37th St. fire destroys autos, closes market

By STEPHEN HARKON
A four-alarm fire spread through a campus garage at 127 South 37th St. yesterday afternoon, destroying at least a dozen vehicles and causing estimated damage of $30,000. Firemen were rushed to the scene, and no other casualties reported. The fire, which was first reported at 2:37 P.M., also extensively damaged 125 So. 37th St., which housed O'Connell's Food Market. The O'Connell family and apartments along Walnut St. were not available late yesterday. However, it was reported that many vehicles belonging to the buildings and grounds department of the University, including several large trucks, some jeeps and a large garbage truck, were either destroyed or very badly damaged by the blaze.

The Gimbel Gymnasium on 37th St., which housed O'Connell's for many years, was also extensively damaged. The O'Connell family was notified of the blaze by an unidentified student passing by, and they immediately evacuated their building. Charles Mark, who owns a laundry at 121 South 37th and lives next to the O'Connell store, also evacuated his building shortly after the fire broke out. Mark said there was slight water damage to the upper floors of his residence.

The firemen were able to move their equipment and hoses onto the back door and called the firemen. "It was like nothing when I first saw it," Pagano said. "But in the few minutes before the firemen came, it really went up. I got the fire extinguisher and run outside. But as soon as I got there I saw the flames in the back of the garage were not available late yesterday.

DO YOU ENJOY BREATHING CLEAN AIR?
DO YOU LIKE TO DRINK PURE WATER?

Depending on where you live in the Commonwealth you may never have...

Air and Water Pollution Problems in Pennsylvania are changing and growing more complex. With the expanding suburban communities, the population proliferation and new industrial processes, increasing numbers of automobiles and changes in the amounts and character of refuse have affected the nature and amounts of air and water pollutants in the Commonwealth.

The Pennsylvania Department of Health needs your assistance to abate the growing air and water pollution menace in your state. Representatives from our Divisions of Air Pollution Control and Sanitary Engineering will be on campus:

MARCH 8

If you will be receiving your degree in Civil, Chemical, or Mechanical Engineering, we invite you to sign up for an interview to discuss our program and your future.

buried his head in the sand, refused to talk with the VWC beforehand, called in the cops to keep the corridors clear, and gotten his name and Peno's in the papers more than he or any other administrative official would like.

Instead, he knew what the VWC was going to do, they know what he was going to do, and both achieved their ends--the VWC had a demonstration, and Dean Robinson kept a calm campus.

For Dow, and the rest of the war supporters against whom the demonstration was aimed, the message is clear. Their defensive argument that it is only a radical fringe of an overindulged youth that objects to their policies is baldly false. The radical fringe at an Ivy League university represent a good deal more that a radical fringe, and students who are willing to listen to and support them are worthy of more than the offhand dismissal the war makers give them.

This week's planned appearance of Black Muslim League member Malcolm X will bear little resemblance to his visit to the University last October.

His speech will be sponsored by Connaissance and not by the Society for African and Afro-American Affairs; it will take place in Irvine Auditorium and not the Christian Association; and it is important, it will be open to the public; it will be made by a black man, unlike Ali's segregated meeting last fall.

The decision of the former world heavyweight boxing champion to allow whites as well as blacks to hear him is good. Segregation against blacks has no place in our society; discrimination in reverse is equally odious.

We acknowledge that many of the statements that will be made Wednesday will have special significance to blacks. In Ali's last appearance he virtually predicted the reaction of whites to his closed meeting, including--regrettably--the opinion of this newspaper. In doing so, he had only one black man in his audience--a改造--one of the ugliest events in the world.

Championship at last

Pennsylvania's wrestlers, in winning their match against Columbia Saturday, have become the first Quaker team to win an Ivy League championship outright, since the 1965-66 season when the basketball team took the title.

The wrestlers won in a convincing manner, breezing past all of their opponents, and all of their league foes.

Two of the wrestlers compiled individual undefeated records and the squad as a whole and a combined record of 69-7 for the season.

Letters to the editor

Effective demonstration

Even though the guest of honor never showed up, the long-awaited demonstration against Dow, campus recruiting, and the war in Vietnam came off as scheduled last week, and the results should show something to everyone.

For the sponsoring Vietnam Week Committee (VWC), the results of the demonstration should show the advantages of playing the game according to the rules, repugnant as this may sound in principle.

Representatives of 14 departments were at the demonstration. Nowhere near that number of faculty members--students of that matter--were at the corridors they had attended and spoken at the raucous, rule-breaking type of demonstration some VVC members predicted.

For the administration, the obvious lesson to be drawn from last week's demonstration is that flexibility is the only practical response to such potentially provocative situations.

Two students walked leisurely by the Van Pelt Library, in the shadow of the tall trees, one to talk with a coed whom he recognized. The other stood idly, a momentary, waiting for an introduction, and then continued on, but his mind never came, introductions rarely come. The incident is not unusual. The conversationalist is white—his "friend" is black.

Estimates of the number of black undergraduates at Pennsylvania vary from approximately 100 to as many as 160. In any case, it is a small percentage of the 6800 undergraduates now enrolled.

Registrar Arthur Owens will not reveal the exact number of black students. The information was obtained through forms distributed at registration last fall which specifically stated that the statistical information regarding race, religion, or ethnic origin would be confidential.

Data recently released by the Department of Health, Education and Welfare however, discloses that two percent of the 41,000 undergraduates in the eight Ivy League schools are black. The number there at Pennsylvania surprises some people because—"It is no mystery."

One student who can get into Penn can also go to Harvard," according to Christian Association assistant director Tim Baker. "If he can get into Harvard, he probably should have chosen Harvard. If he can't get into one, he can't get into the other."

"The University follows a policy of non-discrimination in admission decisions," claims Dean of Men, Sam G. Owen. Although the University is prohibited by state law from requiring applicants to divulge their race, creed or color, all similar information is used in the all-inclusive "wardance"—is used in the many criteria for admission.

The background factor should not be interpreted to facilitate the admission of any type of student, whose presence would add flavor to the campus and strengthen the experience of the total student body," Owen says.

"At the present time," Owen says, "the number of applicants in this category (economically and culturally deprived background), principally Negro, is much greater than we now admit; however, that blacks comprise most of this group."

"If I were to have done that, I would have added color to the campus and strengthened the experience of the total student body," Owen says.

"The University does not use a system of overtly race-conscious policies or admissions. It is termed a "Door" by the admissions office. Students are required to respond a minimum of three percent of the entering class for applying applicants to divulge their race, creed, or color, all similar information is used in the all-inclusive "wardance"—is used in the many criteria for admission.

**Lions, Cornell win at Palestra**

**BY BARRY JORDAN**

Dick Harter didn't wear his basketball blazer to the Palestra Saturday night, in hopes of ending Penn's 15-game winning streak. It was to no avail as Cornell handed the Quakers a 75-69 defeat.

The loss, coupled with a 59-43 pasting by Columbia in the final Ivy League match-up of the season, left the Quakers 4-10 in the Ivy League and 9-10 overall.

The Big Red took advantage of hot shooting in the first half by George Chapman and the second half by Robert Pearmall to win their fourth in a row over the Quakers.

Penn seemed to dominate the first half, but Chapman was deadly from the baseline and hit seven of nine from the field to keep Cornell in contention.

The '79 junior tied the score at 19-all with 9:17 remaining in the first half, and then added seven points on two corner jumpers and a three-pointer to blow the Big Red margin to 32-25.

Penn went into a press and pulled to a 35-33 tie at halftime on buckets by Jeff Pearsall, Tom Northrup and Steve Pearmall.

Penn started off hot in the second half sparked by Carl Robbins and gained a 45-41 margin with 15:26 left. At this point South and Sub Bill Sears and the blacks continued to pressure and limit Columbia to 18 points. South led the visitors with 24 points, followed by Chapman with 22 and Scott Law who scored 17. South dominated the backboards, grabbing 16 rebounds.

Pearsall led Penn scoring with 15, followed by Robbins with 13 and Orenwalt with 10. Robbins also picked off 12 rebounds to lead in that department.

On Friday night Penn surprised everybody by holding atath忡

"Jimmy (Wolf) knew we had been in our first meet. He grabbed the ball after their basket and looked up. There was nobody in front of me, so I just took it off," the resulting pass and Katz's layup successfully clinched the victory for the afternoon for the Quaker

"I thought we were playing at home," complimented Katz to the two teams used to Hutchinsson Gym for the overtime period, making way for the 7:45 lead, which Pearsall had nine each. Each Penn points, while Andrews outscored the Lions' man-to-man defense. Tom Northrup and

McMillan's captain Greg Morris calmly dribbled through the press and hit a 3-pointer to give Columbia the lead, which they built up to 39-25.

The Quakers tight 3-2 zone defense. Tom Northrup and
