Barzun to Speak Tonight
At University Museum at 8

Columbia Dean, Author Will Discuss
"Truce to Nonsense About Humanities"

Dr. Jacques Barzun, dean of the Graduate Faculties of Columbia University, will speak tonight on "Truce to Nonsense About the Humanities" at 8 in the University Museum.

Dr. Barzun's address will be the second in the current University Lecture Series, reinstated in January after a five-year absence.

The author of numerous books and articles, Dr. Barzun was history professor at Columbia before becoming dean of the Graduate Faculties. His books include "The Teacher in America" (1945), "Bebot and the Romantic Century" (1950), "Plato's Music" (1954), "Language, Knowledge, and Chance" (1958), and "Mere Christianity" (1961).

Launching of Sputnik Stimulating to U.S., Harnewll Says

Dr. Gaylord P. Harnewll, president of the University, graduated from Harvard College in 1919, after teaching physics at Princeton for ten years. Dr. Harnewll is the author of "The Daily Pennsylvania Forum" and "The University Museum and Its Role in the University," published in 1948.

Dr. Harnewll will speak at DP Forum Monday, May 11, at 8:15 in the Alumni Auditorium. He will speak on "Sputnik: A Challenge to Us." Dr. Harnewll's address will be the second in the current University Lecture Series, reinstated in January after a five-year absence.

The author of numerous books and articles, Dr. Harnewll was history professor at Columbia before becoming dean of the Graduate Faculties. His books include "The Teacher in America" (1945), "Bebot and the Romantic Century" (1950), "Plato's Music" (1954), "Language, Knowledge, and Chance" (1958), and "Mere Christianity" (1961).

Government Boys 600 Stocks For Wharton

With an aim toward supplementing classroom knowledge, Dr. Gaylord P. Harnewll, president of the University, has purchased a portion of the stock exchange, and the students in his course in "The University and Its Role in the University," published in 1948, will be involved in this experiment.

"As a result of this experiment," he said, "the students will learn about the role of the University in the country that we are to assume as a nation in the future."

Crimson Pins Matmen; Traendly Loses First

Fencers Defeat Tigers; Capture League Lead

Paved by an outstanding performance by its finalists, Penn's ersatz fencing team took undisputed possession of first place in the Ivy Fencing League championship afternoon when it defeated Princeton, 15-14, in Tigertown.

The win left the Quakers, who now have a 3-1 Ivy League record and 7-3 game lead over Columbia and Columbia, which they last fall and again last Saturday.

Penn's victory also gave it the No. 1 position in the Pacific Coast Fencing trophy, which is awarded every two years to the winner of the fencing battles between the two schools.

Future Joe Traendly, sophomore, his unexplained record in Ivy play as he won all of his matches as a result of his string to win. Stan Bullock, and newcomer Thomas Gallia, who, while just enrolled, was for the Ivy League competition for the Quakers with a 2-1 record in the Full competition.

The results were the two men's only victory and was not enough to reverse the Quaker margin in fall.

In spite, Captains Joe Galvin, Squashers Bow

Turkey's squawk team, become a steady stream of the players on the way.

The Quakers, who won 3-2 in the third period, left himself vulnerable for the only time the Tri City (12) slanted the results 4-0. On December 31, the Quaker rolling with 4-0, 5-5 matches. Bill Calhoun (118) won the Quakers all 3 when he plumbed John Washington, Billy Cookshott (107) increased the Iron Quaker team to 4-0 with a decision victory under Skip Elson.

Villanova Hockey Off

Scoring games with Villanova cancelled due to the hazardous driving conditions, Frank's hockey team began practice last night for its Saturday's date with Colgate, at the Arena.

Army Defeats Penn Mermen

Pennsylvania's majority sentinel gained back, 27-16, in a strong Army team this afternoon at West Point.

Fred Fox captured a first place in the spring competition for the Quakers with a 9-1 record.

Penn Merrow was the only man who could not fill a post, but he filled in. But Merrow had one pin in three bouts, while Frank's Hopkins had one pin to add four points to the Quaker total.

NEVER A CHARGE ON CLOTHES

Because engineering is a profession at GM

we offer you a career— not a job

O'Keefe engineering standards at General Motors are so high that this GM recognizes engineering as a profession. And the men who engineer the many different products made by General Motors are respected for the profession they practice.

That is why, when you are invited to join General Motors as an engineer, you don't merely take a job—you start a career.

It is a career that is rewarding both professionally and financially—starting on your first day of association with General Motors at any one of its 35 divisions and 120 plants in 70 cities and 19 states.

During your early days at GM, for example, you work with a senior engineer who guides your career along professional lines.

You are also actively encouraged to pursue advanced education towards an advanced degree. For at GM we recognize that, in doing so, you will become more attractive to us and in the engineering profession.

You are given the opportunity to obtain professional recognition through participation in engineering society forums, presentation of technical papers, winning of patents and other recognition of your accomplishments.

And you are encouraged to take an active role in your community's affairs—because a truly professional man is a good citizen as well as a good engineer.

EATON'S CORRASABLE BOND Typewriter Paper

Whatever your typing talents, you can turn out neat, check-worthy work the first time, with Eaton's Corrasable Bond Paper. Reason Why: Corrasable has a special surface—it erases without a trace. Just the kind of an ordinary pencil eraser and typographical errors disappear. No smears, no smudges. Saves time, temper and money! 

EATON'S CORRASABLE BOND

Job Facts From DuPont
YOUR INTERESTS, SPECIAL ABILITIES ARE IMPORTANT
WHEN DU PONT MAKES YOUR FIRST JOB ASSIGNMENT

ROOM TO GROW
There's plenty of room to grow at DuPont. One reason is that the
depth of our products and processes requires specialists in
almost every area of science and engineering. Another reason is that DuPont continues to ex-
and in many new directions.

For example, in 1957 salaries reached $25 billion. Four new
plants were being built. You re-
search projects were launched, new products marketed.

In 1957, too, new technical
men joined DuPont in chemical,
civil, mechanical, metallurgical,
electrical, industrial, petroleum

and mining engineering; in
atomic energy, instrumentation,
chemistry, physics, mathematics
and many other fields.

All this activity points to a
bright future today and even
better in our long history. There's
a place for the good graduate in
this picture. If you would like
more specific information on op-
portunities at Du Pont, we invite
you to sign up for a Du Pont interview
with your placement director.

Du Pont Summer Job
GIVES YOU A CHANCE TO EARN AND LEARN

Du Pont offers college juniors and
qualified sophomores in technical
fields the opportunity to earn college
credit money this summer while they
learn more about the kind of work
that will be open to them when they
graduate.

The Company has 75 plants and 165
institutions headquartered across 26 states
—a spread that gives the student a chance to work in or near his own
area of the country. None of these
opportunities have openings for summer employment in 1956.

Students work side by side with experienced engineers and scientists. In
this way they gain valuable experience
in the product of which they are now a part.

Students work side by side with experienced engineers and scientists. In

Personalized Training
Relates to Policy of
Promotion from Within

Where do your interests lie? What
courses have you taken? What are
your special abilities? DuPont tries
to match these factors with available
jobs to determine your first job as-
signment within the Company.

Once the assignment is made, the
Company helps you apply your knowl-
dge to a problem right away. You
learn by doing—in consultation with your supervisor and others working
on various phases of the same project,
your performance on the job is eval-
uated periodically, so you always know
where you stand in the eyes of your
management.

As you might guess, DuPont's per-
sonalized training is closely related to
its promotion policy. Almost all advancement — made from within the
Company—depends on your superiors' indication that you are ready for pro-
motion, and an open system for which
your training has prepared you, you are sure to be considered.

Although Du Pont employs about
90,000 people, management authority
is decentralized through many depart-
ments into small groups—so that the
new man's capabilities can be recog-
nized quickly. This decentralized
organization, plus the Company's steady growth, produces many oppor-
tunities for the new man.

** **

Du Pont, now over the past 25 years, has
spent $1 billion for research, output in production facilities.

The Du Pont Representative Will Visit the Campus March
