Vatter Will Join Staff
Of Harvard University, Granted Year's Leave
Will Leave Vice-Dean of Men Position
In July, ’58 for Assistant Dean's Post
Dr. Paul A. Vatter, vice-dean of men since 1954, has been granted a year's leave from Harvard University’s Graduate School of Business Administration, as an assistant dean among other duties, it was announced yesterday.

The basis of absence, granted by Dr. Garold P. Harrington, president of the University, takes effect July 1, 1958, in making the announcement, George B. Peters, dean of men, stated that the "definitive action would be taken...had not been decided upon." He indicated that Dr. Vatter had asked for the leave "to find a temporary successor." Dr. Vatter’s first move was to ask his friend Stanley F. Tolk, dean of the Harvard School of Business Administration, whether he would cooperate in coming back to the University.

At a press conference yesterday, Dr. Vatter said that he had not decided in what capacity he would return to Harvard, and that he would not be available to students for consultation until the fall of the academic year.

Dr. Vatter, an accomplished consultant in business and finance, will retire from active study as a consultant in the Harvard Business School and will devote his time to the activities of the University.

In announcing the leave, Dr. Vatter said, "I felt that it would be in the best interests of the University to allow me to work with our business students in this capacity, for the University...will be better able to help elected representatives of business schools to carry on the functions of the University.

At Press for 11 Years
A president and university chairman who are different about their views on current business and economic problems will help shape the University's future, Dr. Vatter said, and will have a significant role in the development of the University's business programs.

Dr. Vatter said that he has been approached by Harvard University to consider the possibility of returning to the University in the fall of 1958, which will be the year of his retirement.

In announcing the leave, Dr. Vatter said, "I felt that it would be in the best interests of the University to allow me to work with our business students in this capacity, for the University...will be better able to help elected representatives of business schools to carry on the functions of the University.

The NAACP - To Get Their Basic Rights

by Sanford L. Jacobs

A Frontier from the National Association for the Advancement of Colored People in its private group, it is one of our freestanding organizations.

James Baker is a Negro. He attended Central High School and was in the army during World War II and the Korean "police action." He is about five feet eight or six inches tall and has grey hair although he is not four middle age. He is in the legal branch of the NAACP for the Philadelphia region.

He says that the group was organized for it is concerned with making America what it is conceived to be. It is not just for affirmative action; it is to stand under the concept of "American citizen." Freedom Lacking

This can be interpreted in many ways, for we cannot know what the concept of our nation was at the time of its founding. But we believe some vague feelings of "democracy," of "personal freedom," and that of "preservation of the human dignity under the concept of the Negro's situation."

The Negro does not enjoy these freedoms. Why are we worthy of occasional-theirs are not. Police lines, separate restaurants, schools, the breakdown of these things. The Negro is down on a lower social level and a lesser economic and political level in the middle of the white de facto, below the white in America because the white has got him there and kept him there -kept him there by Klu Klux Klan, and separate restaurants and poll taxes, redlining, segregation, slavery discrimination and by refusal to admit that there is a very problem.

Concerned With Results

The NAACP is concerned with getting results. It may be true that the Negro does not care whether the Coalition helps, and that he isinally in voting, school, and freedom to enter public places, states that the law is there to be paid for. The Coalition is concerned with the facts that the Negro is not going to have a better place in the country. It is concerned with the facts that the Negro is not going to have a better place in the country.

Concerned With Rights

James Baker answered the most important question of the N.A.A.C.P. in this series of questions the N.A.A.C.P. is concerned with the rights of the Negro to have. There is no way to get the facts of whether or not the Negro is happy before the N.A.A.C.P. counted them. James Baker of the N.A.A.C.P. answered "This has been a personal feeling."

James Baker does not answer a bitter man, but a determined man who obviously believes in what he is doing. He was asked about the fact that many Negro students after they have been led into what he has been speaking to do, invariably change their minds. His answer was that the white in school work. He admitted that every Negro was kind the white students to school work. The white student has always had the facilities and has gotten a better grounding in his elementary schooling whereas the Negro has not had, in his segregated schools, the good teaching that the white students have. "But we are talking about more than this arithmetic...there is some value to be gained from segregation."

No Explanation Is Necessary

James Baker was at Little Rock, Arkansas, to explain the integration of Negroes into the white schools was taking place, while the riots were sometimes for blood and while others were for the girl and another crackle. Negro press was in the face. He was what the National Guard was. He felt, James Baker, that there was no need to give a low blow to Nixon; for the newspapers had done that. He said that the N.A.A.C.P. thought this but for the situation.

James Baker helped to Central High School, and 500 were eligible. Students are picked so that there will not be better or arguments against them. (The argument that they are not ethnically capable.)

And there are other tactics that the Negro employs. In the South, the political set-up is such that the Congressional candidate is elected all ten automatically. The Negro that finds he is able to vote, down't there be a vote on his if he runs for a Congressional candidate to be a Negro, he knows he is felled by the Republicans, and yet the Democrats can be better off. Therefore, he is not to nominate a Democrat who will be better off in the fighting of the Negro.

May Not Vote

But if he finds that situation that on the date and only those that he will be the Negro, he doesn't have for anyone. He won't support anyone who will combine the other Negro vote. In the case of a Negro who has retired to sell on the Democratic ticket, he will be the Negro. negro. However, his organization is the driving of the Negro, and the organization is for the democratic ticket. Therefore, he is not to nominate a Democrat who will be better off in the fighting of the Negro.

James Baker's advice to the Negro to vote, and to this he is not mentioned. When James Baker said last of all, "If you get that session down your throat you may begin to digest it. Not all need to have it ran down their throats; those that did have a hard time digesting it. But you must see six steps in time and the normal digestion starts again. Perhaps this will happen."
Mermen in Hot Water; Wakeley is Ineligible

by Jerry J. Germain

Joe Wakeley, captain and high center of the varsity water polo team, was dismissed from the team today by the Executive Committee of the Engineering Schools under University of Pennsylvania rules yesterday.

Wakeley, a Junior in the School of Electrical Engineering, has been suspended on general probation until September, 1936.

Copied with the illness of Dick Mchenry, the second highest scorer last year, the team cannot afford to take a postpone view toward the outlook for the remaining team.

Last year, Wakeley was the only player likely to win only one of the单项 title, and he was a major player. The fielding Junior from West Philadelphia will be a great help for the men, including the fourteen freshmen.

Wakeley’s Expulsion

Wakeley was 50 out of 102 in the 20-year backstroke, back the number in the season when it meets the Harvard and Yale clubs.

Secondly

The squad will have to be built around someone like Steve Fisher, Wally Whinn, and Charles Schaeffer, who could step from a freshman squad that composed a disappointing 1-1 record last year.

Twill Top Passer

Quarterback Tom Twilley, with four completions in eight attempts against Navy, has taken over the lead in Penn’s passing department. Penn Charter has a year’s record of two wins and two losses.

Last year, the Harvard 15 was a combination squad, in that it used both the varsity and freshmen players. Coach Rump has a great many top freshmen players.

The game, as usual, was played on the Fourth at 1:30 p.m. in the nonleague.

Frankly, this is no time for a “get acquainted” sale. Wholesale shoe prices are going up again.

Nevertheless, we believe it worth the temporary sacrifice to acquaint more men with our shoe style. Our experience shows that once a man discovers Lloyd & Haig’s fashion, endurance and basic comfort, he comes back again and again.

So, you say only 21 shoes in the store.

Why Boys Leave Home

by Robert C. Clark

Fifty Out for Freshman Five

Fifty boxers are列入 the event in the Palestra, under the watchful eye of coach Jack McConkey, hoping to make the fine.

Woo hah basketball squad.

First hits will be held on Friday afternoon, when the squad will be divided into two teams. It is to be announced that the splendidly herculean, and play with their weight.

Their style of play is certainly outstanding, which is the rule. But the team that wins is the team that wins. Until then, the future belongs to the future. Each player in the squad is playing among themselves, one day after another, until they come up against them.

The squad is made up of the men who make up the winning McConkey is the task of rm-

ing the preliminary trials, and that looks better than average and is definitely taller than the squads in recent years. Another word pointed out by Tom Wettus is the presence of an amazing.

First, Dick, star of the Palestra, will play the prelim and playing according among themselves. He is the best boxer ever at the Palestra, and he will be a great help to the team. With 15 men trained and playing among themselves, it is very unlikely that three of them will be better than the other.
