Ceremonies Tomorrow Will Begin Demolition For Women's Dorms

Demolition of structures located in the 11 acre lot bounded by Chestnut, Walnut, 32nd and 34th Streets will begin tomorrow morning. The university will use the lands made available by this project for the construction of women's dormitories and student activities buildings.

The ceremonies will open with an invocation delivered by Dr. Stanley Gannell, rector of the Woodland Presbyterian Church. Dr. Gaylord F. Harwell, president of the University of Michigan, will speak on the "Separation of Church and State," and the Right Reverend Walter A. Brown, Bishop of the Episcopal Diocese of Pennsylvania, will deliver a message.

The dedication will be followed by the Rev. Frederick Brooks, rector of St. Stephen's Episcopal Church, who will speak on "The Lord's Prayer." The service will be concluded by Remarks by Dr. A. P. Kipplinger, director of the University of Pennsylvania's Presbyterian Center, and President of the Pennsylvania State University. The service will be held in the gymnasium of the newly completed student union.

CSA Tenatively Approves Theta Rho as Local House

Members of Proposed TKE Fraternity Given Permission To Conduct Rushing

Members of the Pennsylvania University's chapter of theTheta Rho Fraternity have been tentatively approved by the Student Affairs Committee of the Pennsylvania State University. The fraternity will be allowed to conduct open house meetings for potential members, and the students are expected to be notified of the decision by the end of the week.

Fifteen Juniors Made Members Of Kite and Key

Fifteen juniors, who will be seniors this fall, have been elected to membership in the Kite and Key Society. The new members are selected from the upperclassmen of the university and are expected to continue their studies until graduation.

Here are the names of the new members:

- Benjamin A. Brown
- David C. Carr
- John E. Davis
- William R. Ellis
- James F. Ford
- Robert L. Gage
- Charles H. Harris
- John M. Johnson
- Donald K. Jones
- Richard L. Keeler
- William B. Lee
- Charles M. McEachern
- John P. Nelson
- William R. Oakley
- Douglas E. Pershing
- John W. Smith

The Kite and Key Society was founded in 1891 and is one of the oldest and most respected student organizations on the university campus.

Dr. Robert A. Wiley, president of the university, attended the ceremony and congratulated the new members on their selection. He said that Kite and Key had a long and proud tradition of excellence, and that he expected the new members to continue this tradition.

Perkins Elected Pres Of Planning Comm.

C. E. Perkins, a first-year graduate student in the School of Design, has been elected to the position of president of the Planning Committee for the forthcoming academic year.

Perkins has expressed his gratitude to his fellow committee members for their support and assistance during his campaign. He has also stated his commitment to the university's efforts to improve the planning process and to make the university a more effective and efficient institution.

ded in the planning process, and his willingness to work with other members of the Planning Committee to address the community's concerns.

The Planning Committee is responsible for the development of the university's strategic plan and for the coordination of various university initiatives. Perkins has stated that he will work towards ensuring that the committee is effective and responsive to the needs of the university community.

Senate Votes To Approve Emergency Defense Fund

By The United Press

Washington, D.C. (UPI) - The Senate voted unanimously yesterday to approve President Eisenhower's request for a $1,500,000 emergency defense fund. The bill now goes to a joint House-Senate committee.

Doerner Denies Charge

Washington, D.C. (UPI) - House Investigating Committee Chairman John Doerner, in rejecting charges that John Doerner, a Republican from Arizona, was responsible for the collapse of the Department of Defense, stated that he had no knowledge of the situation.

RCA Technicians Strike

New York, N.Y. (UPI) - Engineers and technicians of the Radio Corporation of America have announced that they will strike today. The announcement came after several days of negotiations, and it is expected to affect the production of RCA television sets and other products.

Novelist To Get Divorce

New York, N.Y. (UPI) - vanity Fair has announced that she is going to divorce the adventurer and is now, for marriage, T. J. Martin.

Wiggers Wanted

Last night, Mask and Wig held the first in a series of four of their spring production, "Free for All." This doesn't sound like a particularly satisfying title, but it is significant in the light of the difficulties which the group has met. Their original plans could be made for a show. It is important that the group continue to produce a full-scale production and not, as earlier rumors put it, a song and dance review.

Right now, Mask and Wig is at the crossroads; they have the depth and capability they must raise or discontinue. They can make a swift move in their fortunes, but in order for them to continue upwards they need the assistance of the students, the administration and the paper. Performances will be held in Irving Hall, both tonight and Friday, and should be in fairly good with Stimson-Welch supplied.

We find only one thing to criticize about the spring production, and that is the advisability of those students who may want to study. Second of all, it could be in the process of development if it were Friday night since the students are scarcely given the chance to perform. This is true of Mask and Wig, it seems as if they would be given the most of the three rather than the poorest. It can be argued that students at liberty by itself is any of the things that must be remembered that prices will be in the decision of the after all. Day.

All in all, it looks as if Mask and Wig is finally set of the oldorder: and, if everyone concerned cooperate, we may again see a revived organization as good or better than ever.

Peace At Last

Those students who whispered through registration some time back in January were recently released mentally. What was once a time consuming chore that the nervous system has become a rather elementary task, with the individual student now able to set his own pace. Gone are the cardiac conditions of last year's, the united irritation of a school in full motion towards forward movement.

The significant improvement has been in the reduction of the number of forms and stations involved in the registration technique. Once the registrar's office efficiently collected student information forms, and honored them out the next semester with equal dilution. Now the student moves confidently onward, no and Is rewarding to a student body that has worked so much for so long. The student moves confidently onward, no and Is rewarding to a student body that has worked so much for so long.

Why do students cross the street?

...answer...

To get to the VARSITY SHOP.

There must be a reason... see for yourself.

Sales Management Training Program
Sales Training Program
Home Office Administrative Openings

Our Sales Management Training Program is designed to develop men in to lead sales offices throughout the country and for future sales management operations at our Home Office. We deal with college students in or at Missouri and another eight months are spent as a field sales representative before moving into a field sales position. Attractive opportunities are also available to men who wish to start directly in well-paid sales work (which may also be in sales training) and in a limited number of Home Office jobs.

The Connecticut Mutual is a 112-year-old company with 100,000 policyholder members and a $15 billion surplus of life insurance in force. Aggressive expansion plans provide unusual employment opportunities for a limited number of men accepted each year.

Claude Beer Annexes Pa. State Squash Title

Claude Beer, Pennsylvania's top squash player, came from behind to win the Pennsylvania State Class A single squash racquets championship Saturday at the Philadelphia Cricket Club. Beer defeated top-seeded Dave Kure, a member of Dartmouth's staff in 1968, 6-3, 7-10, 6-1, 6-4.

Kure was just three points from victory at 5-2 in the third game, when Beer, who represented the Motion Cricket Club, won the next three points to take the fourth game.

Beer progressed to the final round of the tournament by defeating second-seeded Norman Collison in a seven-game match.

L-F Competition Resumes

On the eve of reorganization of the Iroquois Independent Baseball League, SAM, Delta Tau Delta, DKE and Beta Theta Pi are on top of the Green, Blue, Red and Gold leagues, respectively.

The standings of the inter-fraternity bowling league after the mid-year examinations break finds Phi Kappa Sigma (17-5) still atop the Red League, Kappa Nu, with an unblemished record of 20-0, capturing the White League and IFR (15-5) leading the Blue League.

Open Letter to the

MECHANICAL AND
METALLURGICAL ENGINEER

Are you aware of the fact that over 40 per cent of our sales are in the non-chemical field, that we manufacture such products as "Wichita" process, "Western" beam, "Western" cartridge, "Ramset" powder activated tools, "Ohio" aluminum, "Frankford" packaging materials and "Ecosan" fine papers?

We are completing the construction of a multi-million dollar aluminum fabricating plant near Clarington, Ohio, and are expanding our nuclear fuel program at New Haven, Connecticut. We have recently established a Metallurgical Research Division and are in the process of staffing it.

As you can see, these are the types of operations requiring engineers such as yourself. For more detailed information, you should contact your placement office.

NATION WIDE CAREER OPPORTUNITIES WITH ATLAS

Established in 1912, ATLAS today, specialties in industrial chemicals and commercial explosives for mining and construction activities. Our 11 manufacturing units and 4 Research Centers, located in all sections of the country, employ more than 4,500 people on an industry that is de-

scribed to grow more than 50 per cent as our expanding national economy gets into high gear in the early 1960's.

That means real career opportunities for you graduates who have the foreknowledge to come into this field with much of your future expansion is still in the planning stage, so in addition to operating on technical work we plan to pioneer into new products and processes, we are greatly interesting language based research to develop new products and processes of enormous importance to ATLAS customers and com-

panies. These special opportunities will have no unsteady
