Quakers Defeat Cornell In Ivy Contest, 71-69; Delucia Hits Clincher

Cincnncit' 18 Points Spark Win; Pend Tied With Princeton for 2nd

Quaker Alex Delucia came off the bench to score a flat goal in the final three seconds of play to give Penn a hard earned 71-69 win over Cornell last night at Hecar.

The score depicted the second straight win for the Quakers which will move them in the first place in the Ivy League standings. But Cornell was not out of the game for a minute, the left, the Quakers, with the ball in their possession, decided to run a "good shot" or dribble four foul shots. However, Cornell was content to lay back and allow the Quakers to play fast on the outside, thus posing any quick Penn

M&W Recommends Resolution To Clarify Internal Problems

by Robert P. Lambrecht

The relationship between the Graduate and Undergraduate Clubs of Mack and Wip has been emphasised by the public relations content of the resolution recommended to the campus council by the student body this week. Many undergraduates who attended the Mack and Wip dinners to learn a little about what that student body still doesn't understand the relationship of the two and what it means to them.

Also, many of the student body don't know that Mack and Wip students have taken over both clubs, said the resolution submitted and approved by the Graduate Club of Mack and Wip. The resolution is in effect, although the resolution is due to be signed by the school president and the student council. A meeting is scheduled for tomorrow, and the students are waiting to meet with the school president.

The resolution reports that Mack and Wip students have taken over both clubs, said the resolution submitted and approved by the Graduate Club of Mack and Wip. The resolution is in effect, although the resolution is due to be signed by the school president and the student council. A meeting is scheduled for tomorrow, and the students are waiting to meet with the school president.

Lutheran Building Will Be Built Soon

In need of a place to worship near the campus, the Lutheran student group has made a decision to conduct their services and meetings in the building.

In a letter to the columnist for the yearbook, the decision was announced to the student body.

In effect, the letter states that Mack and Wip students have taken over both clubs, said the resolution submitted and approved by the Graduate Club of Mack and Wip. The resolution is in effect, although the resolution is due to be signed by the school president and the student council. A meeting is scheduled for tomorrow, and the students are waiting to meet with the school president.

Because engineering is a profession at GM
-we offer you a career—not a job

O N E  tme engineering standards at

General Motors are so high that GM

recognizes engineering as a profession.

And the men who engineer the many different products made by General Motors are respected for the profession they practice.

That is why, when you are invited to join General Motors as an engineer, you don't simply take a job—you start a career.

It is a career that is rewarding both professionaIly and financially—starting on your first day of association with General Motors at any one of its 35 divisions and 136 plants in 70 cities and 19 states.

During your early days at GM, for example, you work with a senior engineer who guides your career along professional lines.

You are also actively encouraged to pursue your education towards an advanced degree. For us at General Motors recognize that, in doing so, you will become more valuable to us and the engineering profession.

You are given the opportunity to obtain professional recognition through participation in society forums, presentation of technical papers, winning of patents and other recognitions of your accomplishments.

And you are also encouraged to take an active role in your community's affairs—because a professional man is a good citizen as well as a good engineer.

All this is for a reason—and a good one.

Many of the men who will fill the key positions at GM in the future are young engi-

neers joining GM today. This is not theory.

It is fact. For 14 of our 33 Vice-Presidents are engineers. 21 of our 12 Division General Man-

agers are engineers, too.

Today we are looking for young engineers—such as you—who will fill these positions in the future. The rewards—both professional and financial—are substantial. If you have the ability, the will to serve, it could be the most important letter of your life.

Mermen Bow; Yearlings Win

Even though they came through a rousing victory in yesterday's meet in the 400-yard medley relay, Mermen bowed to Yearlings, 10-6, yesterday afternoon at Franklin Field. The medley team of Joe Black, Jim McGrew, Paul Brandt, and Vic Weisley, who was declared eligible to compete in tomorrow's prelims, swam the course in 4:15 to out-pace a new Penn rec- ord ever set at Franklin Field. The winning medley was 4:10.

With an outstanding individuals performance, Joe Black, Yearling medley leader in their previous contest, captured first in the 200-yard freestyle, and third in the 400-yard medley relay. Penn's victorious relay teams ended their first meet having scored one point for each victory. In the 400-yard medley, Yearlings won with a 3:34 mark, only to have their meet marred by a medley team in the following meet.

Courtmen Bow To Tigers; Beer Wins

Charles Beer, who took a default decision in yesterday's meet at Princeton, is no longer the lowest rated from the 1957-58 season at Princeton in the 400-yard medley, a new Penn record. This profile is just one example of what it's like to be a salesman for IBM's famous sales training schools.
