Skimmer Day 1956: A Challenge for Pennsylvania

We were extremely gratified to learn that the bands have been contracted for Skimmer Day and that all the final arrangements have been made. Within the past few years, Skimmer Day has become the highlight of the Spring semester. The weekend has always been an enjoyable event, and we sincerely hope that it will continue in the future. The event has become popular--it is known throughout the East and attracts undergraduates from numerous surrounding schools. Thus, Skimmer Day has helped spread the University's good name.

With this glowing description of Skimmer Day, we must not, however, forget the pitfalls of this event—mainly that our brothers have to carry the festivities far too far, to the point where they get out of hand. Last year we had an unfortunate experience with the Saturday night fraternity parties. From the fraternity's standpoint, each fraternity party should be responsible for its own brothers. If a fraternity brother becomes inebriated, the whole fraternity should be responsible for keeping that individual in the house and not out on the streets. A hired guard should be stationed at the door of each fraternity house to make sure that the parties are contained within the houses and that they maintain some measure of orderliness.

Furthermore, Locust Street should be closed to insure that the festivities do not interfere with the traffic. A group of campus guards ought to be on continuous patrol of the whole area. Any drinking that is done in a fraternity house should not start before 9 on Skimmer Day.

If there is any sort of a disturbance, the fraternities should be held ultimately responsible. The fraternity should be responsible for the actions of each of its members. Minimum penalties should be made known to the fraternities. Penalties could range anywhere from fines to social probation.

None of the above proposals are new in themselves. However, most of these ideas have not been faithfully tried before. At the University, we feel that Skimmer Day can be executed with the proper amount of propriety and decorum if these proposals are made operative. Skimmer Day is worth the while and can be successfully maintained if the proper measures are taken. Skimmer in 1956 is a worthwhile challenge for Pennsylvania.

The Man in the Gray Flannel Suit
by Robert Jaffe

Very often the boys in the publicity de-
partments of a motion picture studio in this
country are assigned the task of selling a
title when it comes to whip up public ty-
ning interest. The writer of the review is cer-
tain that the picture at hand is a winner. He
cannot stop short of this factual statement,
ecstatics, screaming for more of the same
in this category. In short, I have noticed a

"Whither Thou Goest?"
by Michael L. Steiner

Of all the varied types of students now
at Penn, there is one undergraduate
class which most undoubtedly be given the
dubious distinction of most annoying on
campus. This group of individuals, either
seeming to human nature or their own in-
curiosity, is that which sees the grass prev-
sently greener on the other side of the icy-
covered forensics. These continued individual
find themselves reaching out in vain for
something which is not to be found in any

In Ten Innings
Explorer Squad

Lafayette's lacrosse team scored six goals in the second period while blanking the Pennsylvania Colonials to give the Quakers their eighth straight victory, 13-6, yesterday, at Stewart Field.

Lafayette scored first in the period when Vince Alto threw the ball into the net. A goal by Bert 1:1 while Penn suffered its fifth defeat in the league without a victory.

The victorious squad was approximately the same combination that defeated the Colonials, 19-7. However, the visiting team had a year of experience while Penn lost three of its leading scorers from the 1956 squad.

The Quakers' next three games are against Ivy League opponents. Traveling to Dartmouth, Saturday, and Princeton, the Quakers hope to win their first Ivy victory.
