Interfraternity Council Institutes Formal Plan For Fall-Term Rushing

Regular Rules Prevail In New System To Be Instituted For Year Of 1958-'59

A formal fall rushing program for upper freshmen and sophomores for the 1958-59 fall term has been instituted, Michael O. Guterman, chairman of the interfraternity Council Rushing Committee, announced yesterday.

This new system, which was passed by the I.F.C. Council, is necessary because of the great number of students expected to rush in the fall, Guterman said.

Fall rushing will now be scheduled to operate under relatively the same rules as spring rushing, except that the main changes are: 1) rush time will now be set at 4:30 p.m. instead of at 4:00 p.m.; and 2) the rush system will now be limited by three days, instead of an unlimited number of days.

The plan of the 200 upper freshmen and sophomores who have achieved average grades in the University for more than one year are: to be invited to rush during the three days of the rush program.

In the past, rushers from 1951-52 to 1956-57, all freshmen have been expected to rush in the spring term. The new system will allow the rushers to rush in the fall term.

For the first time the I.F.C. Council has adopted a system of rush ratings, as shown by the following rules:

1. All members and brothers of the Interfraternity Council, I.F.C., will be rated by the Interfraternity Council Rushing Committee.

2. Each member and brother of the Interfraternity Council, I.F.C., is to be rated according to the following system:

   a. 10 points for those who have all of the following qualities:
      i. have completed all of his required courses
      ii. have completed all of his required courses
      iii. have completed all of his required courses
      iv. have completed all of his required courses

   b. 5 points for those who have all of the following qualities:
      i. have completed all of his required courses
      ii. have completed all of his required courses
      iii. have completed all of his required courses
      iv. have completed all of his required courses

   c. 1 point for those who have all of the following qualities:
      i. have completed all of his required courses
      ii. have completed all of his required courses
      iii. have completed all of his required courses
      iv. have completed all of his required courses

3. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

4. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

5. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

6. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

7. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

8. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

9. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

10. The rusher shall be notified by the rusher's ranking to the rusher's rusher, and shall not be asked to rush during the rush program.

Players Name Cast For 'Little Sheba'

Ronald Goldstein and Miss Oud Bassion have been chosen to play the roles of John and Miss Oud Bassion in the forthcoming Little Sheba, which is to be presented by the University Dramatics Association at the Theatre Room at 8:30 p.m. on Monday, April 23.

During the first week of the play, the roles will be filled by fraternity freshmen and sophomores who have signed up to play for the Little Sheba during the final Friday night of the play.

New kids are arriving at the University, joining the ranks of others who have already decided that Philadelphia and surrounding cities is where they want to spend their college years. As an Ivy League institution, the University is in an enviable position when it can provide its ten-

The Church of the Savior of the ancient city of Constantine, was a great masterpiece of Byzantine architecture and art. The church was built in the 6th century AD, and it is a remarkable example of the fusion of Christian and Roman architecture. The church is located in the heart of the old city, near the ancient Hippodrome, and it is a popular tourist attraction today.

As one would expect, the interior of the church is not a new building. The present church was opened in 1955, but the tower was added in 1967. This is the first time that the tower has been opened to the public. The structure is a wonderful example of the style that was developed in the 6th century AD, and it is a great example of the skill of the architects of that time.

The artwork of the church is also a wonderful example of the skill of the artist. The windows are made of stained glass, and they are decorated with beautiful scenes of the life of Christ. The stained glass is made in the workshop of the church, and it is a wonderful example of the skill of the stained glass artists.
