Space Travel To Be Topic Of Symposium

The Moore School of Electrical Engineering and the Institute of Radio Engineering and Physics are sponsoring a part lecture series entitled "The Future of Space Travel." The series will be held in the second part of the lecture hour on Tuesdays in room A-4.1 of the Physical Science Building.

David M. Langstaff, Jack H. Irwin, and Robert E. Hubbard, Jr. of the Electrophysics Corporation, will speak on "Space Travel."

Gordon W. West, research assistant, will present a paper on "The Future of Space Travel: A Survey."

Faculty Members Issue Call For End To Nuclear Tests In Resolution To Eisenhower

Members of the faculty of the University have sent a resolution to the President of the United States calling for: 'a) an immediate cease to all in-sourced bomb testing in the United States; b) the immediate cessation of the testing by the United States of its new hydrogen bombs; c) a moratorium on all new nuclear tests; and d) an end to all nuclear testing as a first step toward the conclusion of a general test ban.'

The resolution was sent to President Eisenhower and Secretary of State John Foster Dulles last June by 52 members of the faculty act- ing on a recommendation of the resolution committee of the Faculty Senate. The resolution was read to the Senate last Wednesday before the Senate adjourned.

Grant Of $36,000 Given To Univ.

By Rockefeller Foundation

A $36,000 grant from the Rockefeller Foundation has been awarded to the University to continue and expand a study of landscape archi-
vation in the city of New York.

The grant will be used to extend the current study of the city's geography, highways, parks, and its many open spaces, development and housing development in the city's relation to the environment and to the city's landscape architecture. The study will be expanded in three parts:

1. A study of the many open spaces in the city, including the parks, parks, golf courses, and other open spaces in the city.
2. A study of the city's highway system, including the city's highway network, the city's transportation system, and the city's transportation network.
3. A study of the city's development, including the city's development network, the city's development system, and the city's development network.

Among the individuals signing the application for the grant are:

President Richard C. E. Bown, President of Rockefeller University, and President of the Rockefeller Foundation.

Editorial

**Clarification**

The new formal fall-rising system for uppers is an attempt to eliminate the rules and penalties that necessitate more bureaucratic procedures.

Registration for this fall, by the stu-
dents and the faculty, must be done by the Dean, Professor, or Head. An eligible student cannot pledge a fraternity, unless he has a transcript of classes taken and, likewise, no fraternity can pin, key or pledge a man this semester without the transcript being properly registered.

Each classification of student is floor-ceived by the President of the Interfraternity Council, approved last spring, which is a list of rules for fall rushing as govern spring rushing.

A 'Topper' who was scholastically ineligible to rush in the spring can visit the house only on Mondays, and no credit can be earned on the floor.

1) Second semester freshmen cannot enter the house until after spring rushing.

2) Sophomores who were eligible to rush in spring, but did not pledge, can enter the house at any time.

3) Juniors and seniors can enter the house at any time.

The 'Highball'

Lhnade And Tweedy

"The Freshman club is in session, Ladies and Gentlemen," said the President of the Sophomore fraternity, "and I have the privilege of introducing a new student, William Jones, who has been accepted into the society. He is a very fine young man and will be an asset to our membership." The crowd of onlookers applauded as William Jones was introduced.

The President then continued, "Let us welcome William Jones to the fraternity and wish him all the best in his new journey."

During the evening, the fraternity held a formal ball where guests were required to dress in their finest attire. The dance was filled with music and laughter as the members enjoyed each other's company.

The following day, the fraternity hosted a picnic on the riverbank, where the members enjoyed food, drinks, and conversation by the water.

The fraternity continued to hold various events throughout the semester, including a formal dinner and a charity event.

The members of the fraternity were known for their dedication to community service and their commitment to their studies. They worked hard to achieve academic success while also maintaining their social lives.

In conclusion, the fraternity provided a supportive and welcoming environment for its members, allowing them to form lasting friendships and create memories that would last a lifetime.
Paul, Sports Staff Make Predictions

Paul's Director of Sports Publicity, Bob Paul, joins the members of the sports staff in predicting the outcome of ten of the top college football games of the week.

Paul

Penn State Highly Regarded

Pennsylvania's vasty gridirons, faced with their best chances since 1931, of beating their traditional opponents rival Penn State, will offer the game Saturday with the realization that the Nittany Lions will be "up" for this game after their opening game defeat to Nebraska.

The Blue and Gold realize that even in defeat, State put on a strong showing and according to Paul, The Times, "won everything but the game."

Air Game Strivied

The tail statistics showed Penn State aided Nebraska in first down and 6-1 and gathered them on the ground 262 yards to 124. Their air attack, their supposedly strong point due to the presence of two future quarterbacks Al Jackson and Wally Schmeltzer, was held to only 49 yards through the air to Nebraska's 25.

The two men who Territorial fans must set to their mental table, Travolta, fullback, and halfback A. Anderson, both entered the Pennsylvania line-up.

Bills was characterized by Travolta as a 
real hard man who will kill you up the middle of you don't hit him hard before he regains the line of scrimmage.

Rasporin Well Known

Paul, strongly familiar with Rasporin, leading fullback for State, the famed State, last season, the tailback for Penn State this year, in the first half of the game, the quarterback for the Quakers' loss to Minnesota last year, was the star of the Pennsylvania

Can It Continue?

Penn's football team will enter the 1936 Ivy League season with a three-game winning streak, the longest current streak among the eight schools.

Vale has compiled the longest all-time winning streak among the Ivy, 16 games without a defeat between 1927 and 1931. Penn's longest is a 12 game winning streak, between 1884 and 1896.

If the Quakers fulfill their potential, they have a chance of doing yet more this season.

NEWMAN SCHOOL OF THEOLOGY

38th and Spruce Streets

Class Schedule, Autumn — 1958

Wednesdays 3 P.M. Thomistic Philosophy Rev. James J. Murphy, M.A., Rector, Monastery of Bonaventure High School.

M. S. Classes meet for forty weeks weekly from October through December. No credit course is given. No papers, tests or outside work is asked of the student.
NOTICES

ATHLETIC MANAGERIAL BOARD — An important meeting will be held in the Mansfield Hall at 12 p.m. today. All members are requested to attend. BRIDGE CLUB — The first weekly meeting of the year will be held in the Dome Hall at 7 p.m. today. BOYS’ CLUB — A meeting will be held in the Dome Hall at 7 p.m. today. CROU — The weekly meeting of the club will be held in the Mansfield Hall at 7 p.m. today. CROSS-COUNTRY — A practice session will be held in the Mansfield Hall at 6 p.m. today. FRENCH CLUB — A meeting of the club will be held in the Dome Hall at 7 p.m. today. GEAR CLUB — The monthly meeting of the club will be held in the Mansfield Hall at 6 p.m. today.
