University Records Operating Surplus Of $197,896 for Fiscal Year 1956-57

Unrestricted Funds, Excess Were Used To Remove Previously Existing Deficit

The University showed an operating surplus of $197,896 for the fiscal year ending June 30, 1957 according to the financial statements submitted to the Board of Trustees by Henry R. Pemberton, financial vice-president. This surplus, together with $110,206.09 from unrestricted funds, was used to wipe out the accumulated deficit which had existed since June 30, 1954. Previously the deficit had been reduced by past appropriations from unrestricted funds, the year the remaining balance was removed from the books, Pemberton explained.

Dr. Ivey To Discuss Artificial Lighting At AIEE-IRE Talk

A talk about "Electromagnetic Zones" will be given by Dr. Henry F. Johnson, vice-president of the Westinghouse Electric Corporation today at 7 p.m. in Room 233 of the Moore School.

"Electromagnetic Zones" is a revolutionary, new development in artificial lighting. It is based on the principle that phosphor-coated lamps equipped with special "light guide" light up the opposite wall and ceiling of the room. This will result in a simplification of this principle, entirely new to the world of light. It is an opportunity to hear about this new development, Dr. Ivey said.

No fees Explained

Total assets of the University increased $826,586 or 12.4 per cent from 1956. Debt as a percentage of total assets for the University was 19.6 per cent as against 21.1 per cent last year. This compares to $630,190 in 1956.

Appel Claims Famous People Required Psychiatric Care

Dr. Kenneth E. Appel, professor of psychiatry, Johns Hopkins Medical School, said many famous people of the past, like Abraham Lincoln, Jackson, and Tilden, probably needed psychiatric care.

Dr. Appel said the fact that these famous men were noted for their unstable behavior may be due to some psychological disorder.

Jefferson and Lincoln had severe depression, Lincoln, especially, was said to lack social relations and was great part of his life. Dr. Appel said these men, whose work is made to be hard, either because of their greatness, are perhaps due to some underlying disease.

K & K Heelers To Meet

There will be a meeting for all University groups to discuss the upcoming football game on October 22 against Lehigh at 1:30 p.m. in Recreation Hall. All University groups must have representatives attending.

Dr. Pemberton requested that the University's students take part in the annual football game with Lehigh. The University's next football game will be against Lehigh on October 22.

Made-to-Measure Suits

We are happy to announce an added feature to the Eddie Jacobs array of distinctive apparel for men. Our same standard of quality in excellent fabrics and distinctive workmanship will now be styled in made-to-measure suits and sport coats.

Our complete collection of fabric swatches—imported and domestic—await your inspection and approval. Individual measurements by our own Mr. Leo. Sport coats from $85. Suits from $105.
Columbia Eleven Seeks To End 20-Year Jinx

When Pennsylvania's varsity football team invades Baker Field hand in hand with the Natal Indians on Saturday, there will be no letting it go working on a 20-year losing streak.

The last time the Lions came to Altoona, Penn. won 10-0 in 1937, and the last time the Indians played there, it was the same score in 1937, a win for the Indians.

The Intercollegiate Football Association, which oversees the National Football League, awarded Penn a tie for the Nittany Lions and saw Penn win the game.

One of the Lions' opponents that day was Dr. John Beamer, who became the team's check-in coach as assistant coach to Tom Little. The game was held at Penn State's Beaver Stadium.

The game was Baker Field.

Smith-Coxe In Dorm Semis

Smith and Coxe-distinguished by their style of football — are said to be the best players in America. They have played in the National Football League, winning the championship last season.

Smith-Coxe scored the first touchdown of the game on a punt, followed by a penalty, and the second touchdown of the game on a punt return.

The score was 20-0 at halftime, and the Lions won the game. Smith-Coxe led the Lions in their victory over the Penn State Lions, winning the 1937 championship.

The Lion will be at home for the game.

The Roof Fell In

The roof fell in as Pennsylvania-Valley Athletics. Friday afternoon —

It was about noon, and everything was as it should be — the swimming team was being taught to swim at the pool. All of a sudden, there was a sound of things crashing down. The sudden loud noise startled the swimmers high above the water.

A pane of glass was jarred loose and by a hard blow, struck the roof, and the room was filled with a sudden clatter. The swimmers were startled.

Later, on the roof was the atmosphere. The team was housed in a hotel near the pool.

THE BEST SAVER

Among America's great savers, George T. Coffee is a legend. One day, George discovered that he was going to sleep with his shoes on. He could save a full 60 seconds during the morning. Multiplying this by 365 days—gave him 10 hours saved per year. Then, multiplying this by 8 years—gave him 80 hours saved per year. George T. Coffee is the man who invented the idea of "walking on the Spot." He captured the essence of this idea in a newspaper article which he wrote and distributed to all his friends.

When he happened on the Van Brown Vantage Shirt, Vantage is a shirt you don't have to iron. It's made of a lightweight material that hangs perfectly and never needs ironing. It's a shirt you can wear day after day without having to iron. And it only costs $1.00 a week!

At 9 a.m., there will be an important meeting of the faculty and students. There will be a presentation of the plans for the future of the University. The meeting will be held in the Cherry Room.

If there is an emergency, there will be an announcement made over the public address system. The faculty and students are requested to remain calm and to cooperate with the authorities.

In this and hundreds of ways, ESSO RESEARCH works wonders with oil.
