Open Letter to the MECHANICAL AND METALLURGICAL ENGINEER

Are you aware that just over 40 per cent of our sales are in the non-chemical field? That we manufacture such products as "Winchester" firearms, "Western" brass, "Western" cartridges, "Remington" powder accented tools, "Olin" aluminum, "Forklift" packaging materials and "Exxon" fine papers?

We are completing the construction of a multi-million dollar aluminum fabricating plant near Chillicothe, Ohio, and are expanding our nuclear fuel programs at New Haven, Connecticut. We have recently established a Metallurgical Research Division and are in the process of staffing it.

As you can see, there are the types of operations requiring engineers such as yourself. For more detailed information, you should contact your placement office.
