Group To Be Selected
By Residents Protestating
Dorm Land Acquisition
Property Owners To Meet March 12;
City Council Representatives To Confer

The property owners and residents of the area that has been designated for future use in the women's dormitory have agreed to meet with the City Council representatives in protest of the University's proposal to build a dormitory in their neighborhood.

Because of this protest action a series of meetings will be held by the committee with representatives of City Council. It is expected that subsequent meetings will be held at the University.

The residents represented protest against the way in which they were notified of the plans for the dormitory. They claimed that they were not given adequate time to consider the implications of the proposal.

Not Blighted
"The people in this area do not consider this property as one that should be blighted," a resident said. "We believe the University should be held to the same standards as any other developer in the city."

Committee Selected
For CA Nomination
Miss Elizabeth Chadwick has been appointed chairman of the committee which will select candidates for the Commonwealth Advisory (CA) position, with Wallace Gordon, president, and in cooperation with the University Faculty Club.

Other members of the nominating committee include: William H. Bullock, John E. Schmitt, George H. L. Brown, Charles H. Newnham, and William E. Miller. The committee will solicit the names of residents wishing to serve on the CA committee.

Additional Issues Depend on Undergrads
University Graduate First Head
Of Ghana, New African Nation

Dr. Kwame Nkrumah, first premier of Ghana, formerly the Gold Coast Colony, has been named president of the University of Ghana, where he is also the president of the Board of Governors.

The All-African Students Union of Greater Philadelphia will only invite students from the British Commonwealth to the University's faculty dinner, extension 53.

Dr. Byrse Appointed
Visiting Professor

Dr. Clark Byrse, professor of law at the University of London, will be on leave in Philadelphia during the spring and summer months. He will lecture on the subject of "International Law and the Law of the United Nations." His lectures will be held in the Engineering Hall.

Heeding Positions on DP
Open for Fresh, Sophmore

If the student is not satisfied at the hammer and sickle, he wishes to fill only for one year of The Daily Pennsylvanian is interested in new positions. The Daily Pennsylvanian is a co-ed weekly and operates on a non-profit basis.

In the spring of 1952, the Daily Pennsylvanian will publish an issue in honor of the 25th anniversary of the University. The issue will be distributed to all members of the University community.

Gates Appointed
Vice-president

Byrse was appointed visiting professor of law at the University of Utah, Salt Lake City, during the spring of 1952. He will lecture on the subject of "International Law and the Law of the United Nations." His lectures will be held in the Engineering Hall.

University Graduate First Head
Of Ghana, New African Nation

Dr. Kwame Nkrumah, first premier of Ghana, formerly the Gold Coast Colony, has been named president of the University of Ghana, where he is also the president of the Board of Governors.

The All-African Students Union of Greater Philadelphia will only invite students from the British Commonwealth to the University's faculty dinner, extension 53.

Gates Appointed
Vice-president

Dr. Byrse, appointed by the University Board of Trustees, was named vice-president of the University of Utah, Salt Lake City, during the spring of 1952. He will lecture on the subject of "International Law and the Law of the United Nations." His lectures will be held in the Engineering Hall.

University Graduate First Head
Of Ghana, New African Nation

Intra-Mural Basketball Play Moves Into Final Stages at Hutchinson Gym

The ships are down as the three-household basketball season—fraternity, independent and sorority—moves into their final stages with crucial final contests.

In the four-fraternity loop, the big battle is between DKE and EMU as the Red Devils/Phi Lambda hold a multipled possession of first place with a 4-0 record. As a result of a highly contested 26-25 over kappa Nu Thursday, KNS and DKE are now deadlocked for second with 3-1 records.

Three To Go
If SSM loses BKE and KN takes its last game against TEP, it will throw the championship into a tie, and the tournament—which begins Saturday morning—would necessitate a three-game playoff, according to Jack Glasscott, director of Intramural athletics. Should the tiebreakers fail, the Russell Library will determine the game.

Another important contest is the one between Delta Sigma Phi and BKE, in the Green League. Both teams are tied for the top rung.

the Beginning of Your Career

On this date our representative will be on your campus. He will dis-

cuss with 37 engineering graduates the opportunities offered by a

TRAINING PROGRAM WITH ONE OF THE NATION'S

MOST PROGRESSIVE PUBLIC UTILITIES . . . .

Philadelphia Electric, which serves the fast-growing Delaware Valley, has spent over $251,000,000 for new and expanded facilities since 1945, and plans expenditures during the next five years at the rate of about $1,500,000 a week. You will find here an opportunity of all the initiative, vision, and energy you possess, a career that will ultimately bring you the highest return in personal satisfac-
tion and professional development.

See your placement officer, read our literature in his files, then sign up for an interview.

CHOOSE QUALITY SHAVE WITH Old SPICE

Rich, creamy quality for shaving comfort and skin health. Formulated for Old Spice shaving cream, gave

giant tubes:

The future looks unlimited

"I wanted a career that offered varied variety and a chance to work with people," says Lewis William Post, C.E., Michigan State, 1950. 

"That's why I went to work for the telephone company.

My training—two full years

of it—probed every phase of company operations and acquainted me with all the jobs in the Plant Department, where I was starting.

Today, as Plant Engineer, I'm re- sponsible for preventive maintenance of all field equipment, installation of new facilities for wire and cable, and I work with architects and builders on telephone needs in new buildings.

Frosch Trackmen Defeat Hill School in Blizzard

by Harry Desnick

POTTSTOWN, Pa., March 1—Pennsylvania's freshman track and field team defeated the Hill School today in a driving snowstorm.

The Quakers took both of the first few races proving a total of 248 points.

The Quakers' star, Joe Keating, set a new indoor meet mark in the track and jumping pits and refused to let up until all but two of the events had been finished. The only casualty to the weather was Quaker broad jumper Jim Hatman who slipped on the wet boards and suffered contusions, fractures and lacerations.

Secretary Honored

Ray Garby, secretary to C. K. Healthy, Paul, Director of Sports Publicity, has been selected as a member of the United States Touring women's tennis team.

The team is going on a 26-game tour of Canada, England and Australia. They leave August 12. There are 15 players on the squad. 

For the past three years, Miss Garby has been placed on the Sec- retary of the Women's All American Lawn Tennis Association.

Sports Heeler Report

All three intercollegiate sports—football, basketball and track—could report to the story of a day. The first football game, at Drexel, saw Penn score 248 points.

Penn took both of the four field events. Events Jordan captured finished first, while Dunlop set a new school record in the long jump, and Paul Gersten and Jordan Mazurkiewicz took the pole vault honors.

A Campus-to-Career Case History

"Selling's part of my job, too. I sell ideas—like the wisdom of planning for telephone service when you're building. Recently I advised an archi-
tect and his owner on telephone wiring and outlets; in a new $160,000 medi-
cal center. I enjoy getting in on the ground floor of such projects and making contributions both as a civil and a telephone engineer.

"In my area of Chicago there are 89,000 telephone, home and busi-
ess lines being added every day. There's expansion everywhere in the telephone industry all across the country. To me, the future looks unlimited.

Lev Post's career is with Illinois Bell Telephone Company. Many interesting career opportun-
ities exist in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about these.

Step into the Expanding Field of Instrumentation

Automatic control, or automation, or data reduction are all instrumentation, and offer some of the broadest and most satisfying career opportunities to today's engineers and scientists.

Atomic energy, iron and steel, aircraft and automobiles, chemical and chlorates, petroleum and electrical power are only a few of the many industries which need instruments. This need creates permanent opportunities in electronic equipment, including research and development, product engineering, industrial engineering, production, inspection, market development and customer contacts.

The products with which you would be concerned include automatic, high precision instruments for controlling, recording and indicating temperature, chemical concentration, radiation phenomena, frequency and many other conditions. For heat-treat equipment, for monitoring and indicating temperature, chemical concentration, radiation phenomena, frequency and many other conditions.

The Company has about 3000 employees in the city of its field, and is compact enough for you to be able to "talk to the score." Its reputation for progressiveness in industrial relations, and for quality of product is world-renowned.

Wayne L. Boelstein, our Coordinator of Technical Employment, will be on campus on March 18, 1967, with information that you will find quite interesting about this exciting opportunity. The Company has about 3000 employees in the city of its field, and is compact enough for you to be able to "talk to the score." Its reputation for progressiveness in industrial relations, and for quality of product is world-renowned.
