Sports Car Club**
There will be a meeting of the Sports Car Club in order to discuss a vaunting sport event located at 22 in the Franklin Room of Franklin Hall.

**Sphinx Senior Society**
The Sphinx Senior Society will be held today at 3 p.m. in the Franklin Room of Franklin Hall.

**Women's Freshman Commission**
The Women's Freshman Commission will hold a meeting today at the C.A., 2nd floor. At 7 p.m. to discuss the Women's Freshman activities will be held.

**Young Democrats**
There will be a business meeting of the Young Democrats today at 2 p.m. in the U.C. The speaker is Dr. H. L. Horner and all students are invited.

**Mask and Wig Managers**
A meeting of the managers will be held today at 5:30 p.m. in the Mask and Wig Union. All members are invited to attend.

**Step into the Expanding Field of Instrumentation**
Automatic control—automation—data reduction: call it what you will, it is Instrumentation, and it offers some of the broadest and most satisfying careers available to today's engineers and scientists.

Atomic energy, development and stock, aircraft and automobiles, chemicals and chisanea, petroleum and electric power are only a few of the industries which need instrument men.

This need creates permanent opportunities in many of our operations, including research and development, product engineering, industrial engineering, production, inspection, market development and customer contacts.

The products with which you would be concerned include automatic, high-precision instruments for controlling, recording and indicating temperature, chemical concentration, radiation phenomena, frequency and load and many other conditions. For heat-treaters we make furnaces and process equipment. For the worker in science—whether student or researcher—we make both automatic and manual laboratory-type instruments, with which you may already be familiar.

The Company has about 3000 people—only one of the biggest in its field, yet is compact enough for you to be able to "follow the score". Its reputation for progressiveness in industrial relations, and for quality of product, is world wide. There are branches in 18 U.S. cities, and manufacturing affiliates or agents in all other industrial countries where American firms may operate.

Charles J. Minich of L&N will be on the campus sometime during the next week with information which he will cordially share about our very modern opportunities and rewards for engineers and scientists. Your placement bureau will arrange an appointment with Mr. Minich, at your request.

**Pledge Trips Need Approval of Peters**
A Carnival from Now (as when a pledge is sent to Penn State arranged) must have the signature of the president of the chapter which the pledge is accepted in. No trips will be approved if the pledge will come with money with him, also said. He noted that any trip's which will be approved will be considered a violation. At this point, no specific punishment is provided for violators. He said that any violations will be considered on the circumstances surrounding the violation. Peters said that he will re-emphasize his position in the matter next week.

**MIF Pledge Drones**
(Continued from Page 4)
feet from shore.

Similar incidents occurred at Illinois University in May, 1951, when two students were killed by the surf. The Cook County Medical Examiner's report stated that the boy died of shock and the second student was apparently drowned.

**OPTICAL REPAIRS—Prompt Service**
At our Factory during the day or evening. Mr. H. R. Heron, 1201 N. Spruce St., Dallas 5-6.
