Students To Distribute Petitions On Campus For Sane Atom Policy
Geneva-Bound Appeals Are Endorsed by Professors, Clergymen, Students
by Robert L. Frost

The declaration, titled "To the Men at Geneva," has been signed publicly by Dr. Charles C. Price, chairman of the Chemical Physics department; Dr. Zelig L. Gershon, chairman of the Geology department; and Dr. Samuel M. Charle, chairman of the Philosophy department.

Also affixing their names to this statement are Dr. William R. Zink, head of the Hill Student Foundation; Dr. Robert W. Fenton, professor of biological studies; and Dr. Stephen S. Kellner, professor of the Religious Studies department.

Also among those affixing their names to this petition are: Dr. Samuel M. Charle, chairman of the Philosophy department; Dr. David A. Price, chairman of the Physics department; and Dr. Edward G. Smith, chairman of the History department.

Petition Addressed
The petition is addressed to the "men at Geneva," which includes "vapors, apparatus, chemistry, physics, persons, and petition papers for a stronger atom policy, to coordinate and unite the peaceful power of world law to limit atomic energy.

The document was returned from the New York Times on December 31st. It was furnished to Robert O. Danielson, chairman of the Board Committee for a National Nuclear War Committee, and the petition paper was signed by the authors.

The petition was printed by the American Council on the United Nations, and the petitioning students were involved in the printing of the brochure.

Cuban Congress Dissolved; New Bank Heads Appointed
by The United Press International
(Havana, Cuba, January 41) Cuba's provisional president, Dr. Manuel Estrada, has signed up the last of the 26 opposition leaders who have been arrested in connection with the abortive revolt last June. They include: Dr. Cespedes, Mr. Placido Diaz, Mr. Luis Alfonso, Mr. Rafael Llona, Mr. Vicente Palma, Mr. Antonio Sanchez, Mr. Alfredo Delgado, and Mr. Salvador Suarez.

New Dead Sea Discoveries

by Fred Ahmed

Because they are actual photographs, some of the scientists have considered the possibility of a book. However, although the photographs, as interpreted by their discoverers, show a number of different life forms which appear to belong to a living species, several thousand copies of the book have been published, according to some of their opponents with a particular view.

Three high paragraphs show that there is a magnetic track excavated by workers of an adjoining hydroelectric project. Evidence indicates that the "flint" of the Philistines" was actually used in glass-making. The new discovery has a profound effect on the theory of the origin of the Philistines. There is no mention of the origin of the Philistines in the text.

JOE COOK

From there it was back to the hotel where the Quakers arrived at 2:00 a.m. After an enjoyable evening of sightseeing in Puerto Rico the Penn team returned to the University's Almost without a hitch. In fact, the team returned full of praise for the island.

Overall, the Caribbean trip was a success with all members of the basketball team and the band enjoying themselves to a great extent.

Cagers Vacation On Caribbean Trip

Indianas Choice
For Cage Title

by Alton White

Dartmouth's cagers loom as the top threat in the Big Ten and South- ern Ivy League title and also in the race for a second straight NCAA berth, which saw them capture both the Ivy League and Big Ten trophies.

Coach Duggie Julian's team will be four feet of long with youngster forward Rudy Larnum, including Tony Amey and guards Chuck Krafman and Dave Dionne. Today, Coach Julian was unable to list the remaining players of his roster, which are Captains Lon Jordan, George Paracy and Dave Zemore.

Tigers, Elk Next
Bunchal behind these two are Princeton and Pennsylvania. The Tigers have four starters from last year's winning team, including Carl Bell, Joe Bures, Art Klein and Joe Fink. Princeton's fortunes will be dependant upon Larry Downs, the team's highest scorer last season and 6-3 point guard Gerry Glenn. Penn seems to be the best of the remaining quintet if they can show up in top form this year. Fighting for the remaining places in the standings are the Har- vard, Brown and Columbia.

Most popular

The Crimson's hopes lie on the shoulders of 6-6 Greg McElhaney and 6-8 Greg Hughey. Joe Take and Alan Bacon will probably hold the key to the Crimson's success. The Quakers must prove that they can play with the top teams.

Which team will win the championship? It is anyone's guess, but the odds are that whichever team wins the Big Ten title will also win the NCAA championship.

Mermen Meet Bisons Away
Quakers Seek Third Victory
With Team At Full Strength

by Richard L. Byrnes

After a three-week break for the Christmas season the James Madison (Va.) basketball team was set to go into action again when it encounters Bucknell University at the Eisele.

Bucknell's three-year-old team will be swimming in the opening round of the season, after compiling a 6-2 log during the 1954-55 campaign. The Bunnies are playing better than they did last year, and Bill Brines, head coach, believes the Bunnies would not be at full strength due to injuries.

Bucks War In Butterfly

The linebackers and fullbacks on Bucknell's team are strong, but it has Skip Carter and Rick Hruske under centered protection. Heading Coach Bob Bland- Fernando is in his second year at the helm.

The Quakers will be gunning for the full strength of their foemen when they open their season today (3 p.m. EST) against the Bunnies. This is the first meeting between these two teams since 1953, when Coach Bell's squad defeated the Bunnies (21-11) at the Palestra.

Tyro Mermen
Face Bucknell

with a game history of 7-4-1.

In the last two minutes of the game, Jim Bell's team hung on for a 74-69 victory. Bell was the only key player who did not have a successful season.

The Quakers won the game with a 12-2 run in the final period, which included a 4-0 run by the beginning of the game.

The Bunnies' winning streak ended at 12 as they lost to the Quakers.

The Quakers are favored by 5.5 points in the upcoming game.

The Quakers' victory over Bucknell will be the first of the season for the team and will put their record at 2-0. The Bunnies are 1-1 for the season.

The Quakers will be playing in front of a home crowd for the first time this season. The Palestra has been packed for the past two games.

The Quakers have a strong backcourt, with guards Alan Bacon and Tony Amey leading the way. The Bunnies will be led by Bill Brines, who has been coaching for the past three years.

The Bunnies have a strong frontcourt, with forwards Dick Kemppainen and Joe Take leading the way. The Bunnies are favored by 5.5 points in the upcoming game.

A program of supreme importance to anybody who ever buys classical records

The RCA Victor Society of Great Music

UNDER THE DIRECTION OF THE
Book-of-the-Month Club

...its common-sense purpose is to help serious lovers of music build a fine record library systematically instead of haphazardly ... under reliable guidance ... and at an IMMENSE SAVING over what they would otherwise pay for the very same RCA Victor Red Seal Records

MR. NOVEMBER, in the back of their minds, certainly intend to build up for themselves a representative record library of the World's Great Music. Unfortunately, almost always they are.happiest in carrying out this aspiration. The new Society is designed to meet this occasion, sensibly, by making collection more systematic than it now is in most cases.

Because of over-systematic collectors, operating costs can be greatly reduced. The remarkable introductory offer at the right is a dramatic demonstration. It can represent a saving of up to more than 45% the first year.

Thereafter, continuing members can build their record libraries at almost a ONE-THIRD SAVING. For every two records purchased (from a group of at least fifty made available annually by the Society) members will receive a third RCA Victor Red Seal Record free.

A unique feature of the plan is GRACE. The Society has a Selection Panel whose sole function is to recommend "must-have" works for numbers. Members of the panel are: Deems Taylor, composer and commentator; Chalmers, Samuel Chotzinoff, General Music Director, NBC; jazz, and author and music critic, John Chowning, editor of High Fidelity; Aaron Copland, composer; Alfred Frankeinstein, music critic of San Francisco Chronicle; Douglas Moore, composer and Professor of Music, Columbia University; William Schuman, composer and president of Juilliard School of Music; Earle Swenson Smith, chief of Music Division, N. Y. Public Library; Wallace Woodworth, Professor of Music, Harvard University.

HOW THE SOCIETY OPERATES

Each month, there will be or every 12-inch 33 1/3 R.P.M. RCA Victor Red Seal Record. Records are announced in members. One is selected out of the record-of-the-month, and unless the Society is otherwise instructed (on a simple form that comes with each shipment), the record is sent to the member. If the member does not want the work he may specify an alternate, or instruct the Society to send him nothing in all that month. For every record which, if purchased, members pay only $9.88, the nationally advertised price. (For shipments a small charge for postage and handling is added.)
