TV Series Next Year

To Feature University On Network Program

Varsity, U.S.A. To Have Student Talent; Auditions Will Be Held Starting Thurs.

The University will be featured on one of a half-hour network television series to be presented in 1968 by Gene D. Gissinger, vice-president for student affairs, announced yesterday.

The program, entitled "Varsity, U.S.A.," will feature college and universities throughout the country. The programs will highlight the talent, life and varied opportunities at the various schools chosen for the program, Gissinger said.

Students at the University will perform in a specially written television story about the campus for the University Series. The program will be filmed on campus and will include major campus events.

Auditions Start Thursday

For undergraduates and graduate students who can understand and speak English, auditions have been set for the University Series show Thursday afternoon at 2 p.m. in Irvine Auditorium.

"These auditions are not to fill specific roles in the series," Gissinger said. "Any student interested in appearing on the show is eligible to audition. The number of students needed is dependent on the roles to be filled, and we are interested in auditioning a number of students on Thursday."

He added that the students chosen for the show will have a chance to travel throughout the United States to perform in various locations on the University Series show.

Prom Held Tonight at Broadwood

Jean Class Will Conclude

Juniors and seniors with the HIJ Prom Planning Board, the Junior Class will present the Junior Prom tonight at 10:30 in the Broadwood Auditorium.

Several hundred members of the junior class in upper and lower classes have been involved in the planning of the prom. Admission is $1.50 for juniors and seniors. No guests will be admitted at all.

The orchestra of Billy May will provide the music and light bright at the Broadwood. The dance will end at 1:30 a.m. and the prom will be over by 2 a.m.

Parking Garage May Be Built On Univ. Land

Another means of solving the University parking problem was proposed yesterday by Richard D. Dorr, mayor of Philadelphia, as he suggested the construction of a parking garage on the campus of Franklin Field.

Dorr's proposal, addressed to the Philadelphia Parking Authority, suggested that the authority investigate the feasibility of erecting a garage on the University-owned tract south of the University Museum and opposite the East Stand of Franklin Field.

The garage is needed, Dorr adds, to serve the headquarters of the Convention Hall, the Commercial Museum and Franklin Field, as well as for parking space for University students and faculty members.

Dorr believes that the project would be completely supported by the fees from using the parking facilities.

Dorr's organization for a school-owned parking garage in the University area offers the distinct advantage that the University Parking Authority, contrary to Middletown, should not be a "fellow chamberlain," Dorr says, in the "more militant" movement to rid the Commonwealth of "indi-vidualistic mentality.

The checks will be written to the Junior Class Prom Com-mittee.

TheJunior Class Prom Committee will distribute tickets for the prom and for Junior-Cane March to those who have paid for the tickets.

Booters Will Meet Middies

On Stewart Field Tomorrow

by Bill Bates

On the basis of a long-expected 7-2 victory over Harvard Wednes-day afternoon, the Navy Booters will meet the Middies on Stewart Field at 10:30 a.m.

The Midshipmen, who last week averaged the scoring power that they are capable of, will face the basically the same starting lineup that was featured in the Harvard game.

As far as I know that's the best Boats have both handled the situation under control and have not been forced to start two or more times. The Boats finished second last year in the conference, and the Boats will be continuing with the Junior class.

Boats will be the only team in the conference to have a complete roster of players.

Barnes and Griffith, of Course

The visiting University will be under the command of Capt. Barnes and Capt. Griffith, of Course.

Both teams have had some trouble moving the ball effectively. Barn- nes and Griffith, of Course, will be back on the field at Broadwood.

Several hundred members of the junior class have been selected for the University Series. The program, entitled "University, U.S.A.," will feature college and universities throughout the country. The programs will highlight the talent, life and varied opportunities at the various schools chosen for the program, Gissinger said.

Students at the University will perform in a specially written television story about the campus for the University Series. The program will be filmed on campus and will include major campus events.
Winless Penn Harriers Face Tigers, Columbia in Tri-Meet

Frosh, JV Elevens Clash With Rutgers

The Templemen: junior varsity football team place last but for Young Joes, this afternoon at 3:00 p.m. in Lincoln Field. The Brown gridders from New York are used to the schedule and routed the same time that was disputed by the followers of Colton. It is felt a junior varsity would break the ice, and one or two changes, operating from a single spring, will be swinging into action for the first time. Penn's freshman eleven will tip-off at New Brunswick, N. J., a tough challenge to the Eagles' frosh. State Rutgers' Quakers have replaced their first two contests, losing to the Penn accies and bleeding Columbia in their loss outside out.

Come in now for a peek
at the '58 Chevrolet!

Just ask your Chevrolet dealer to show you the booklet containing advance information about the '58 Chevrolet.

You can expect the 1958 Chevrolet to be new all over. Lines will sweep rakishly lower, longer and wider.

There will be a completely new V8 engine—radically different in design. There will be Full Coil suspension and, for the first time in Chevrolet's field, incredibly smooth ride. Chevrolet will introduce two new luxury models of outstanding style and distinction.

You'll learn more at your Chevrolet dealer's. And you can see about an early delivery that will make you a '58 Chevrolet-Finer!

THE CHALLENGE Current projects at UCRL aim at the very frontier of nuclear research. Assignments are fresh and stimulating at all levels. Here are calls upon his creative imagination — as well as his ability — to help solve fundamental problems in nuclear science.

ASSOCIATES Men noted for outstanding accomplishments in your field are on the UCRL staff. Many of them have contributed greatly to the nuclear field. You share their pioneering knowledge — and have the encouragement of UCRL.

FACILITIES Generally considered unmatched in the field, UCRL facilities give project workers access to the latest tools of research — from high-speed digital computers, water boiler reactors, particle accelerators, to facilities in the clear magnetic resonance-electron spin resonance.

ATMOSPHERE UCRL is directed by scientists and engineers. Here you'll find the right "climate" for work and advancement, encouragement for initiative. And you'll enjoy the opportunity to work in the San Francisco Bay Area.

A UCRL staff member will visit your campus FRODAY, NOVEMBER 15 to give you complete details on future opportunities at UCRL. Contact UNIVERSITY PLACEMENT SERVICE now for appointment.

The Naval Academy: Activity, Rigidity and the Sea

by Sanford L. Jacobs

In: parklike Mahan II. The battleship Maine, in honor of an Indian chief, was thrown at it by the midshipman on their examination day of the Naval Academy. The battleship Maine, in honor of an Indian chief, was thrown at it by the midshipman on their examination day of the Naval Academy, which was sunk in Havana harbor in 1898, was later raised by the Navy in 1905 and has been in the Navy ever since.

A group of cadets march in a 19- gallon raincoat in honor of Assistant Secretary of Defense who visited the Academy in the rain. Working with stop-watch precision, they fire at the sight of a petty officer dropping his hand.

The Herndon Monument is one of the famous monuments which are to be found at the Academy. At graduation time, there is a human pyramid half right who sees the first glee to place his hat and this, traditionally, to be become the first admiral of his class.

The cadets and cadets march in the band of the Naval Academy. While they reach to their strict rhythm, their medals awing in the beam of their stop and signify that they have been around for some time.

Both cadets and cadets march in the band of the Naval Academy. While they reach to their strict rhythm, their medals awing in the beam of their stop and signify that they have been around for some time.
