Peters Urges I-F Adoption Of Presidents' Council Plan

The adoption of the president-presentative relationship by the Interfraternity Council will strengthen the Council's bond with the University and establish a firm basis on which the Council will be able to plan a future role in university administration, President B. Peters, dean of men, stated yesterday.

In his message to the Interfraternity Council, Peters discussed the fraternity system at the University, lauded its assets and reviewed its defects. Concerning the proposal that fraternity presidents should represent their houses on the Interfraternity Council, Peters said, "Until the proposal is adopted, we are not going to get the leadership that we need and should expect from the fraternity presidents."

The chapter presidents are responsible for the discipline of the fraternity, the reputation of the fraternity, and to a large extent for the encouragement or discouragement of members to remain in the fraternity. Peters said. He added that "the chapter presidents are the backbone of the fraternity system and should be held responsible for the activities of their fraternities." The college president, he said, should be held responsible for the activities of his college, and the university president should be held responsible for the activities of the University.

The Daily Pennsylvania

Seats Available for Flight to Europe Co-Sponsored by I-F, Undergard

Seats are still available for the flight to Europe co-sponsored by the Interfraternity Council and Undergraduate Council, William J. Williams, a co-chairman of the event, announced.

All members of the University staff, as well as students, faculty, alumni, and friends of the University are eligible to make the trip at the special rate of $750 per person as regular airfare, it is added.

Anyone interested should write to President B. Peters, Undergraduate Council, University of Pennsylvania at Philadelphia, Pa., 19104, for application forms.

The plane leaves New York June 12 at 3:00 p.m., will land at the city of Porto, Portugal, on June 13, and will arrive at the University on June 18. The plane will return at the same time, landing at the University on June 24 and arriving at New York on June 25.

Peters said that the fundamental need for fraternity is to reach out to the non-fraternal students and to take immediate and constructive steps to deal with them.

He cited several advantages in the fraternity system which are not found in the University, such as the social atmosphere, the influence of the fraternity, and the opportunities for leadership.

Peters recommended the adoption of the proposal to strengthen the Interfraternity Council, which he said would result in "a better and more effective council for the future."

He added that the fraternity system would be strengthened if the Council were reorganized and that the Council would become a more effective body if it were reorganized.

The Locust Street Terrace is now host to perhaps one of the most delightful and moving plays of the season. Arnold Moss has deleted Arthur Shaw's "Back to Methuselah," is a three-act and a half-hour production with Tony Power and Faye Emerson playing the leading roles.

The "mythical" is key word to Arnold Moss's portrayal of the playwright. Shaw, who created the St. Patrick's Day universe in a bright green tie and a livid personality, is now the stage by claiming that it is an example of what mankind might become in the future. The certain quota on the Masters of Eternity. It is not just a "mythical" piece of life and death, but through the way the characters deal with "All the things of all worlds," and it is up to them to make death by birth. The first scene is one of the play's set, in which progress is far into the future, and the life expectancy of man increases with the years.

Take Other Roles

After a discussion on how long man is to be, perhaps one of the most delightful and moving plays of the season. Arnold Moss has deleted Arthur Shaw's "Back to Methuselah," is a three-act and a half-hour production with Tony Power and Faye Emerson playing the leading roles.

**NOTICES**

**BASEBALL**
All prospective players for baseball teams must report to training and select the team they wish to join, at 3:30 p.m. Monday at Historic Field.

**TUESDAY**
There will be a community meeting at the Congregational Church on Tuesday evening to discuss the future of the Recreation Center. Everyone is welcome to attend.

**WEDNESDAY**
A meeting of the Government Club will be held on Wednesday evening to discuss current political issues.

**BASKETBALL**
The basketball season is upon us! Practices start next week. All players must attend tryouts on Friday, October 1st, at 7 p.m. at the Sports Pavilion.

**TENNIS**
The tennis courts are now open for the season. Please practice safely and observe all safety guidelines.

**DEPARTMENT CLINIC**
A clinic for the treatment of minor injuries will be held on Thursday at 4 p.m. in the Health Center.

**NEWMARK**
Low cost transportation services are available for students traveling home for Thanksgiving. Visit the Student Services Office for details.

**PENN LUT REVIEW**
There will be a special meeting of the Penn LUT Review board on Friday at 3 p.m. in the LUT Room to discuss upcoming events.

**PSYCHOLOGICAL SOCIETY**
The Psychological Society will hold its annual meeting on Saturday at 10 a.m. in the Social Sciences Building.

**TUESDAY NIGHT**
A special Tuesday night event will be held at the Student Union starting at 7 p.m. Everyone is welcome to attend.

**DANCE**
The dance club will hold its annual dance on Saturday at 8 p.m. in the Great Hall. Tickets are available at the Student Union.

**NEW DELUXE RESTAURANT**
40th and Irving Streets

**OPEN 11 A.M. TO 3 A.M.**

**FOOD AT DISCOUNTS**

**ZAVELLES** Open 7 a.m. - 9 p.m.

**NEW AREA OF COMPUTER TECHNOLOGY**

**Research Engineer Robert A. Thorpe, like many other engineers, mathematicians and physicists, came to IBM directly from college. Here he describes how he put his E. E. degree to work in the exciting new area of computer technology.**
