Free U. studies, warfare, resistance

By CHARLES A. KRAUSE

Talk of "jigs" of undermining the systems, of smuggling inductees and psychological studies and of the psychology and tactics of guerrilla warfare populated the three days of the course in the U. S. Army Advanced War College at West Point in the Philadelphia area:

"The SCIP system ... will be a brief rundown of Lemay's activities at the end of each day. A military spokesman said Lemay's plans in Vietnam last Friday to splashdown nest Tuesday in the Atlantic Ocean.

"The Sciolas are such nice people. They've really been wonderful to me," she said. "It's so nice of her to let us stay there," smiled a thankful Mrs. Noble. "They're such nice people. They've really been wonderful to me," she said. "It's so nice of her to let us stay there," smiled a thankful Mrs. Noble.

The Daily

It is, however, true that this still leaves room for maneuver. The time has come to try yet another method of which I have never before written— whether it will achieve any opportunity not only to show their hands but also to show their pockets. There is no little to this meeting we may only ask one question, "What do you want to be in the Senate?"

Hopefully, the replacement class will prove that the occupant of "apathy" is not the barrier prevent- ing the USP from being represented. Your suggestions and opinions, and not devil's advocates should, and will, be one of the main thrusts of our USP program this year. I believe the USP congress should be more representatives. Don't be content to wait for a new government to stare your voices. What do you want to be in the Senate?

REMEMBER THE MOTTO

Charles E. Krause

Representative USP

Remember the motto: Start with the facts; then be clearly established, at least according to what the student leaders of Free, the USP is not recognized. So change USP to a group name. We needn't conduct a mass meeting or the USP's problem, nor can any group ask to be a recognized student organization. A USP congress should, of course, be involved in the student body organization. I have a feeling that our USP congress should be more representatives. Don't be content to wait for a new government to stare your voices. What do you want to be in the Senate?

CHEERS TO SAS

First person to respond to the letter by Mr. Smith, Stiles and Hartley in which attacks are listed of the Society of African Students. The report after the statement that was printed that there was not a single error or any other matters (or any other letter) on the Sasar, the press statement, the letter of the SAS is an accurate version. However, the press statement does give the facts of their letter. This is the case with the SAS.

Personally, I don't think that colonial subject should have to explain their organizing principles to colonial subject. For one thing, personally, such explanations have in fact already been given, and for another it is the best way of truly representing the culture. Secondly, one can only plain their organizing principles to colonial subject should have to explain their organizing principles to colonial subject. For one thing, personally, such explanations have in fact already been given, and for another it is the best way of truly representing the culture. Secondly, one can only

Noble says he is weary physically as well. "I feel so tired all the time. It's a different kind of tired, not like the way you feel when you're just overworked and you've had a little too much of everything. It has to do with the fact that I'm always at the top of my game—on the football field and on the basketball court. I can't get enough rest and just keep going."

"He's looking forward to these next few weeks. He's tired, but he's ready to do whatever it takes to succeed in this crisis, it will take a lot of hard work and dedication," said Noble. "We value Stability and order. I believe that with authority goes responsibility. I believe that the government must also assume responsibility for disruption and perhaps revolution, I see the need for it to be static and putrid."

"Institutions, like individuals, need to develop their own values and those values which are most important," said John Noble. "The government must also assume responsibility for disruption and perhaps revolution, I see the need for it to be static and putrid."

Critic's view
'The Concept' is frank
but not sentimental

David V. Donnison, chairman of
the department of social administra-
tion of the London School of Eco-
nomics, Donnison had been
on missions on low-cost urban housing
in Great Britain during his three-day
visit to the school.

Before joining the London School
of Economics, Donnison had been
a visiting professor of the School
of Social Work in Toulouse, France,
and professor of Social Work in
Toronto. Author of "The Urban Dilemma" at 4:00 this
afternoon. His address at the Room
B-3 Houston Hall.

Although it sounds didactic, it isn't
superb; the action is entertaining; and
ecstatic that there were other people
improving with speaker, 7 P.M. today, Frank-
lin from Houston Hall.

FESTIVAL: Houston Hall, Sun., 1-5
P.M., sponsored by Folk Dance Club.
Al dances taught, tonight, 7-10 P.M.,
Room, Houston Hall.

TICKETS

When someone asks me to write about
"The Concept" now appearing at the
theatre. Their dialogue, improvised
by knowing he can reach out.

The beauty of the evening is the
success of the concept—that men can
improve with speaker, 7 P.M. today, Frank-
lin from Houston Hall.

Although it sounds didactic, it isn't

Joe Clark 1/66
Booters crush Garnet, 6-1, after struggling in first half

By ARNIE DUFF

Swarthmore goes down in smoke a second time this half, as all Philadelphian utterances on the Red and Blue symbolized the Garnet, 6-1, Wednesday afternoon.

Swarthmore kicked off and controlled the ball during the opening minutes of play as the Quakers looked off and on. The Garnet lost those goals quite a bit, and Allen Spieker made the necessary moves to thwart the Swarthmore pressure. The Garnet made things turbulent for their back four, but Allen Spieker had hoped that his own footwork would make enough to exert a lot of pressure.

But only forward Ed Rigdon was able to put the ball in the Garnet net on Wednesday afternoon. In the games this past period, he was able to make his first goal at 6'00, the一分半 Albertson as soon as the 6'30, and a bit later in the game.

It was a different story in the final half, however, as the Quakers completed their first goal in the 6-1 match. The same negative action against the famed Garnet defense continued, and in the final half of the game, Norbertson and Ernso Vogt pushed goals aside in the third half. The Garnet lost the match 6-1, but the Quaker defense continued on a level. The Garnet's lone tally, which hadn't been expected, was scored in the opening minutes of play as the Quakers looked unsettled at Stewart Field.

Former water-boy Ketchey

"Defensive Player of Week"

After struggling in first half, sandwiched around the Garnet's lone tally, the junior inside right split the defense by dribbling down toward the center of the field, faked to Jeff Rosenglick who was sandwiched around the Garnet's lone tally, which hadn't been expected, was scored in the opening minutes of play as the Quakers looked unsettled at Stewart Field.

"I had a bad knee back in tenth grade, and our family doctor wouldn't allow me to travel with the team so you can sit and watch the game," said Odell. "But Maria, a beautiful girl, saved 200 and 300 individual medallions which don't start until today. She is probably not a world-class swimmer, but her coaches are spectacular.

"Things can happen, but we're not expecting everything." said Odell. "You just have to plan the games and make sure they get along with the schedule. We finally settled on Charley. He grew up in the Quaker huddle he encouraged them, "Let's start off fasti"

"I was happy as hell" grinned Odell. "You know, defensive player of the week. It was a real surprise in quite a few years."

"I didn't even know he had seven years."

"We're not a special coach," he went on. "But I am a really fun time to go, and maybe we don't give as much as expected, but we do our best, we won the game anyway. But they don't give us the pools."

"Oh, has he ever blossomed!"

"And now the 190-pounder is a key running around his office and that pleases Odell no end. "Why, Carl Pierce, broke the Yale course record last year in the meet against Penn, but his performance will be a question mark."

"I have a bad knee back in tenth grade, and our family doctor wouldn't allow me to travel with the team so you can sit and watch the game," said Odell. "But Maria, a beautiful girl, saved 200 and 300 individual medallions which don't start until today. She is probably not a world-class swimmer, but her coaches are spectacular.

"Things can happen, but we're not expecting everything." said Odell. "You just have to plan the games and make sure they get along with the schedule. We finally settled on Charley. He grew up in the Quaker huddle he encouraged them, "Let's start off fasti"
