John Morgan, a junior, residence, should be seeing worthy action early on the basis of a fine overall performance. In addition to his scoring, Morgan was consistently setting up plays and doing a good job defensively.

Joe Goke, who was to have played in the game, apparently had knee trouble and had to sit out from three to four weeks. Pete Bowling made his first game appearance.

FRATERNITY PROBLEMS

(Continued from page one)

The problem was not entirely unexpected. The fraternity boys were known to the students for their noisy parties, and they had been known to cause trouble in the past. The University was concerned about the situation and had been in touch with the fraternity leaders to try to resolve the issue.

The newspaper reported that the fraternity leaders were aware of the problem and were working to address it. They had met with the University administration to discuss the situation and had agreed to implement stricter rules and a new set of guidelines.

The newspaper also reported that the fraternity members were cooperative and were working to resolve the issue. They were willing to cooperate with the University and to take responsibility for their actions.

The newspaper concluded by stating that the University was pleased with the progress that had been made and that it would continue to monitor the situation. It was committed to ensuring a safe and respectful environment for all students.
