Tuition Will Be Increased $100 Per Semester

Statement Threatening Engineers in ROTC Termed "Irresponsible"

Suggests No Credit To 4-Year Students

A statement that engineering degree obtained in four years by students taking ROTC will not be recognized by the American Society for Engineering Education, was termed "irresponsible" by Dr. Carl Chambers, vice-president of engineering affairs, put forth by the Society, which is the leader in the field of engineering and which made the threat to a national college and universities.

Dr. Chambers's Statements

The ASSE statement was made after the Rotc Board Selections, the American Society for Engineering Education, which has the entire group of students under its supervision, failed to obtain its share of the Army's funds.

The Army ROTC program, which is supported by the federal government, has been in existence for 50 years. Since the program was organized, 400,000 students have graduated from the Army ROTC program, which has been responsible for the education of many of the nation's top military officers.

The Army ROTC program provides students with an opportunity to serve their country and to gain valuable experience in military leadership and training. Students are provided with training in military tactics, strategy, and leadership, as well as in the technical aspects of their chosen field.

However, the ASSE statement has raised concerns among students and parents, who believe that the program is not providing the necessary financial support to ensure the success of the students and the program.

The ASSE statement has also raised questions about the future of the program and the impact it may have on the quality of education and the experiences of the students.

Tuition will be increased $100 per semester, effective immediately. This increase will affect all students enrolled in the ROTC program, regardless of their major or level of study.

The statement threatens that if the ROTC program is not adequately funded, it will be closed effective March 1.

Survey of Foreign Languages

Discovers Romany Is at Penn

By Richard F. Poulin

To all wondering on the campus of the University of Pennsylvania, here is a list of active enrolled students. It was recently discovered in a survey of foreign languages throughout the university, in a course in language, the open to students.

Whether this fact is known by anyone at the University is not clear, but the American language, the Romance, has not been made.

We’re not trying to be funny when we say the entertainers have become a galaxy of stars. Neither are we trying to be philosophers when we compare them with the stars in the sky. It is simply to say that there is a man in a constant procession and desire, that is it never more than a millionth of a second, than they start from a size, maintain their brilliancy for a time, then fall off into the darkness. But there is more to the entertainers world than just the millionth of a second. There is the brilliance of their performance and the endurance of their minds.

We have been observing the early summer of a long bright star in Nick DeMott. If you recall, a few weeks back, there was an article which appeared in the first major broadsheet, laying out the brilliance of this particular star, a list that was introduced as a 16-year-old from Philadelphia. He won the show.

He was not an ordinary 16-year-old singer. His voice sounded almost fully matured. Clear, clean, and crisp. This is not a small factor. It is a detail that contributed to his success. And I think that is what many of us could call the true start of his career.

Nick has come to be known as the new face on the music scene. He is a rising star, and we believe that he will be a shining light in the industry for many years to come.

Shine Near 53' In NYAC Meet

Sophomore Carl Shirl's fourth place finish in the shotgun event, featured junior offsets in the New York Athletic Club Track Meet at Randall's Island Stadium in New York City Saturday evening.

Competitor in his first meet of the season, junior offsets, Edward Shirl joined the junior offsets, 9-24, in the interesting workers in the junior offsets, 9-24. The junior offsets were won by 22, 2 counts. In conclusion, Carl Shirl defeated the junior offsets.

Army Wallops Merren; Harvard Bests Wrestlers

Penn Loses, 27-3

Pennsylvania's varsity wrestling team defeated Rutgers Sunday afternoon, dropping a 27-3 decision to Harvard, Saturday at Cambridge.

As in last week's loss to Princeton, the Harvard-Harvard meet was well attended. (Harvard's winning margin was only 6-0.)

The Penn team defeated the Princeton team, 21-3, on the junior offsets.

The Quakers were again blemished by injuries. Harvard started with 5 men in last Saturday's match, but the 144-pound wrestle was not on the junior offsets. Harvard's winning margin was only 6-0.

In the 135-pound bout Jacques Van Damme to Paul Mott, a point by Yale's Edward Shirl defeated the junior offsets. In the 144-pound bout, Harvard's winning margin was only 6-0.

Codawin, 66-20

Pennsylvania's varsity wrestling team defeated Codawin School Saturday afternoon, dropping a 27-3 decision to Harvard, Saturday at Cambridge.

As in last week's loss to Princeton, the Harvard-Harvard meet was well attended. (Harvard's winning margin was only 6-0.)

**Training Program Works...**
A "learning-by-doing" philosophy is basic at Kearfott. As no manual Project Engineer, you are given assignments in several engineering laboratories in service to which you will contribute your best efforts and find your greatest satisfaction. Under the guidance of master engineers and specialists, each man takes his project through from inception to final production, thus acquiring a broad experience-background. Success depends on individual initiative and conscientiousness.
