Buddha Talk

by Larry Keebel

Well, for general information, there was a r.p.m. last Thursday evening. Please do not hold any more raps on Thursday evening as it shools my column to back. I hear that Jay Frank, if 've let a French go too big, had trouble sitting into jail. Couldn't you have called the French police station and had them come and get him? For activity this week, there is only one event of any importance, and it is the Freshman Wig Show, which will be presented in Irvine Auditorium this evening at 11:30. From what I hear, students will have to hurry to get tickets. From my three years here at the University, I can say that it is the best show that has been given by the Wiggers. Charlie Meredith, undergraduate chairmain, states that $1700 will be collected from the Philadephia Zoo for the second act. To all those who have not, please get your tickets now. We have the Freshman Wig Show tonight, so the tickets had to be sold out. The Freshman Wig Show is branching out into book and told stories on their "Sharon's"..."Eddie Jacobs..." to students who will be out of place and not having a good time.

Ed Jones, of Mason and Wag fame, is directing the meeting of the Mason and Wag men into St. Anthony's Hall. The car just made it down the 55th and Pinnacle Street, and the students were addressed to two different teachers, they would never be considered by us.

The Freshman Wig Show has its representatives follow the ballot for the votes..."Those French have scheduled the election..."! I hear, students will have to hurry to get tickets. Your question is a natural one, Herschel — one we hear quite often.
Du Pont is unquestionably a large company in total number of
employees and in all its operations. But, actually, Du Pont is made up of
ten independent departments, almost as if it were ten companies under
one management. And it is a fundamental policy at Du Pont to promote from
within and on merit only.

That produces many opportunities for new men, but in
addition there are proportionately more promotions at Du Pont
for each year — by reason of expansion and re-
tirement — than you would find in most smaller
companies. I say "proportionately more" because Du Pont
has grown at an average rate of seven per cent a year for the
past 15 years — a record that few companies can match.

And Du Pont is still growing rapidly. Take your field,
electrical engineering. A host of new and challenging
problems have to be faced, both in new construction
and in maintenance. There are plants to design with features
that have never been applied before; there are new
equipment-control problems to work out, and new en-
ingineering processes to pioneer. So, to answer your question
in a word, Herschel, I'd say your chances of promotion
on merit are extremely good at Du Pont!
