25 Students Disciplined; More Action May Be Taken

Campus Nominees Win All Class Presidencies

Loughran, Link, Fosmire Elected

Results of the class elections, held one week after voting because of the impounding of the ballot boxes, show that the Southern Policy Party has won the presidency of all three classes.

Charles H. Loughran, Gordon Link and Richard Fosmire are the three men who were elected president of their respective classes. The results of the election, as well as the permutations of the different classes, are as follows:

Freshmen: Link, Link
Sophomores: Loughran, Loughran, Loughran
Juniors: Fosmire, Fosmire, Fosmire

Several other junior class officers were also elected. These included: Assistant President, John McGhee; and Treasurer, Peter D. McCallum. The Southern Policy Party is to be congratulated on the fact that it elected a slate of officers in which there were no candidates from the Undergraduate Council.

Additional Tri-Council nominations include: Menken, Menken, Menken, for freshmen; and Johnson, Johnson, Johnson, for sophomores and juniors.

ROTC Units

March Today

An intercollegiate competition and military event will be held at the Phi Beta Kappa Banquet at 2 p.m. in Alumni Hall. The event will be sponsored by the publicity committee of the Phi Beta Kappa Society.

Participating ROTC units are ROTC in the college, the Phi Beta Kappa Society, and the University of Wisconsin. The event will be held at the University of Wisconsin on the same day as the ROTC competition.

The competition is among the University Air Force ROTC, the University Marine ROTC, the University Army ROTC, and the University of Wisconsin ROTC. The event will be held at the University of Wisconsin and will involve all ROTC units.

Ball Tickets Sold Daily at HH Desk

Tickets for the Ivy Ball may be purchased at the Alumni Hall information desk, from 12 noon to 3 p.m. daily, and from fraternity conventions. Tickets are $2.50 each and are available at the Alumni Hall desk.

Southern Policy On Segregation Debated in HH

The Southern Policy's decision outlawing segregation and the subsequent attacks made by the Undergraduate Council, Dr. William Sibley, a law professor at the University of Texas, and Dr. Charles Oliver, professor of political science in the College, today's issue of the paper has been printed on a trial basis, under different conditions than those used in the past.

Fourteen Suspended

Punishments ranging from suspension to conduct probation have been given to 28 students involved in the recent riots on campus.

In announcing the decision, the Committee on Discipline stated it was necessary to take action against individuals and fraternities as the findings may warrant. No action has yet been announced concerning any fraternities.

Fourteen students have been suspended from the time until February, 1957. Five have been suspended until the end of the present semester, and one student has been suspended for one year.

Four students have been placed on good conduct probation until June, 1957. In addition, one student was given a warning for the remainder of the present semester.

Fourteen students have been suspended from taking part in any extracurricular activities.

Committee Met Daily

The Committee on Discipline, which met every day since the riots, is composed of both members of the faculty and the student body.

The riots, which occurred on the campus Thursday, May 3, resulted in the arrest of 115 students.

When the students ran into fraternity houses for shelter, the police were considered by many observers as being almost an irate motorist to control the police.

The police made efforts to clear the students out of the houses for a long and a growing crowd.

As Moderator

Dr. Barrett, a junior in the College, was elected moderator of the Phi Beta Kappa Society for the consecutive term Friday night at the Society's final meeting of the year.

Barrett is a member of Phi Beta Kappa honorary fraternity, pi, a member of Phi Lambda Kappa honorary fraternity, and a member of Kappa Phi Lambda.

Solution Full

Indicating that the first two solutions are "clearly wrong", the Committee on Discipline concluded that the only alternatives are segregation or integration. The Committee challenged the students to establish a legal right to establish a black fraternity, to support their standards with one qualification: that if any Negro child met the equitable standards then he must be accepted to the white school regardless of how many Negroes failed to meet the requirements.

DP Issue Published By Other Process

Letters to the Editor

Editor, Daily Pennsylvanian:
The writer of this letter does not have many years of experience in both Catholic and secular schools, and it is possible that he is not familiar with some of the facts presented in the previous letter. However, I believe that my own experience as a student in both Catholic and secular schools has taught me that the principles of both systems are fundamentally the same.

In my opinion, the Church has always emphasized the importance of education, both religious and secular. The Church has provided schools for children of all ages, and has always been willing to support the education of its members. In this way, the Church has been able to provide a balanced education for its members, and has been able to ensure that all of its members have the opportunity to learn about the world and about their faith.

On the other hand, I believe that the secular system of education has also been successful in providing a balanced education for its students. The secular system of education has always emphasized the importance of critical thinking, and has been willing to provide students with the opportunity to explore different ideas and cultures. In this way, the secular system of education has been able to provide students with a broader perspective on the world, and has been able to help students to develop the skills that they will need to be successful in the future.

I believe that both the Catholic and secular systems of education have their strengths, and that both systems are necessary for a balanced education. I believe that the Church should continue to support the education of its members, and that the secular system of education should continue to provide a balanced education for its students. In this way, we can ensure that all of our students have the opportunity to learn about the world and about their faith, and that they are able to develop the skills that they will need to be successful in the future.

Sincerely yours,
[Name]

P.S. I would be happy to provide more information on my own experiences in both Catholic and secular schools, if you are interested.

Nassau Hosts Penn Runners In Dual Meet

In its only non-Saturday meet of the season, the Pennsuaw varsity football team arrived at Princeton today in hopes of defe.

Winless Stickmen Engage Princeton

Pennsylvania's varsity laurel squash travels to Princeton today to face the Tigers in an Ivy League squash match. The Tigers are currently in second place in the league and hold victories over Harvard, Dartmouth, and Cornell. Their only loss of the season in league play was to Yale, currently leading the league.

Last year Princeton blanked the Quakers, 5-4, and holds a 22-2 advantage in a season that began in 1938. The last time that Penn defeated the Tigers was back in 1922.

Three members of this year Princeton team received All-American laurel honors last season. Defenderman John Petroni was named to the second team, Captain Charles Orlebeck at attack and Bill Campbell at goal was a honorable mention. Last year Princeton’s lead all other brands, turned lead all other brands, turned Luckies lead all other brands.

Tennis Squad Faces Hawks

Seeking to preserve the distinction of never having been defeated by St. Joseph's, Pennsylvania's varsity tennis team meets the Hawks this afternoon at 2 at the Gyclaw Club.

Last year Penn handed the St. Joseph's squad a 3-0 bruising as the Quakers failed to lose a single set in the match. The Penn rotators may have more trouble this season however, as the Hawks have compiled a respectable 7-5 record and have five of their starting singles players returning from last season.

Five Returns

Among the returns for the Hawks are numero uno Bob Joklinski, Joe Bartlett and Jim D'Oreo, Joe Westmeaker and Joe Girard complete the list of returners. The other singles slot is filled by newcomer Bill Leonard.

For Penn, coach Wallace Johnston is expected to see essentially the same starters that lost to Army last February, with the possible exception of the fire and steel that were in the colors. At Penn will probably get back into the lineup as a result of his challenge match with Over And Josephoff.

Captain Ted Morris, holder of the best single record, will return with the other three slots at usual. The Presbyterian will have a new number one and sophomore Ralph Byler, who has played two years, joins the line-up with T. C. Delph.

TOASTED to taste better. Now check that drool above: Lucky-smoking midget in telephone. That’s because they’re made of fine tobacco! — mild, naturally good-tasting tobacco that’s cleaner, fresher, smoother!

LUCKIES RING THE BELL with college students all coast to coast. The number one reason: Luckies taste better. Now check that drool above: Lucky-smoking midget in telephone. That’s because they’re made of fine tobacco! — mild, naturally good-tasting tobacco that’s cleaner, fresher, smoother!

LUCKIES TASTE BETTER - Cleaner, Fresher, Smoother!
TILL WE MEET AGAIN

I always find myself yawning helplessly when a comedian, having finished his act, steps out in front of the curtain, takes off his glasses, assumes a serious stance, and delivers an oration full of tender and lofty sentiments.

So how come I'm doing precisely the same thing right now? Two reasons. First, because I couldn't possibly make you laugh at this time of the year; cooking for finals has left you waxen, woebeoge, and in no mood for innocent merriment.

Second, because this is the last column of the current series, and I'd be a liar if I didn't admit I was just a tiny bit choked up.

It was two years ago that the makers of Philip Morris asked me to write this column. My first impulse, frankly, was to say no. Though I am a man who likes a dollar as well as the next fellow, my talents just do not seem to lead me in the direction of writing advertising copy. When called upon to espouse soap or wax or cigarettes, I get gurgling uncontrollably and have to be helped home.

"Helpful," said I to the makers of Philip Morris, "I smoke Philip Morris myself, and I think it's a Jim-Dandy cigarette. But that's all I think it is—a cigarette. Not a grave image. Not a love object. Just a smoke. I'm afraid I can't get revenue enough to write ad copy for you.

To my astonishment, they seemed delighted. "Revenue is not required," said the people at Philip Morris. They assured me that I would not be required to write fumes commercials—that I could sell theлизи and the company all I liked—that my columns would be mine alone, with no editing, no suggestions, and no supervision.

"Hah!" I said by way of reply.

But they insisted on selling and finally, my thin breast full of mirth, I went to work.

For the first few weeks they were scrupulously true to their word. Not one syllable, not one comma, was ever changed; not one quarter-of-second of pressure was ever exerted. But my double were not laid to rest. "When will the honeymoon be over?" I kept asking myself.

I DREAMT I WENT TO SKIMMER IN AN EDDIE JACOBS ORIGINAL

All A COED Needs to Know About Car Repairs

When Mother was a coed, she didn't drive much. But when she did, a was usually alone. The man was an indispensable accessory—to fix the car when it got balky.

If today's coed takes a man along, it's strictly for company, fixing her make-up in the rear-view mirror is the only kind of "car repair" she needs to know.

From the beginning, auto makers have aimed for a virtually trouble-proof car. They've spent millions to get cars that way. It helps explain why so many cars today use Timken‡ tapered roller bearings to overcome friction in gears. Every American car but one uses Timken bearings to keep them on the go with minimum maintenance.

By increasing speed and precision, decreasing wear and maintenance, The pioneering spirit has helped make us the world's largest manufacturer of tapered roller bearings and removable rock bits, and a leading producer of fine alloy steel. Because the best place to keep going—and keep going up—is with a company that's on the go, you may be interested in what lies ahead for promising college graduates at the Timken Company. For details, write for our booklet "This Is Timken". The Timken Roller Bearing Company, Canton 6, Ohio.
