PICASSO

by Stephen B. Decker

The Picasso exhibit will be located at the Philadel-phia Museum of Art in just three more days, after Sunday. This exhibit, the most impres- sive one ever scheduled in this area for some time, contains 53 oil paintings, 45 watercolors, 190 sketches, and some extraordinary watercolor and con- temporary colored intaglio of the artist himself. Henceforward, Picasso was never satisfied with his work. In this period, there were successive transitions from his 'Blue Period' to his 'Rose Period,' then to his 'Gold Period.' These three periods were the climax of his work, and then he went on to develop his own style. By the way, the Museum of Modern Art is the only one that is able to give the complete picture of his work. The exhibit will be open from 10 a.m. to 5 p.m. daily, except Sundays, when it will be open from 10 a.m. to 3 p.m. The museum is located at 1280 Park Ave. (at 89th St.)

We Will Interview On...
Interview With Dr. Harnwell

(Continued from page 60 and  talk more about this, but it this comes from being interviewed," Dr. Harnwell said.

Asked what was the price of re- search, Dr. Harnwell said "basic research is a very fundamental part of any country like ours because without research you just have what we call obscurity, for this is clearly indispensable only in science and technology. Stating that so far he was in funda mental understanding as concerned, we are quite equal to Russia, Dr. Harnwell said, "we are at present opposite as far as an industry that can make use of these ideas." Commenting on the interchanges:
