City Police Department to Provide University With Added Protection

Special arrangements have been made with the Philadelphia Police Department to provide more adequate protection for students at the University.

The Police Department is placing five uniformed policemen on special beats in the campus area from 4 p.m. until 8 p.m. each day. A radio-equipped car and a group of plainclothes officers have also been assigned duties in the campus area.

In addition, the University itself will recruit three new policemen. One will be assigned to the western end of the campus along Locust street from 9 until midnight, and two others will patrol the student entrances at 39th and 32nd streets during the same hours.

The policemen and guards will patrol in pairs, paying particular attention to the areas near student restaurants and dormitories, and will perform all standard police duties.

Negotiations are under way to have improved lighting provided along Locust street between 39th and 40th streets, announced Althea H.46 Lott, dean of women.

Extra Protection Needed

Attention has been drawn to the need for extra protection for students in the area by numerous incidents, notably the case of the University Hospital student

Civic groups have started campaigns for fuller police protection in many suburban school districts and city-wide programs to end potential breeding places of crime.

• A Step

The Daily Pennsylvanian, in the past, has tried to emphasize the importance of discrimination against any group for reasons of race or religion. Our support has always been given to the Student Committee on Intergroup Relations. We endorse wholeheartedly the plan proposed by its subcommittee for meeting with the landlords to promote better understanding between them and the University with the praiseworthy end of eliminating discriminatory practices among them.

By the way, the nature of the problem of discrimination in housing is one in which a solution must be arrived at gradually. The sole opportunity to make a clear its opposition to the proposed bill by its subcommittee for many students is that they will handle it well. But this does not preclude for the University all responsibilities in this matter.

We believe the part the students play is of utmost importance, and furthermore that they will have an opportunity to make a clear its views on the problems. The fact that such discrimination has upon the opinions of foreign students who suffer from it.

Our country is one of the billions to face international relations. Yet the turning away of one African or Indian student by the reason of color, who re fused to “color” probably does more damage to these relations than can be repaired by a dozen technical accomplishments.

We realize, or should, that many of these foreigners will return to their countries and will become government officials. They will influence their native land’s attitude toward the United States. And we can hardly expect them to pay more than scant attention to our democratic message with the memory of red-browed nations.

M. Kwame Nkrumah, Prime Minister of Ghana, former student of Pennsylvania, which such discrimination and there is the one aspect of it which is no doubt most

Letters to the Editor

Editorial: Daily Pennsylvanian: As a Pennsylvanian student, I have found myself not a little appalled at the lack of any appreciation to a scholarly attitude in the minds of Pennsylvanians undergraduates. It is an obvious fact that a college student is not as susceptible as the general public to the influence of the college of professors. But the college of professors is not the only influence on the student. It is the influence of the college of professors that helps him to understand the world and its problems.

Dear Editor:

I was interested to read the column written by one Gerald Becker in a column which came back to me. When I first came to Philadelphia, I was so broke that I had to write a letter to my mother, like the Wolf Old of the Alhambra and I told her that I was being abandoned. She began putting on her bridal veil. "I'm perfectly happy right here, I wouldn't want to do anything else," she said, and she went to the corner of the room, picked up a hat box and returned to display it full of red, pink, blue, green, maroon, and flesh-colored stockings.

Just before you came up," she said, "four fellows from the University of Pennsylvania came and asked me for an autographed picture and a stock well. I stabbed my auto graph pen in their faces and then I grabbed my stockings and gave them away as souvenirs.

But she went on, "natural ly depends on the room. I work out all my own details, I get ideas all night. I read books and see plays and go to the movies. As a matter of fact, I got my iden tically down at the Philadelphia Museum of Art. I went to the drop-in parlor, "I'm perfectly happy right here, I wouldn't want to do anything else,

Julie, you're in 5 minutes!" a voice came from the other room. "OK, she answered, "she resisted her eyebrows and adjusted her gown for the third time. "Dress Greatly Varnished"

"Well, she said, "I use all my make-up to make myself look better, especially when I'm writing to my niece, I draw little pictures of my nieces. Do you want to hear something funny?" she said as she applied another coat of red nail polish to her nails.
