Buddha Talk
by Larry Kenfiled

As the new year 1957 starts off, many New Year’s resolutions are being made. It seems that some of these resolutions are not likely to make it through the year. Most of these resolutions are probably not going to be kept for very long. But as we look back at the resolutions of the past, we see that some of them were successful. For example, many people made the resolution to eat healthfully. This resolution was kept because it was a pleasurable experience. Many people also made the resolution to exercise regularly. This resolution was successful because it helped them to stay in shape. But as we look at the resolutions of the future, we see that some of them are not likely to be successful. For example, many people are making the resolution to save money. This resolution is not likely to be successful because it is difficult to save money. Many people also make the resolution to lose weight. This resolution is not likely to be successful because it is difficult to lose weight. But as we look at the resolutions of the past, we see that some of them were successful. For example, many people made the resolution to eat healthfully. Trackmen Prep For First Meet Of Indoor Year

Meet an Assistant Manager—Hampden-Sydney, '53

Frank Hoffman is Assistant Manager of the telephone office at Newport News, Va. His office has about 25,000 accounts, and handles $500,000 worth of business a month. He joined the telephone company in 1953, only three years ago.

"My wife worked three years," says Frank, "while I was still in college. What she told me, along with what I learned from friends in the business, pretty well sold me on the telephone company as a place to find a career. And the interview clinched it. The job opportunities were too good to refuse."

"I began in the Commercial Department, which takes care of business contacts with customers. The training was continuous and excellent. One of the most rewarding jobs I had was working on revenue studies involving estimates of population and telephone growth. This experience is really useful in my present position as Assistant Manager."

"I supervise the personnel who handle customer contacts, and assist in the handling of our public relations work in the community. In the Manager's absence, I take over."

"It's a great job, full of opportunities and satisfaction. I like working with people, and I like to see my work contribute to the betterment of the community and the company. Choosing a career in the telephone business was the best move I've ever made."

Frank Hoffman chose a career with The Chesapeake & Potomac Telephone Company of Virginia. Inter-esting career opportunities exist in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Radio Corporation. Your personnel officer has more information about them.
Wharton Senior Forced To Pay
$50 Alimony in Divorce Ruling

by Arthur C. Pasciante

The long, hot tale of a Wharton School senior who was so busy learning how to make money that he didn’t take Sociology I came to an end last week.

The student had gone before a judge of the Supreme Court, Mannington, this time, seeking an annulment and a decree that the month-old child his wife bore was not his. But, while the student had married for love to keep his parents from learning of his premarital carriage escapade, he had not married for the proposed 

McGinness Named
as Special Assistant
To Secretary Folsom

Dr. Allen C. McGinness, dean of the University Graduate School of Medicine, was special assistant to the Secretary of Health, Education and Welfare when he was sworn to last Wednesday, in Washington, D.C., by Secretary Marin B. Fishback.

Dr. McGinness, a pediatrician, was noted to the President’s Council on Health and Social Affairs. His appointment is subject to Senate approval.

After serving three years as dean of the graduate school, Dr. McGinness resigned in 1940 to become clinical consultant for the First National Bank of New York, where he has been engaged in research and consulting since.

LATE DATE WITH A BIRTH RATE

JUNIOR’s driving the combine tonight. He’s got a date with the 10,733 new Americans who’ll be born by next sundown. A birth rate that has upped our population 50 million since 1940—while 2 million farmers have left the farms for other jobs.

How can 2 million fewer farmers feed 50 million more people? Machines—millions of them—are the "hired hands" of steel which enable him to produce "more. Tractors do the work of 40 men. Grain combines reduce labor 85%.

Farm production depends on the trouble-free operation of these machines. That’s why every tractor uses four "improved" tapered roller bearings. Why more and more implements are using them, too.

Imbeke bearings reduce breakdowns because they wipe out friction, require less maintenance, minimize wear to keep farm machinery the go.

Keeping farm equipment rolling smoothly is just one example of how the Timken Company keeps America on the go. We work hand-in-hand—drawing-board to-drawing-board—with all industry to increase speed and precision. Decrease wear and maintenance. Improve the machines that are improving your way of life.

This spirit of cooperation and progress has helped make "Timken" the best-known bearing in America. It’s helped make us the world’s largest manufacturer of tapered roller bearings.

And it’s kept us moving up. If you want to keep moving up, you might be interested in what we can offer you.

Write for our brochure, "Careers Opportunities at the Timken Company". The Timken Roller Bearing Company, Canton 6, Ohio.
