Schoenfeld Makes For 'College Bred Men' To Lead Awakening

John Welsh Centennial Emeritus Prof. Addresses 106th Hey Day Ceremonies

In William P. Schroth, John Welsh centennial emeritus professor of history and English, today called for "the college bred men" to lead the country in a "national awakening.

Speaking before the 1958 Hey Day ceremonies in Irvine Auditorium, Dr. Schroth stated that "there is a great need to take a very serious interest in town, state and national affairs." In the past we have failed Russia, literally, however, deep down we have realized its meaning. We must now realize that the Banners are for where we are in the world, and not just in the United States. (Continued on page 4)

Class Prophecy

by Charles B. Bertrand

In the City of Baltimore, on the 29th day of May, 1886, the commencement exercises of our class of ’86 were held in the auditorium of Westminster College. The weather was fair, and the evening cool, and the whole city was in the best of spirits, looking forward to the grand event of the day. The auditorium was filled to capacity, and the procession of graduates, led by the band, entered the hall in grand style.

The exercises opened with a prayer by the Rev. Dr. John B. Mclean, followed by an address by the President of the University, Dr. John B. Mclean, who spoke on the importance of education and the future of our class. The President was followed by the President of the Board of Directors, Mr. John B. Mclean, who addressed the graduates on the importance of hard work and perseverance.

The exercises continued with the presentation of awards and diplomas, and the reading of the names of the graduates. The names were read in order of the length of service, and each graduate was presented with a diploma and a medal.

After the presentation of awards, the President of the University addressed the graduates on the importance of their education and the future of our class. He spoke of the great opportunities that lay ahead for them, and encouraged them to work hard and make the most of their education.

The exercises concluded with a prayer by the Rev. Dr. John B. Mclean, followed by the singing of the national anthem. The graduates then left the auditorium, looking forward to the future and the opportunities that lay ahead for them.

Good morning, ladies and gentlemen. We are gathered here today to celebrate the achievements of our class of 1986. I would like to welcome all of our guests, our friends, our families, and our supporters, who have come to share in this special day.

Our class of 1986 is a diverse group of individuals, each with their own unique talents and interests. We have come from all corners of the country, and from all different walks of life. But today, we are united by a common purpose: to celebrate the achievements of our class.

We are a class of scholars, of leaders, of innovators. We have achieved great things in our academic careers, and we have made our mark in our communities and in our families.

But today, we are not just celebrating our academic achievements. We are also celebrating the friendships that we have formed, the memories that we have created, and the experiences that we have shared.

We are a class of graduates, but we are also a class of friends. We have been through thick and thin together, and we have supported each other through the good times and the bad.

So today, let us celebrate our achievements, let us celebrate our friendships, and let us celebrate the future that lies ahead for us. We are a class of graduates, and we are ready for whatever the future may bring.

Thank you.
