126th Annual Jr. Week Will Commence Today, Cane March Thursday
Billy May Orchestra To Play at Prom; Events Include Poster Contest, Chapel

The 126th annual Junior Class Week begins today, featur ing the traditional Cane March Thursday. From the Multitude of the Men's Dormitories.

In addition, this year's Junior Week will be highlighted by the Junior Prom from Friday evening at the Broadwood Hotel featuring Billy May's Orchestra, a fraternity poster contest, and a jazz concert at Boston Hall following the game. Included in the week's activities will be service sponsored by the junior class and chapel.

In fact, the Cane March will be led by the class then the Three and the Three who will also be accompanied by the ladies who are the Three and the Three. The Junior Prom will be held at the Broadwood Hotel on Friday evening featuring Billy May's Orchestra, a fraternity poster contest, and a jazz concert at Boston Hall following the game. Included in the week's activities will be service sponsored by the junior class and chapel.

Public Aid for Local Education Urged by Area College Heads

The presidents of 20 colleges and universities in the Greater Phila- delphia area, including Dr. George F. Harrell, president of the University, issued a joint statement Saturday saying public support for local education is needed.

The statement was issued in cooperation with a nationwide drive sponsored by the Council on Financial Aid to Education, to raise money for public education.

The president for the support of higher education, labeling it "the single greatest need," and saying that 75 percent of the nation's high school students and the larger proportion of college students enroll in public institutions. The statement noted that the proportion of public education, which is growing by "large increments, is growing by large increments.

The statement called for the colleges, universities, technological and professional schools to increase their support of higher education, the statement said.

As part of this local program, the presidents of 20 colleges and universities in the Greater Philadelphia area will sign a pledge to support the local educational system.

This is the first large-scale effort of the presidents of the 20 colleges and universities to support the educational system. The statement noted that the presidents of the 20 colleges and universities who signed the pledge were among the first to sign a similar pledge. The presidents of the 20 colleges and universities who signed the pledge were among the first to sign a similar pledge. Method to Measure Blood Discovery by Dr. Blakemore

Dr. Blakemore has discovered a method for measuring blood levels of the hormone estrogen. He has been working on this problem for several years and has made significant progress. His method, which he has called the "Blakemore method," has been shown to be effective in measuring blood levels of estrogen in a variety of situations.

The Blakemore method uses a series of chemical reactions to measure the concentration of estrogen in a sample of blood. The method is based on the principle that estrogen binds to a specific protein in the blood, called the "estrogen receptor," which can then be measured using a variety of techniques.

The Blakemore method has been shown to be more accurate and sensitive than previously used methods for measuring blood levels of estrogen. It has the potential to greatly improve the understanding of estrogen-related diseases and disorders, including breast cancer, osteoporosis, and endometriosis.

LOOK AT THESE BIG ADVANTAGES

Public Service provides excellent

Public Service Electric & Gas Co., Newark 1, N. J.

More and more, you have a lot to think about when you decide where you want to work. Pleasant living conditions . . . pleasant working conditions . . . pleasant neighbors and pleasant surroundings—all of these factors are important.

One of the outstanding gas and electric utilities in the country, Public Service Electric and Gas Company, is fully aware of these problems which face you as an undergraduate.

The Company operates in New Jersey, known as the Garden State. New Jersey offers everything for gracious living; mountains and sparkling beaches for recreation; New York and Philadelphia for cultural and entertainment ranges; in effect, all the advantages of suburban living with urban conveniences. You would be wise to consider working for Public Service.
