New Research Building Construction
To Begin Behind Dorms Next Week

7 Story Building Costs $3,100,000; To Be Used For Medical Research

Construction work on the new Medical Research Building situated on Hamilton Walk behind the men's dormitories will begin next week as plans for the project were announced by the Director of Physical Plant, told The Daily Pennsylvania yesterday.

The building is to be located between the School of Medicine and the Zoology Laboratory and will be a seven story structure with a large planter.

In addition to the Medical Research Building, a new biology building is to be built in the same location. This $1,700,000 project will not be commenced, however, until late spring of 1959.

The new Research Building is expected to be finished in about one year, Mr. Turner stated. It will be primarily for research work and not for classrooms.

Five departments will use the building including the Harrison Department of Surgical Research, the Johnson Foundation for biological Quantum Science, the Section on Magnetic Resonance, the medical department and the axes.

Construction Costs $2,500,000
Of the allotted budget of $2,100,000, 30% will be used for building the building and 25% for the project.

The remaining 25% will be used for the planning and 30% will be used for the architecture and other non-structural costs.

The United States Public Health Commission has already approved the grant of $1,000,000 for the project.

Director Johnson plans to have the building ready for occupancy by next fall.

A Case of Responsibility

A situation developed at last night’s meeting of the Undergraduate Council which deserves comment. After being a member of the cheering squad presented a request that some of its members be excused from travel expenses for its members to the away football games. The request was turned down by the Undergraduate Council and a smaller group was sent in its place.

It was the Council’s opinion that, with proper arrangements made, it would be possible for the students to cover the games. The “The Daily Pennsylvanian” supports the Council’s opinion.

Disregarding the fact that it is financially feasible for Undergraduate Council to support the cheerleaders in their original request present, we see no reason at all why they must come up with the money to help the cheerleaders. Help is not as of yet available to cheerleaders in the sense of any sort of financial support or any sort of physical help. Cheerleading is not an activity as such—it is a definite and much needed function of football games. This service should be the concern of the University, in particular, the Athletic Department, to that trained facilities be available to cheerleaders for all games play.

It appeared from the general atmosphere of the meeting last night that neither the Council nor the President was prepared to request the needed and much-deserved aid was some sort of procedure in cases such as this. Why is this the case? Is anyone’s guess, though it is a sign that there was no previous request to work out a solution?

The cheerleaders are a part of Pennsylvania— they are a part of all college campuses, and they are just as important a part of consideration. They deserve even more consideration when a point is reached where research is needed on how the campus is going to be a “hit-bite” so that they may support the group’s team.

Chips Off The Block

by Joe Corriere

Looks like a spark鼹er on the Phila-

phia campus as this weekend. Everyone

many people take the big trip to Dartmouth
to see how Notre Dame does. The Doc-

houses are sure to be the largest at Dartmouth.

The Bailu psntiej

ith.

In this issue:

We continue the story of the high

in the ranks of our student body. The

other three parts of this story will appear

in the next issue.

The Bailup express

In this issue: The crew team, the

only one of the sports teams to be

covered in the next issue of the sports

section.

One family that can count on a visit from the

crew team is the one of the Foreman family. The

family has a tradition of having a crew team visit

them every year. The Foreman family is

very excited about the visit and is looking forward to

the opportunity to cheer on their favorite team.

Frosh Gridders Battle JV In Opener At River Field

Two Pennsylvania members, the junior varsity and the frosh gridiron clubs, will open each other this afternoon at the river front field. The JV team, the victors last year with the frosh, will play the game as a showdown between the two teams. The JV team will employ a T-formation, backed by the strong blocking of John V. Keating. Dartmouth will play a five-line formation, backed by a strong line and a good running back, Nose Keating.

Penn's backfield will be composed of four members, Mack, Keating, Pat Stevens, and Charlie Catt. Mack and Keating have played together for the past two years, and the backfield combination will be a strong one. The blocking of the line will be good, and the team will have a good chance to win.

Renew Rivalry

Pennsylvania center Frank Wil- liams and Dartmouth end Bob Potter will again be on opposite sides of the fence tomorrow when the Quakers meet the Big Green at Hanover.

Two Pennies

Pennsylvania has two former stars in the starting line-up. Paul Bonham, who played right end in 1931, will be back for his third year, and Bob Potter, who played left end in 1930, will play on the opposite side of the field.

Harrises Face Scarlet Today In 1st Contest

Penn's cross country team will be looking for a return to its former form when it meets Columbia in a triangular meet with the Scarlet in the Quaker state's home. Division placement will be based on last 14 consecutive meets, and the meet will count for CEC meet.

Penn's winners will not be even among division leaders, and the meet will be a good one. John V. Keating, the star of the meet, will have an excellent chance to win the CEC meet.

Harriers Face Scarlet Today In 1st Contest

Penn's cross country team will be looking for a return to its former form when it meets Columbia in a triangular meet with the Scarlet in the Quaker state's home. Division placement will be based on last 14 consecutive meets, and the meet will count for CEC meet.

Penn, Oxford Schedule Tiddlewinks Tourney
by Arvon L. Daff

The story began in England last May. Oxford University Adams Field for the world's championship in tiddlewinks. Immediately the news and television stations at home in the United States sent representatives over to the confident to cover the event and get a match.

On Sunday night following the "match," Walter Crone-kite's C.B.S. News Show had a special five-minute coverage of the match. The anniversary revisited the winning members of the Oxford team. In an interview, one of the members of the team, said: "This is a beautiful day. At this moment we want two Penn students, Delight and New York through the Oxford championship.

On a half-hour, a serious team was formed, an international league for the development of tiddlewinks was suggested. As practically all members of the Oxford team, we would like to announce the Oxford University Tiddlewinks Society in care of Walter Cronkite, 146 N. 10th Street, Philadelphia, Pa.

Exactly one week later to secure our places, we invited the Oxford team to the University of Pennsylvania for a match. The Oxford team accepted and the first of our matches was played on the following:

Dear Masters Berthoud and Davis,

As President and Director of the Oxford University Tiddlewinks, we kindly ask all members of this society, to declare to you that we accept your challenge as long as we can play the best in the entire world.

We are highly pleased to play your letter which was our first challenge to us, we are pleased to be challenged and we are confident to be beaten by you. This is our challenge to you of the Oxford University Tiddlewinks. We do not think that the Oxford University Tiddlewinks have any chance to win.

We have been talking with the people of Oxford University Tiddlewinks and we have been discussing the possibility of a match between the Oxford University Tiddlewinks and the Oxford University Tiddlewinks. We are confident that we will win this match.

The Oxford University Tiddlewinks have been talking with the Oxford University Tiddlewinks and they have been discussing the possibility of a match between the Oxford University Tiddlewinks and the Oxford University Tiddlewinks. We are confident that we will win this match.

We hope that we will be able to come to your school and play this match. We are confident that we will win this match.

Thank you for your challenge.

Sincerely yours,
