DELTA UPSILON TO ADMIT COEDS

In a move to extend its membership to female students, Delta Upsilon fraternity has approved a proposal to admit women. The fraternity, which was established in 1838, has traditionally been a men's organization. The proposal will be submitted to the national headquarters for final approval. The fraternity says it will continue to uphold its standards of academic excellence and personal integrity, while also embracing diversity and inclusivity.

PETITION CAMPAIGN SUPPORTS FOOTBALL TEAM

President Rem and the Ren. Jack Russell signed a petition along with 300 students and other well-wishers who want newspaper national recognition of the university football team. The petition was submitted to the NCAA, which is evaluating the university's football program. The petitioners are calling for the university to field a competitive team and for the NCAA to consider the university's history and traditions in its evaluation.

A human tragedy

Once upon a time the word meant nothing to the man in the street, a lower-class synonym for the cognoscenti. Today it is a species of over补偿, a term of petty claque, a hoofer who gives them hell suffering.

The issues involved in the civil war in Nigeria are complex, and largely irrelevant in the face of the monstrous suffering that is bearing millions of Africans to their knees. A clear, thoughtful treatment of the problem is needed.

Field. However, this weekend—the very weekend when the "Pepsi generation" has it ever come alive! And it seems, even if the buses leave at 5 A.M., it promises to be an exciting ride.

Students push for urban affairs major

Fifteen students and faculty members interested in forming an interdisciplinary urban affairs major in urban affairs decided last month to meet with President David Goldberg. The purpose of the meeting was to be, said Dr. Paul McFarland, assistant professor of city planning, "to find out what it would cost the University to open the field to and to see what it would open its resources to do.

We, the students, are aiming at the same direction. There are two constructions approaching the same points.”

The group also formed a subcommittee to formulate a detailed outline of courses to be included in the major. As it is now, there will be four courses required in the major areas of the produced major and one of the major aspects of the new major, field research in urban affairs. Most of the present courses in the College of Arts and Sciences are required in other departments.

In the discussion which composed a major part of the subcommittee’s meeting, one of the most significant controversies that arose was the question of time. Dr. Thomas Rosen, associate professor of regional science, stressed, “A student and a teacher may not have the educational value you, the students, is not a possibility of new educational methods for larger groups of students. It should not be an insurmountable gap.

New teaching methods that might be employed in the major were also discussed. Among the suggestions were a work study program, a diversity of courses involving field work, and the possibility of finding a similar urban affairs major that the University could be in supply.

IAA to hold UN luncheon

The International Affairs Association will co-sponsor a lunch for the students of the Political Science Department, to be held at the U.S. Mission to the United Nations. The luncheon will take place on Friday, November 4, at 12:30 P.M. at the U.N. Buildings.

The luncheon will feature a talk by Mr. James Jonah, Chief of Political Affairs Program. Following the luncheon, Mr. Jonah will present the model of the U.N. system involving the Conference on Disarmament. The luncheon will be held in the IAA conference room on the second floor of the U.N. Buildings.

Why does a perfect size 7 look perfect only 21 days every month?

It has nothing to do with the calendar. It's a special female weight gain...caused by temporary water weight build-up. If you know...that uncomfortable full feeling that shows up on your face before your menstrual period.

The weight gain not only plays havoc with your looks but how you feel as well. It puts pressure on delicate nerves and small muscle groups which lead to pre-menstrual cramps and headaches, leaves emotions on edge.

That's why so many women take PAMPRIIN®.

It gently relieves water weight gain to help get pre-menstrual pressures, tension, and pressure-caused cramps.

PAMPRIIN makes sure a perfect size 7 looks less than perfect. Not feels less than perfect, either.

NEW YORK CITY TEACHERS ELECT STATE OFFER

Scholars who in New York City refused Wednesday to end a 24-day strike in exchange for a wage increase of the city's teachers, have accused the city of being ready to return to the classroom. The teachers, who are represented by the American Federation of Teachers, have that the proposal is "an attempt to hold back the teachers' education system." The teachers, who are represented by the American Federation of Teachers, have that the proposal is "an attempt to hold back the teachers' education system."

Quakers set to 'Humiliate Harvard' Sat.

This Saturday the University's undefeated football team will face the Harvard Crimson at Harvard Stadium. For the first time in more than 30 years, the Quakers will play a perfect game, the last being in 1937 when they beat the Crimson 21-0. The Quakers are currently ranked second in the land.

CAMPUS EVENTS

THE DAILY PENNSYLVANIA!!

Cheerleader captain Maurice Emmer urges all students to buy their tickets for the game. He said, "We want to see the schedule on the first day and to remember the event. We plan to send a message to all fans in the stands." The cheerleaders are asking all students to decorate their cars with streamers of red and blue and to attend the send-off at 3 PM at Houston Hall.

The Penn marching band will be present to support the team, and the cheerleaders are asking all students to decorate their cars with streamers of red and blue and to attend the send-off at 3 PM at Houston Hall.

A beauty parlor you can take back to school.

In many ways the Norelco Beauty Shaver is just like a beauty parlor.

For example, you can use it to get rid of any extra hair, from the head to the feet, and from the chest to the stomach. And when you're done, you can simply rinse it off and keep it ready for the next time.

But another way, it's more than just a way to get rid of extra hair. It also has 11 different interchangeable trimmers, allowing you to customize your beard to your own preference.

And just like at a beauty parlor, it also has a 110,000 voltage battery to keep it running all day. And it's not just for men, it can be used by anyone.

The Lady Norelco, on the right, is another version of the Beauty Shaver that has one less switch, one for the legs, and one for the underarms. It also has a 110,000 voltage battery to keep it running all day.

And it's not just for women, it can be used by anyone.

Norelco
The choice, every woman's hair.
Penn's offensive linemen are 'guys in the trenches'

By HARRIS TOVEL

This coming Saturday the heart of Penn's football team will be mapping forward, and again into the meet of a Harvard squad known to many as the 'toughest team they've played against all season.'

The defensive tackles Larry Yakulis and Ron Koval, who has the unenviable task of opposing the Massachusetts offensive line this season, "Mayock commented. The offensive line is rapidly developing the ability to withstand the drive of any running back."

"People will often point out that his offensive line is quick to point out that his offensive unit is not as good as the Quaker's. "But don't forget," Odell added, "we aren't looking past our opponents, the Quaker offensive line will be ready."

"They're down in the trenches," head coach Mike Mayock remarked. "And the tougher you make it, the better they like it. They're knockin' a hell of a lot for you if you asked me, "Mayock smiled.

"Larry Deal (offensive guard) is probably our most complete player," Mayock continued. "The coach is a great team leader, and Richard Fitch, both of whom each will fill in for the other if the need arises."

The freshmen cannot afford to make the mistakes of commission that most underclassmen make.

"I thought for sure that we'd be a lot better this season," he said. "Our unit that we're right up on top of the Ivy League."}
