UPSG calls Maddin hearings 'illegitimate'

Bill requests hearing procedure

Whereas The Steering Committee of the University Council has acted arbitrarily in failing to consult students in the formation of a committee to discipline students.

Whereas This arbitrariness is in contradiction to the concept of a "community of honor".

Whereas The disciplinary procedures in existence at the time of the alleged violations should apply in the adjudication of those alleged violations.

Whereas The suspension of existing procedures establishes a dangerous precedent which may extend to other areas of student activity.

Whereas Regular disciplinary processes for undergraduates had been established prior to November 1, 1967, by the UPSG constitution and already existing disciplinary organs which have been approved by the University administration.

Whereas Cases involving alleged violations of student regulations have, according to precedent, been heard by the dean of the [Continued on page 3]

The committee's announcement that it is improper to set up a substitute committee "violates AAUP rules that investigations of student conduct be carried out by a "regularly constituted committee." They argue that it is improper to impose a committee after the incident has occurred which overrules all prior disciplinary procedures.

The students alleged that the committee is not properly constituted. They have mentioned that it is improper to impose a committee after the incident has occurred which overrules all prior disciplinary procedures.

They note that the established procedure in all undergraduate disciplinary cases is that the student faculties have original jurisdiction, unless the course wave the right to hear a case.

The resolution that UPSG passed was completed only minutes before the meeting began. Spurred by Assemblyman Joseph Cohen, it brought immediate dissatisfaction from Assemblymen Allan Beane and Geo Matthews because it was only the "first step of what we are after."

The two dissenting Assemblymen then presented their own resolution, which called on students to ignore the Maddin Committee. After quick debate the resolution was ruled out of order by Speaker James Rosenthal because it was not the "first step of what we are after."

The two undergraduate members of the Maddin Committee have, according to precedent, been heard by the University's office for Research on the Structure of Matter.

Professors blast 'blocking doors' $12 million aid given for 16% rise

By WALTER GRANT

WASHINGTON (CPS) — The American Association of University Professors has reminded recent graduates that the universities designed to stop campus interviews for recruiting have increased by over $3 million during the 1966-67 academic year.

A recent $12,091,600 was expended, a $664,000 in scholarships, $1,660,000 in loans and $2,150,000 in part-time employment aid, the report states.

In the graduate and professional schools 4,401 students received $7,433,600 for the year 1966-67.

The principal source of this year's increased financial aid was a rise of more than $1 million in funds budgeted by the University system. Some universities and libraries were awarded increased Commonwealth scholarships of approximately $400,000. An additional $76,600 was provided by a Federal Educational Opportunity Grant.

Douglas R. Dickson, University director of financial aid, has announced that revised College Scholarship Service (CSS) standards for financial aid to students from "middle income" families will go into effect nation-wide next year.

In an open forum to answer questions if students so request. If the recruiter refuses to meet this requirement, he should not be permitted on the campus, he added.

Schwartz' proposal would obviously affect military recruiters, who generally are not permitted to discuss important military policies like the Vietnam war. The war is the primary concern of the student protest, he explained.

Explaining his proposal, Schwartz said, "The grounds here have reflected the recruiter's unwillingness to adhere to the standards of an academic community rather than the nature of the recruiter's political affiliation."

The AAUP resolution, adopted by the Council during a closed meeting last week, did not mention any institutions where protests have been held or any particular organizations, such as Students for a Democratic Society, which have been sponsoring demonstrations.

The resolution, through its vague wording, refers to faculty members, "or as students. Faculty members have joined students in several recent protests."

The AAUP position comes in the wake of a series of protests against recruiters from the armed services and from other organizations connected with the military. Some of the demonstrations have been successful, and keeping recruiters from conducting interviews or temporarily shutting down a building where military research is conducted, Robert Van Vanz, associate secretary of the AAUP, said, "We've had a few successes. But we think all persons, regardless of their point of view, should have the same freedom. Our concern is that the larger freedom of academic freedom of an academic community be saved away by particular forms of protest which we think all persons, regardless of their point of view, should have the same freedom."

Van Vanz emphasized that the AAUP has been promoting greater academic freedom for students. The organization is one of five behind a joint statement on rights "any recidivist of coming to campus be required to participate.

A representative of the Peace Corps will be on campus recruiting and discussing the organization, Monday through Saturday, this week.

Mr. Allen Soult, a 1964 College graduate and former Peace Corps member, will head a four-man team in Nason Hall, Room 1 between 9 A.M., and 5 P.M.

Interest is expected in student activists, because he felt that, "they have a strong conscience and know"

These standards have been in effect here for the past two years. Dickson noted that these "middle-income families, frequently need financial aid because of special family expenses."

"This means an overall expansion of the student financial aid program," he said.

All in undergraduates in the past year was as follows:

Class of 1967, $3,115,790 (27%)

Class of 1966, $1,944,776 (42%)

and Class of 1970, $1,454,684 (49%). Approximately 50% of the freshman class are receiving aid.

...as it is meagre in its display of our library, where guests see only the lobby; as much emphasis is given Hey Day as to the eminence of our faculty." SCUE's accusations may very well be true, or at least based. The trouble is that SCUE presents no genuine, credible data, only obscure value judgments. Did the committee members conclude that the University has a party ethic after having interview toured guides, assistant deans of admissions, and again, prospective matriculants, or did they rely on their own impressionist gleanings?

The report also suggests that because the report have met two newly named assistant deans of admissions, one, for example, a graduate of Pennsylvania's Law School, the London School of Economics and Swarthmore College.

SCUE presents some valid criticisms of current admissions policies and advances some constructive arguments. It is too late now for the committee to recall a report that might tend to distort the image. It can, however, re deem itself by submitting appended reports, more realm diving into the issues involved, and potential changes in admissions procedures.

**ACTION:** "Action Line" contacted Mr. Northrup of the student agency and was informed that the broken machine has been replaced by the "New York Times." There are two machines in the basement, one working and one broken. "Action Line" was also assured that the second broken "Times" machine would be repaired. "New York Times" bureaucracy was the cause of the delay.

Until this committee reports, the Committee has recommended establishment of a commission to explore problems in this area before the Council met and to recommend procedures.

They also claim the hearings violate AAUP rules by not giving sufficient time to prepare for the hearings.

The resolution concluded with several courses of action, including a boycott of the committee and requests that students sign.

**By BOB SAVETT**

Saturday's scoreless tie between the unbeaten Quaker soccer squad and a fired-up Yale eleven didn't say much for the Penn offense— but it did for the Penn defense.

The Red and Blue defense made the Elis the seventh Penn-shoot victim of the season—an all-time Pennsylvania record. Back in 1914, 1917, 1919, and 1946, Quaker booters copped six whitewashes.

Further highlighting the shut-out mark is the fact that coach Charlie Scott's eleven failed to blank a single opponent last year. And, in the three contests the Red and Blue have been scored upon, only four goals have gone in.

"It has to be the best Penn defense since I've been here," commented a delighted coach Scott, who has now-directed Quaker defensive efforts for twenty-five years.

"Our record speaks for itself," added Scott. "We've given up our few goals in even games, and we've faced some strong lines—Temple, Navy, Brown, Harvard. Look at Navy—they had scored seventeen goals against us a year ago. Gervincy in that previous game, and we held him to one."

"The record is certainly a fine thing." Scott went on. "It's the whole unit, work together very well." And, in the three contests the Red and Blue have been scored upon, only four goals have gone in.

"A great deal of our success can be attributed to having the right man for the right position. Teddy (Isaacs) does such a fine job, and Larry (Utter) is a pillar of strength. He plays the deep back position and the modified 4-3-5-4 (4-2-4-2 arrangement) beautifully.

"Jim (Mal) is so much improved this year, while Steve (Roper) is doing so well. We have quite a good backfield. And, even the wings and tackles have done their share—at the proper times— they've been back in help out.

Both backfield Isaacs and captain Miller (Mack) Desantina are excellent men. "It's the whole unit, not just individual actions which are really outstanding," remarked the All-American lineman.

On the offensive front, however, it is obvious that the Quaker line is having its troubles. "You can't call us anything but erratic," answered Scott. "But inconsistency is not something we can be held accountable for. When Harvard plays only two or three men back, the Quakers get back to the fullbacks. And even the wings and tackles have done their share—at the proper times—they've been back in help out.

The Quakers are capable of defeating Columbia, but coach Ogilvie will be relying on his experienced eleven to down the Light Blue. Experience has failed this season.

Meanwhile, the quads have gained first-hand sports experience and watching from the sidelines while Penn gets drubbed soundly each weekend. They have everything to gain and want to prove themselves.

"If Bob Ogilvie is to win either of these last two contests, he must rely on the sophomores. He has nothing to lose. Zbrzeznj has shown himself capable of running a football team efficiently, while Remsen and Mr. halt can't help but improve on Penn's receiving this far. And even if these second-year men fail to propel the Quakers to victory, at least they will have gained valuable game experience that will serve Penn well in the future.

"The street is wide enough for all of you. Zbrzeznj deserves the opportunity to start in each of Penn's remaining clashes. In addition to Blumenhahel and Graham, Bob Monahan, who excelled against Princeton, ought to see more action, enabling workhouse Knowlton to enjoy some well-deserved rest.

Two years from now Bernie Zbrzeznj will throw a touchdown pass Saturday, should be granted another chance to start Charlie Scott's eleven failed to blank a single opponent last year. And, in the three contests the Red and Blue have been scored upon, only four goals have gone in.
