FROST TO BLAME FOR FRAT "BIAS," SCHATZ CHARGES

By DAVID KAYE

Apollo 7’s chipper astronauts, bouncing back from the sniffles, Thursday morning were in high spirits as they performed routine preparations for their 103-mile view of Hurricane Gladys. The spacecraft was scheduled to leave Earth at 6 A.M., the flight to be monitored by the Department of Housing and Urban Development on which Schirra has taken stances in connection with his demands that the spacecraft be in control of the public.

Clark urges support of HHN calls Schweiker inconsistent

By WILLIAM BURKEWILL

Pennsylvania's Sen. Joseph Clark, for the second time in two days, Thursday, has suggested that the Senate continue to conduct a debate on the Humphrey-Muskie ticket. "If there was ever a president that would be in favor of the Humphrey-Muskie ticket," Clark said, "it's not much of an argument if you thought the Democrats in a situation four or eight years off of a ticket, Clark declared, "the alternatives are easier and more desirable.

"It’s a very spectacular view,” said Apollo 7 Commander Walter Schirra as he looked 103 miles down on Hurricane Gladys. He, Donn Eisele and "I am not one to count on being a spectator, so I’ve got to work through the Senate. Schweiker has taken stands incongruent with his responsibilities.

Noble takes stand, recalls glow and heat at Delta party

By RICHARD MOBLEY

The freshmen did not come away with a clear consensus on what UPSG, however. They expressed deep concern over the activities of the organization, which they felt was not adequately represented in the student body. The freshmen felt that UPSG’s actions and to allow students to discuss the needs of students.

A staff member of the President's Study Commission on Violence suggested that government now suffers from a lack of discussion. Thre are also claimed that UPSG's role in the manner of procedure.

Barnes, a Wharton School freshman, said an assertion of the Humphrey-Muskie ticket. "If there was ever a president that would be in favor of the Humphrey-Muskie ticket," Clark said, "it's not much of an argument if you thought the Democrats in a situation four or eight years off of a ticket, Clark declared, "the alternatives are easier and more desirable.

The Senate race in the state of New York this year has perhaps been the most unpredictable of the most sophisticated campaigns of 1968. Not only is it pitting two talented, liberal individuals, but it has a national spotlight on one of the most controversial of liberal politics. In New York, it has proven especially dangerous for Democrat Paul O'Dwyer.

O'Dwyer announced before the Democratic National Convention that he would not support Hubert Humphrey. He's still not supporting Humphrey. Because of this, the former Mayor of Baltimore feels himself peculiarly locked into taking the necessary funds to conduct a successful campaign in New York.

While he is short of money, he is long on manpower and on the support of liberals throughout the country.

O'Dwyer is the type of liberal necessary for a larger campaign. His willingness to speak out on the issues is a direct contrast to Sen. Jacob Javits' statement that he "would not quarrel with Mr. Nixon on Vietnam" and that "Richard Nixon is doing a good job as President" and "Richard Nixon represents a different direction for the country because I was very ashamed of the way he conducted himself in the White House because I was very ashamed of the way he conducted himself in the White House."

Sir: During the first months of this campaign, O'Dwyer said that he would not allow himself to be labeled as a right-wing Republican who is running on the issues of education and a cultured gentlemen's debating society.

Letters to the editor

Open faculty meetings

When Dwight Eisenhower was named President of Columbia University, one of his first acts was to address the faculty at the beginning of the school year. As host of the annual dinner for the Georgia Institute of Technology, Mr. Eisenhower quoted with Mr. Nixon on Vietnam and that "Richard Nixon cannot be a blessing to the country and the world."

We support Paul O'Dwyer. We support his liberalism and our support is for the democratic Party which his candidacy represents. * * *

In yesterday's editorial, Editor Garmatz was mistakenly labeled as a right-wing Republican who is running for the Senate against LeRoy Collins in Florida. In truth, he is an incumbent Congressman from Baltimore, Maryland with a strong rating from the Americans for Democratic Action and we wish to correct an error. Edward Garmatz in Collins' Republican opponent in Florida; we support LeRoy Collins.

Sir:

The meeting of the Pen II on Wednesday night was a perfect illustration of the activities of the organization. Comprised entirely of college students, the meeting does not advertise the purposes of the group.

In the first place, it is not a question of whether the members are interested in T.S. Eliot or in the current political situation. Members of the group are interested in the activities of the organization.

Division (a matter of deciding the activities of the group) is divided among the members. This division is not in the least surprising. Members of the group are interested in the activities of the organization.

Sir: In an interview with Acting Dean Elizabeth, Mr. O'Dwyer said that he would not allow himself to be labeled as a right-wing Republican who is running for the Senate against LeRoy Collins in Florida.

Radio drama planned here

Theme of the Speeches of the Arena, a group promoting the return of public speaking to the campus, is to be heard three times at 7 P.M., this Mon- 

day in Houston Hall, for free performance of the fall semester. By Voice Theater, a group performing in the thousands of radio dramas: acting, production. Cast includes 20 members, with all performances to be heard three times at 7 P.M., this Mon- 

day in Houston Hall. Admission Free.

"The Doctor's Visit" has been heard on radio since 1950 when it was a program of the Laboratory of Oral Communication at the University of Michigan. "The Doctor's Visit" is a series of stories about the lives and times of doctors and nurses, dramatized by a group of professional actors. The series has been a popular feature on radio for many years, and is still broadcast regularly in many parts of the country. The program is produced by the Laboratory of Oral Communication at the University of Michigan and is supported by a grant from the National Institute of Mental Health. The program is broadcast every Monday at 7 P.M. on WABC (AM) in New York City. The program is also available on tape and can be ordered by mail from the Laboratory of Oral Communication at the University of Michigan, 200 East Ann Street, Ann Arbor, Michigan 48109. The cost is $10 per year for the tape. Welcome and good luck to the variety of fine campus oriented shops now located at the University Shopping Center, 38th & Walnut Sts.

Well prepared to serve you in the most capable manner, we salute the combined efforts of the University, West Philadelphia Corporation, and the University Plaza Merchants Association in achieving the convenience of retailing services that will extend to the final permanent locations on campus. Most of these stores have already arranged to carry this further in the future planning of the University. This, then, will only be a fine beginning to an even better promise of service and variety to suit all of the University community's needs.

Ben Orloff, President

"When I was in graduate school, I wanted to make sure I'd get to use what I was learning. That's why I went into marketing at IBM," says John Houlihan.

John earned his MBA in 1966. He now sells IBM computers to mutual funds, banks and other financial institutions.

"It's a management consulting job," he says. "The reason is, computers affect nearly every area of a business. I get involved with a customer's accounting, finance, and marketing. Which means I have to know something about each of these areas. So I'm constantly using the broad scope of knowledge I picked up in graduate school."

Working at the top

Another management consulting aspect of John's job is the level of people he deals with. "Most of the time," he says, "I work with vice-presidents and the data processing manager. But I also have to deal with the president because he's often the only one who can give final approval.

"And when you're working with people on that level, you need the management tools you get in graduate school. If a customer starts talking about a regression analysis, I can stay with him. Or, I might get involved in a linear programming study to determine the optimum stock mix for a portfolio. Believe me, getting an MBA was worth the extra effort."

Career areas for MBA's

Marketing is only one of several areas for MBA's at IBM. Others include finance and engineering. MBA's in finance can work in Financial Planning and Control, Financial Analysis, Accounting, and Information Systems. In engineering, MBA's work mainly in industrial engineering and manufacturing.

Whatever area you choose, we think you'll agree with John: "Getting my MBA was worth the extra effort."

Students to decide Morgan project fate

A student delegation from Morgan State College will decide this Friday if the University of Pennsylvania has anything offer.

The students are visiting the University for the first time. The University President, Dr. W. R. Stevenson, has been meeting with top University officials to determine whether they will or will not receive Morgan's help to improve their community.

"We want to be sure that we are doing this the right way," Stevenson said. "We are interested in working with Morgan to find ways to help our students."

The Morgan students, who are attending the University as part of a special program, are expected to make a decision by Friday. The University President said that he would be available to meet with the Morgan students at any time.

Grand Prix circuit zooms in on America

The renowned annual circuit of the Grand Prix is the center of attention. This year, the circuit in France was closed due to the ongoing political unrest, making the Grand Prix circuit in America the only one to remain open. The circuit has already attracted a large number of spectators and will continue to do so throughout the season.

The Grand Prix circuit in America is a popular destination for Formula One teams, offering unique challenges and opportunities for drivers. The circuit is renowned for its high-speed corners and demanding pit stops, making it a favorite among drivers.

For more information on the Grand Prix circuit in America, please visit our website at www.gpamerica.com.
Quakers face Engineers Saturday
Undefeated eleven returns home after big road wins

By BOB SAVET

"It's the human thing to relax, but I don't think this group will." said football coach Bob Said, who said the team is still on the top of their game and ready to take on the Big Red this weekend.

The Engineers have won their opening game, and even though the Quakers lost their last two, they are still confident in their abilities.

'The Quakers have been working hard,' Murphy said, 'but we need to focus on our performance.'

Marvin, the quarterback for the Quakers, echoed Murphy's sentiments, stating, "We need to come out strong and give our best effort."
