International Essay Meet Planned

London's Federal Trust for Edu-

cation and Research is organizing an international essay competition to be held next year. This will be the first of its kind in the United Nations.

The subject of the essay will deal specifically with "what developments in the structure of society are leading to the submerging of the individual". The essays will be judged by a panel of judges appointed by the Federal Trust and the United Nations.

The essay competition is open to anyone over the age of 18 who is a resident of the United States. The essay must be no longer than 2,000 words and must be submitted by August 1, 2023.

Language Lab Open

Dr. Samuel Sandmel, provost of the Hebrew Union College, in "Literature's relation to the philosophy of his two lectures in Houston Tuesday." He was also a

I. F. Booths on Sale

But, Dr. Sandmel said, it is not the case. He referred to the college's language lab as a "necessary evil," noting that it is one of the most important tools available to students.

The lab will be open from 9 a.m. to 5 p.m. every day, and will be staffed by a team of trained technicians.

The lab is located in the basement of the main building, and is accessible through a separate entrance.

The lab is equipped with state-of-the-art language learning software, as well as a range of other resources to help students improve their language skills.

Faculty Senate To Reconsider

"University Split Over Loyalty Oath"

Dr. Frohman Dubois, president of the university, said that the loyalty oath is "virtually impossible" to enforce.

Dr. Dubois said that the university is currently reviewing the loyalty oath and that a decision on whether to retain it will be made in the coming months.

Anti-Castro Editor Labeled 'Traitor'

by Steve Foster

The Department of Public Rela-
sions has issued a statement denounc-
ing the New York Times for publishing an article about Senator Robert Kennedy. The statement says that the article is "false and defamatory" and that the senator has been "subjected to unwarranted attack by the press."

Letters To The Editor

Ivanian:

I've been writing to The Daily Pennsylvanian for the last few weeks as a way to show my appreciation for the university and its community. I know that my letters may not always be accurate or completely negative, but I believe that expressing my concerns and thoughts is important for the growth of our institution.

I want to express my gratitude for the opportunities that I have had here. As a student, I have been able to participate in many different activities and events, which have helped me to develop my skills and gain a better understanding of the world. I hope that other students will also be able to take advantage of these opportunities.

I am writing to let you know that I wish to continue my involvement in the Daily Pennsylvanian. I believe that this publication is an important voice for the university and its students, and I am proud to be a part of it.

I look forward to continuing my work as a writer for The Daily Pennsylvanian.

Sincerely,
[Signature]

David Ivanian

Weales of Progress (Continued from page two)

The idea of using the computer is not new, but the development of the microcomputer has made it possible to use them in a variety of applications. The microcomputer is a small computer that can be used for a wide range of tasks, from simple calculations to complex simulations.

Weales of Progress, Inc., in Philadelphia, is one of the companies that is developing microcomputer-based systems. The company has developed a number of products that are designed to help businesses and organizations to improve their efficiency and productivity.

The microcomputer is a powerful tool that can be used to help businesses and organizations to achieve their goals. The company is committed to helping its customers to use the microcomputer in the most effective way possible.

...
Fausett Duels Hoey
As Princeton Hosts
Penn, Lion Runners

The junior edition of the annual
Paul Rea Track Meet will be held
at Princeton this afternoon as the
spring season opens for Penn, Con-
necticut and Presbyterian display
their track wares as the long spring
season approaches.

Today's meet will mark the sec-
ond showing of a strong Penn con-
testant that overpowered the Hill
School band last Friday afternoon.
Conducted by Penn road mile hold-
er, Bob Morrison, the Penn will be
presented with a stiff challenge
by the pincers of two highly tested
try squads.

Fausett In Stern Test

Miller standout Dick Fausett will
be up against one of the finest
sprinters in the east when he takes
the track against Tom
Holl of Princeton. Fausett has been
checked in 4:26, as compared with
Fausett's 4:20.6 showing in the
Hill School meet. In finishing a half
second ahead of his nearest rival in
that meet Fausett was by no means
pressed, therefore his showing against a strong opponent
such as Holl should provide good
material for the track records.

Quakers Outstanding In Shotput

The eight events should provide
a fine opportunity for the tryouts
to pick up valuable points as Bob
Rahmone, unable to compete in
the last Quaker meet returns to
action. Richardson, capable of
bettering the 16 lb. sphere over 60
feet, coupled with Gary Sheeran
and Dick Fausett, will provide a
favorable one-two-three punch in
an event that both the Tigers and
Lions are relatively weak in.

Doug Long will get another
taste to test his versatility in the
pole vault, high jump and long
jump events as the Quaker stand-
ard is once again entered in all
time. Last Friday Long led the
individual scores with nine points
and will be out to try and better
that mark this afternoon.

SOPHOMORES AND FRESHMEN

Here at Pennsylvania you are afforded an excellent
opportunity to develop in yourselves the
quality of leadership to meet the challenge of social responsibility
and to gain real insight into human society.

For many years members of the "Literary society" of the
University Boys' Club have been a powerful and unforgetable experience.

I Sing Of Arms And
Like [FILTER-BLEND], Man,

For if you dig a modern filter cigarette
It figures that it's what's up front that is the most
Like pure Flavorsville, orbit stuff, and all that jazz;
And only Winston swings with [FILTER-BLEND] up front,
A real gone combo of golden, rich tobaccos
Selected and processed like for filter smoking;
That's why, dear cats or even squats
Winston tastes good like a cigarette should!
