Censorship Controversy at Temple; Publications Board Holds Hearing

The Temple University, Publications Board has rescinded an order which prohibited the Temple News from publishing any additional information on a dormitory narcotics scandal.

The affair came to light as a result of a dispute between the News editor, who wished to print follow-up stories of the incident and the paper's advisors who were opposed to any further articles. As guaranteed by their constitution in such a case, the dispute was submitted to the publications board which met yesterday afternoon to hear the editors.

The university objected to the article because it revealed university disciplinary actions taken against nine students found smoking marijuana. A Temple spokesman had ordered the News' printer not to publish any follow-up articles submitted by the News staff, an order which was not re-

With Unveiling Of New Formation

Tomorrow the 1964 football season opens at Franklin Field with the Pennsylvania Quakers hosting the Engineers of Lehigh in a meeting of the rivals in the nation. The game is the thirty-second meeting of the two teams since 1855 and the first since 1933.

The game should be a good battle between Coach John Stepian's law offensive series. The transition from Wing to Wing was not beyond, as Coach Steigman said, "You can't get football players under control."

Exactly how much wing and how much T will be used in a closely guarded secret. Although the Engineers have been down 17-0 in 1963 and 19-0 in 1964, but last year, most every team that has been defeated this season has been de-

WASHINGTON - Secretary of State Henry A. Kissinger arrived Thursday afternoon for a two-day conference with the National Security Council. Kissinger is expected to discuss a range of topics, including the situation in Vietnam and other international issues.

The conference will take place at the National War College, located on the campus of George Washington University. The college is a research institute and graduate school of public policy that focuses on national security and foreign policy.

Kissinger is a former secretary of state and has served in various capacities in both the government and the private sector. He is known for his expertise in foreign affairs and his role as a mediator in several international conflicts.

The conference is expected to bring together a number of key figures in national security and foreign policy, including top officials from the Department of State, the Department of Defense, and other government agencies.

The ongoing situation in Vietnam is likely to be a major topic of discussion, as the United States continues to withdraw its military presence from the region.

Other issues expected to be discussed include the relationship between the United States and its allies, as well as the role of the United States in global affairs.

The conference is closed to the public, and no further details about the agenda or participants are available. However, it is expected to provide insight into the government's thinking on important foreign policy issues.

Senior Advisor To Begin Project

A pilot project to determine the feasibility of having senior advisors begin early this semester under the direction of Paul Ratsoh, chairman of the MCG New Student Orientation Committee.

Published last April, the plan for undergraduate advisors originally called for ten seniors to work with the graduate students who now serve as dorm councilors to the freshmen. After conference, Assistant Dean of Men of Homer Wood and Ratsoh agreed that the plan was too broad and complicated to be adopted in its entirety.

Nigerian Ambassador Speaks On Country's Development

(Continued from page 4)

FRIDAY, SEPTEMBER 25, 1964

Mr. Obe stressed the great benefit of having maintained good relations with Great Britain, which gave Nigeria its independence on October 1, 1960. The developing nation is placing great importance upon the role of education in preparing the citizens for the future. Between twelve and forty percent of the annual budget is devoted to education. Five universities have been established since independence, and ties to America and European educational institutions are encouraged and maintained.

Independent Foreign Policy

Nigeria's foreign policy is one of independence in international affairs. "But," stated Mr. Obe, "we cannot be neutral in the affairs of Africa or where we feel that human rights are being assaulted."

Mr. Obe spoke of the United Nations soon after independence and has taken an active role in the work of the UN, especially in the peace keeping operations in the Congo.

Letters To The Editor

The nation's foreign policy has always been one of peaceful negotiations with other countries. Talks with other African states over possible union and continuation of colonialism are going on. Mr. Obe feels, however, that any possible union is still far off in the future, and that economic and diplomatic cooperation are very important.

VAN CRIMSON and the Brunetts: Justice has published numerous stories concerning narcotics incidents with no university opposition. The Crimson broke the story of the LSD drug scene last year.

The News defended its right to print follow-up stories on the grounds that in a similar case in Colorado, after a federal judge had ruled marijuana not a narcotic, agitation by the university press led to the dismissal of charges against the students involved and the clearing of their records.

Rural And Legal Issues

Many moral and legal issues of the incident were also questioned at the Temple press conference. The News felt that the process of law, as guaranteed in the Constitution, might have been violated.

The students had been processed by the university judiciary committee headed by Dean Ben Carl Grazi, a federal defense attorney, for a federal offense, not simply a university offense.

Dissipatory Article

Charging a moral transgression, the News asserted that the students involved, all minors, were not notified by the university of other charges or of the proceedings.

Also, no specific record of the offense was mentioned in the students' transcripts; it was more noted that "disciplinary action was taken.

Of the nine students, two were expelled from the university, one suspended, and six others "primarily by Dean Grazi.

Jordan says McCluskey, who denies any wrongdoing, has agreed to cooperate in the inquiry.

Jordan told newsmen he expects the committee can start public hearings next week. In addition to Baker and McCluskey, he said Reynolds probably will be called to testify. Reynolds was a key witness at the previous hearings.

KANSAS CITY - Charles Finlay said Thursday that the KC MUST PAY $8 MILLION TO GET KID O' Finley.

The owner said that he had been approached by Six different Kansas City interests that $8 million was the asking price of $8 million is not met within the next few days, he declared, that he doesn't red when the two trucks collided on a San Francisco Freeway.

Thirty tons of ripe tomatoes splattered all directions, snarling traffic on the move itself, he had nothing to add to the often-stated "I'm not the most intelligent man in the world, and a lot of people think I'm quite ignorant. I've traveled more in this world, I've been exposed to problems that are beyond me and I don't have to stop and think to detail about them."

Without giving too much thought to such minor problems as the possibility of nuclear war, Senator Goldwater plans to lead us forward in his blind crusade to make the world safe for hypocrisy. -
