**Christian Scientists Feel Others Have Blind Faith According to Holloway**

The Christian Scientist is able to prove that which is taken on blind faith from the Bible by elaboration of facts. C. Holloway, a member of the Board of Lecturehip of the First Church of Christ, Scientist, Boston, Massachusetts, is a Christian Scientist from Newport, Rhode Island. Holloway has written articles, as a religion, in the belief of the truth in the treatise of the Bible by elaboration of facts. holloway said, "This belief is based on the new edition of the 'Science and Health' of the church, which was was issued in the fall of the 1890s.

**Body Discussion**

Miss Holloway explained that the Christian Scientists believe in the darkness from which man is searching for light. An example of these dark cavities is the belief that the mind is the only true reality. The mind is also said to be the source of all knowledge. The body, on the other hand, is said to be the embodiment of the mind. The body is also said to be the source of all knowledge. The body is also said to be the source of all knowledge.

**Education Need**

Education must be modified, Miss Holloway said, for the body of the human race, which is the darkness from which man is searching for light. The body is also said to be the source of all knowledge.

**Divine love always meets and**

Miss Holloway said, "Divine love always meets and the Mother Church, the man, needs," stated Miss Holloway in conclusion.

**Panel Will Discuss Middle East Issues**

Representing a government group, Dr. T. B. Bird, the spokesman for the United Nations, will address the panelists at the "The Issues and America's Policy in the Middle East" at a panel sponsored by the United Nations and the League of Nations at the University of Pennsylvania today in the Franklin Room of the Student Union.

The panel will be moderated by Dr. T. B. Bird, the spokesman for the United Nations, who is a political scientist, announced Miles Whitley, chairman of the panel. Harold Waring will represent the League of Nations. The panelists will also be joined by representatives of the United Nations, the League of Nations, and Israel. The panelists will report to the Arab government, the Soviet Union, the United Nations, and the League of Nations.

**The abandoned mill at the University owned Morris Arboretum will be donated to the Undergraduate Council of the University.**

"The abandoned mill at the University owned Morris Arboretum will be donated to the Undergraduate Council of the University," said Dr. T. B. Bird, the spokesman for the United Nations, who is a political scientist, announced Miles Whitley, chairman of the panel. Harold Waring will represent the League of Nations. The panelists will also be joined by representatives of the United Nations, the League of Nations, and Israel. The panelists will report to the Arab government, the Soviet Union, the United Nations, and the League of Nations.

**Military Ball to Feature Thornhill, Austin Bands**

The Military Ball is a formal dance with a military theme, sponsored by the Student Council and the University of Pennsylvania. The Military Ball will feature performances by Thornhill and Austin bands.
Letters To The Editor

Editor, Daily Pennsylvanian:

Do not let this season slip through your fingers without giving proper recognition to the fine job that the members of the Penn Quakers have done this year. Penn has, for the most part, done well, and even when they have lost, they have fought bravely.

Harvey Zalizne, Secretary

The Daily Pennsylvanian

THE PRESSBOX

by Dan Dowley

Penn's victory over the Rutgers crew on the Schuylkill River in Saturday's pennant of much of everything, and the Quakers are looking forward to bigger and better things this spring with the Chids Cup in New York.

A held to a top beat of 33 strokes a minute stroke Penn, the Red and Blue won away in 11:50 without exerting nearly as much more than placed, Less was costumed account for only one of the Schuylkill Cup. The Blue did not make up for Eastern crew supremacy, so the 11th race must be considered a success.

Next Saturday may be a different story, however. The cup race on New York's Har-

verst in the hands again Columbia and Princeton. The Tigers have already dis- named the Ralp Roberts, the boat was

Blackburn Cup,

magnificent racing crew of the Penn Quakers. Although the shell was not put into official competition in the 11th race, the Penn crew is still considered one of the strongest in the country.

By the way, if you are thinking of buy- ing a boat of a similar type for your own use, might be a good idea to forget it. The cost of the craft ran over $2,000.

William Lunderidge

For Eastern crew supremacy, so it should be a highly interesting race.

Then in the afternoon, some of the greatest events in the country, and in the world —will appear at the Penn Relays at Franklin Field. Penn should be well-represented here as well, both in the relay events and field events, where John Haines will be taking part in the two-mile run. The Penn track team has been carefully nurtured by the appearance of the Oxford relay team makes this one of the biggest days ever for the oldest Relay Carnival in the world. A special studententicement has been planned, so let's get out and support the Quakers on Saturday in the hope of a victory,

This is the time of the year that the call goes out to the small and meager managerial, because they cannot count on anything. One or two teams have started out well, but the time comes when they cannot put their words into action, few ever seem to appear genuinely interested.

One of the Penn Quakers, in the opinion of being associated with an Ivy-coach newcomer team, can always be counted on. Even the football team can always be counted on. The Quakers are the only team in the nation that will see the Quakers join a clebrated college in a big league.

Pennsylvana's championship lightweight crew takes to the Schuylkill River in the new Penn varsity shells. The crew is composed of a boat of a similar type for your own use, might be a good idea to forget it. The cost of the craft ran over $2,000.

Don't forget the date of April 23, probably one of the biggest days sportwise at the time. The Quakers will be running against Harvard, Princeton, and Columbia, to name a few.

The Quakers are expected to put their words into action, few ever seem to appear genuinely interested.

of the Bell System.

I'm working with top names and top talent

That's one of Richard P. Abraham's

comments about his career with Bell Tele-

phone Laboratories in Murray Hill, N. J.

"In 1954, after I'd received my M.S. from

Stanford, I was interviewed by a number of

companies. Of these I liked the Bell Labs interview best

- the interviewer knew what he was talk-

ing about, and the Labs seemed a high-

collar place.

"The Labs have a professional atmos-

phere, and I'm really impressed by my

workmates. As for my work, I've been

on rotating assignments - working on transistor

research and development, on switching

techniques, studying magnetic

drum circuitry, and doing classified work

on Nike. This experience is tremendous.

"In addition to the job, I attend Lab-

courses in graduate level studies a couple

three times a week. Besides that, the

Labs are helping me get a Ph.D. at

Columbia by giving me time off to get to

afternoon classes. That's the kind of

career-cooperation you really appreciate

from your company.

"What are important to me are the op-

portunities offered by the job and the

work itself. My wife and I own a house

near Murray Hill, and we've found a lot

friends through the Lab. In short, I feel

I'm in the right kind of place."

**Lost Items on Display in Library**

The Library Lost and Found has a large amount of unclaimed articles left behind by library visitors. The case contains such items as gloves, keys, key cases, wallets, and photographs. The amount of unclaimed size notebooks are also in the collection, although they are not pictured in the case. "It is hoped that all those persons who have lost anything within the library will check this case," said Walter W. Wright, assistant librarian in the service division.

**Frosh Debaters Are Victorious In Tournament**

The debate team of Barry J. Osterberg and Donald J. Grossman won this year's University Debate Panel Tournament, which was held Saturday in Dietrich Hall.

Speaking on the topic, "Resolved: that the non-agricultural industries should guarantee the non-agricultural worker an annual wage," Osterberg and Grossman compiled a 7-4 record in the four-round tournament. Each round was judged by two judges, each of whom gave separate decisions.

**Three Teams Tie**

Three teams were tied for second place in the standings with 8-2 records. A speaker point system was used to break the tie. Second place went to William Polk and Allia Omitski. The teams of Joseph Trimble and Matt Makina, and Charlotte Rhonier and Marilyn Soufer placed third and fourth, respectively.

Osterberg also chose the tournament's top speaker, compiling 23 out of a possible 25 points. Omitski was second with 21.5 points, while Arthur Hovme had 21.3 for third. Other total were Menken, 20.6; Polk, 19.8; and Grossman, 19.3.

**Twenty Entered**

Twenty persons were entered in the tournament, which was sponsored by the Varsity Debate Council in order to determine the University's best debaters. Four of the top students were invited to the Debate Council. Members of the faculty were also selected to serve as judges for the event.
