Newman Club Chooses Kilcoyne. As President
By Unanimous Decision

Miss Marano Named to Vice- Presidency; Dunn, Miss Gallagher Elected to Positions

James J. Kilcoyne, Jr., a junior in the college, was unanimously elected president of the Newman Club center, for the school year of 1967-68, John McCarr, retiring president announced.

Elected to the vice-presidency was Barbara Marano, while Frank Dunn was chosen to fill the position of treasurer. Mary Patricia Gallagher was elected secretary.

In special ceremonies held yesterday, McCarr presented Kilcoyne with the gavel, which is the symbol of the office of the presidency. The gavel, recently purchased by the Newman Club, will have the names of each president inscribed on it.

Kilcoyne, a member of Del- la's Class of 1968, is in the Chaplin's lecture committee. He is also a member of the Student Council and Kitc and Key Society and is a member of the Rush Committee last fall.

A junior in the College for Women, Miss Gallagher is the daughter of Professor John Gallagher, and is a member of the Delta Delta Delta and Delta Gamma sororities. She is also the club membership chairwoman.

Along with McCarr, the other out- going officers are Robert N. Weinberg, who is the club's secretary-treasurer, and Marshall B. Nelsen, who held the position of vice-president.

Both were re-elected to their respective positions for the vice-presidency, were Miss Gallagher, a junior in the College for Women, and Nelsen, a junior in the College for Men.

Dunn, a junior in the College of Arts and Science, is a member of Phi Beta Kappa, and Nelsen is a member of the Delta Delta Delta.

College Seniors Advise
On Academic Honors

A group of upperclassmen will be available to consult with sopho- mores and seniors on courses and syllabi from 7-9 tomorrow in the William Penn Room, on the third floor.

The purpose of the voluntary counseling service is to assist lowerclassmen, with areas of study.

The service is intended to supplement the College's regular system of advising which lasts one or two weeks near registration.

Members of the group were selected from the senior class, and the selection was based on the studies which the senior takes. Other sen-

Students Start Political Group
To Nominate Stassen for Gov.

A student group is being formed in Pennsylvania to work for the gubernatorial campaign of Stassen in the fall of 1967. The group, which will be called the Pennsylvania Stassen Committee, was organized last week.

Arlund also stated, "to view the spontaneous response of the Stassen movement" that had been asked by friends to the press for Governor of Pennsylvania that have reported on the enthusiasm support of Stassen throughout the country. Of course, the enthusiasm of the director general has been generally noted as a result of what has been reported in the Stassen press, so far as I remember, such support in the world, and particularly in the state of Pennsylvania. The group has been formed under the leadership of Mr. Arthur A. Lewis.

The president of the Pennsylvania Stassen Committee, who is also chairman of the newly formed committee for the state of Pennsylvania, has been selected and John A. Lewis, who is chairman of the executive committee for the state of Pennsylvania, has been elected chairman of the committee. The new committee has been formed and is under the leadership of Mr. Arthur A. Lewis.

Engineer's Day Held
On Saturday, May 4

Engineer's Day will be held this year on Saturday, May 4th, Robert F. Beckman, president of the Engineers, announced.

Publicity chairman for the event, which will include a special concert and a Houston Music Festival, is George E. Biddle of Meridian, a member of the Student Council and the Engineering Honor Society.

The city is expected to pour over 100,000 people. The concert will begin at 7 p.m., and will be broadcasted on WABC and other radio stations.

Engineers for the city will be the keynote speakers at the Engineers' Day celebration on April 30th, and will be recognized at the Hourly Fair and the Expressway Fair.

The Medical School, School of Dental Medicine, School of Women's Medical, and the Philadelphia General Hospital are cited in observing Medical Education, April 29 in the Daily Pennsylvanian.

A center of medical education observed this week the University of Pennsylvania. The University continues its role of leadership in this area as it teaches with greater emphasis on undergraduate work. In addition, students observe the problems in the medical profession.

Medical Society of the Philadelphia County Medical Society, School of Dental Medicine, School of Women's Medical, and the Medical Education Council of the Pennsylvania Medical Association are cited.

Radiation Risk Absent In Harrison Lab Blaze

Radiation danger from Sunday's fire at the Harrison Lab was as insignificant as to the size of any fire department's efforts to quash the blaze, Dr. Richard H. Chamberlain, director of the University's Radiation Laboratory, and Dr. Donald E. Hahnemam, assistant director of the center of the university's Center for the Study of Cancer.

It was stated that while the loss of the laboratory, which destroyed most of the third floor and a number of important research projects, the damage was not as great as had been feared. The laboratory building was situated far from any radioactive materials that might be present. The building was situated far from any radioactive materials that might be present.

A report to the Laboratory's basic principle is that it is less important to know what has been lost than to know what has been saved. The Laboratory's basic principle is that it is less important to know what has been lost than to know what has been saved. The Laboratory's basic principle is that it is less important to know what has been lost than to know what has been saved.

The Daily Pennsylvanian has a definite role in the University community. This role must be recognized by each new group of editors. Our present activism of a campus newspaper is yet in the formative stage with a great deal of progress still possible in our overall news coverage possible. In line with this idea we have editorial comment on campus events.

We have also a duty to the University. The paper's primary responsibility for the improvement of the University. In the past The Daily Pennsylvania has been able to render great service to various segments of the University and it is our sincere desire to continue in this tradition.

We intend to be provocative critics with a slight taste for reform. We believe that the University has come a long way on the road to the top and that there is still a strong force in accomplishing the rest.

In keeping with our efforts for self-improvement and the desire to increase the interest of the students both readers and as members of the paper.

Rashly we feel that a flexible policy is the wisest and most practical course of action. In such a flexibility will allow us to view each situation as it arises. The editors shall frame our principles as we launch our new year.

**Propaganda Magazine**

**The Students Friends**

by Charles H. MacNamara

Despite the writer's scruples the Soviet Union is also an attractive proposition at least according to the friendly Soviets who publish the monthly propaganda magazine Propaganda.

Michael Krenkoffsky's article, "The College Student in the Soviet Union" absolves all the naivete and ignorance that has usually accompanied such articles. Mr. Krenkoffsky's article is one of the best I have read on the subject in many years.

I myself believe that the Soviet Union is a place where one can do effective work and where one can do things that will make a difference to the world. I am not sure that I would like to live in the Soviet Union or work there, but I believe that it is possible to do effective work there. I believe that the Soviet Union is a place where one can do things that will make a difference to the world. I am not sure that I would like to live in the Soviet Union or work there, but I believe that it is possible to do effective work there. I believe that the Soviet Union is a place where one can do things that will make a difference to the world.

Next year, a Senior... the following year, What? That's a question only you can answer. But, if you are an engineer, consider this...

WHERE THE DEVELOPMENT OF ELECTRONIC MARVELS IS CREATING OVERWHELMING DEMANDS FOR MORE ELECTRIC POWER. THERE WILL BE MORE AUTOMATION FOR INDUSTRY. MANY OF TODAY'S ROUTINE JOBS WILL BE DONE AUTOMATICALLY BY AN ELECTRONIC SPECIALIST OPERATING A GIANT PRODUCTION LINE. TOMORROW'S HOME-OWNER WILL SLEEP IN A BED ENCRUSTED WITH THE WARMING RAYS OF A RADIO FREQUENCY CANOPY. NO COVERS WILL BE REQUIRED, NO BEDS WILL EVER HAVE TO BE MADE. ELECTRONIC COMPUTERS WILL TAKE MUCH OF THE RISK OUT OF THE FARMER'S DAILY COMBAT WITH THE ELEMENTS—HELP HIM TO GROW MORE AND BETTER FOODS. THESE AND COUNTLESS OTHER MARVELS WILL BECOME REALITIES AS FAST AS YOUNG MEN WITH THE ABILITY, IMAGINATION, AND COURAGE CAN BE FOUND TO MAKE THEM SO.

If you are this kind of man, looking for this kind of future, get the complete facts about the electric utility industry by talking to your placement counselor or to the personnel director of one of Pennsylvania's electric power companies. Write to Pennsylvania Electric Association, 8th Street Building, Harrisburg, Pa., telling them where you would like to live and work.

Make friends with Winston!

WINSTON TASTES GOOD! LIKE A CIGARETTE SHOULD!

WINSTON is in a class by itself for flavor!

It's fun to share a good thing! That's why you see so many Winstons being passed around these days. Try 'em. You'll like their rich, full flavor, too. And you'll like the way the Winston filter,..enjoy the snow-white filter in the cork-smooth tip!

That's a kind of future only you can answer. But, if you are an engineer, consider this...
