Town meeting turnout small

by DAVID KAYE

As U.S. President met early next month with world leaders, the White House will have 40 percent of U.S. voters. The meeting, due to discuss the report of the Defense Department on Open Expressions and Demonstrations on Campus, was attended by about 90 persons. The proposal would be administered by a faculty...
Letters: the ROTC issue

By David Tive

Editor’s note: David Tive, a Senior, is a member of the Assembly and the Finance Committee.

On Thursday afternoon in the Student Union, the members of the Finance Committee met to discuss the possibility of affording an academic discipline status to ROTC. The meeting in the Student Union was of some interest to many students and faculty members.

The questions of limited majors and the Summer Obligations are irrelevant to the management or accounting departments. The Summer Obligations are not a restriction on the management or accounting departments. The major concern is that the Department of Military and Naval Science are involved in ROTC. This fact makes it impossible to appear as a legitimate member of the University community. If this is indeed the case, faculty members may be drawn into this discussion and be involved in the endorsement by The Daily Pennsylvanian.

Second, I am inevitably concerned about the management or accounting departments. The University has the right to pass judgment on contracts freely without any restriction whatsover. In the opinion of The Daily Pennsylvanian, there is no reason why no contracts cannot be made involving the student body. One of those is that the University is acting with good faith. The University is acting with good faith. The University is acting with good faith.

Tive also points out that the University has the right to pass judgment on contracts freely without any restriction whatsover. In the opinion of The Daily Pennsylvanian, there is no reason why no contracts cannot be made involving the student body. One of those is that the University is acting with good faith. The University is acting with good faith. The University is acting with good faith.

Marketing at IBM

"Working with company presidents is part of the job."

"I'm pretty much the IBM Corporation in the eyes of my customers," says Andy Moran. "That kind of responsibility's not bad for an engineer just two years out of school."

Andy earned his B.S.E.E. in 1966. Today, he's a Marketing Representative with IBM, involved in the planning, selling and installation of data processing systems.

Plenty of business experience

"Engineering was my first love," Andy says, "but I still wanted good business experience." So far, he's worked with customers involved in many different computer applications, from engineering to business. His contacts go from data processing managers all the way up to the president of his largest account.

"At first I was a little nervous about working at that level," says Andy. "But then you realize you're trained to know what he's trying to learn. That gives you confidence. You're helping him solve his problem."

With his working partner, the data processing Systems Engineer, Andy has helped many customers solve their information handling problems. "I get a broad overview of business because I synthesize every kind of problem going. Sometimes I know the solutions from experience. Other times I need help from my manager."

"That's one of the best things. My manager is more of a backup than a boss. He's there when I need him. Usually, I pretty much call my own shots."

Andy's experience isn't unique at IBM. There are many Marketing and Sales Representatives who could tell you of similar experiences. And they have many kinds of academic backgrounds: business, engineering, liberal arts, science.

They not only sell data processing equipment as Andy does, but also IBM office products and information records systems. Many of the more technically inclined are data processing Systems Engineers.

Check with your placement office

If you're interested in the opportunities for engineers and scientists at IBM, ask your placement office for more information. Or send a letter or resume to Paul Koslow, IBM Corporation, Dept. C, 425 Park Avenue, New York, N. Y. 10022. We'd like to hear from you even if you're headed for graduate school or military service.

New men's dorms create pleasant living experience

By I. LEST SPECTOR

"The men's dormitory renovation program appears to make the residence hall a place which is adjacent to the location of the individual not just a place to live and sleep, but to live in, the person's experi- ence at Penn," said Edwin Look, the University's director of residence halls.

In keeping with this philosophy, the university has placed renewed emphasis on the older dorms on Spruce St., beginning with Morris Dormitory last spring and plans to work on Evergreen Dorm this fall. Look said the renovation program includes remodeling all of the university's dormitories in one to three years.

Rehabilitation of Evergreen was sched- uled for this academic year, but an unexpected increase in bed-frenzied students has required campus housing and opportunity who indicated the dormitories are needed for a longer period than planned.

When work on Evergreen is completed, there will be a move in dorm which will provide increased facilities to attract top dormitory residence. Facilities offered include air conditioning, gas heating, permanent exit signs, and emergency lighting. Look expects that the new dorm will "be the most modern student housing in the city."

The renovation program includes remodeling of residence halls and remodeling of the residence halls themselves. The men's dormitory renovation program includes remodeling of all of the residence halls which is adjacent to the location of the individual not just a place to live and sleep, but to live in, the person's experience at Penn."

Russell, Sartre call for world Olympic boycott

By William Hayden

BERNARD ROUSSEL and Jean Paul Sartre said today the French Army’s attack on student demonstrations was a “heresy”amounted only by base massacres in Europe and American napalm attacks in Vietnam and they urged a global Olympic boycott.

“Today’s Olympic Games are a farce,” Sartre said, “and I have always opposed them myself.”

“Sartre and Roussel are clearly a man and a woman,” Roussel said, “but I think their joint action is a matter of conscience.”

The two French writers issued a joint statement in which they said the “heresy”of the Army’s attack on student demonstrations was a “heresy”amounted only by the massacres of European and American armies in Europe and the United States of “mass”and “individual”massacres in Vietnam.

“This is a matter of conscience,” Sartre said, “and I have always opposed them myself.”
