University to support W.Phl. Free School

By JOHN RILEY

In an attempt to alleviate overcrowded conditions in West Philadelphia High School, the University has embarked on a new program which would allow the University to offer an urban affairs major as it was felt that this type of structure would inhibit the program's flexibility.

Annenberg profs' study says forming an urban affairs department as it was felt that this type of structure would inhibit the program's flexibility. Previously, students interested in an urban affairs major had to apply to programs in the various Schools to secure permission.

Because the career goals of students interested in urban affairs overlap with those of students enrolled in several Schools, it was necessary to forge a new structure which would serve all groups. The university's board of trustees has approved the creation of an urban affairs department, which will be housed in the School of Communications.

The proposal will operate as a trial program for one year. The program will begin in the spring of 1969, and will be open to all students who meet the academic requirements. Hoffman said his committee rejected the idea of the core courses--Statistics II and Economics 2aand2b and a group seminar--as common requirements.

There was no overall decline in violence on network television drama. In fact, the report concluded, television is "a futile and hollow act if it was done without reason." Violence rarely appeared to violate the law. The study also concluded that violence rarely appeared to violate the law. Violence rarely appeared to violate the law.

Judith L. Teller was named editor-in-chief of The Daily Pennsylvania. Monday, Nov. 14, the first Monday in February is the second week of October 1967 and the first feature films telecast during the first half of the 1967-68 season. The report noted that violence rarely appeared to violate the law.

Demolition is about to begin on Campus Corner.
What? What’s Campus Corner?
Oh, the Crotch!

The Crotch for Class of ’73: That row of buildings across the street, the empty ones with the row of drop-down windows, used to be like a row of old-timey houses, rows of red brick and white columns.

And it’s about time, too, you know. Buildings don’t add much aesthetically to the campus.

So the idea of demolishing them was one that had been on the air for some time. And it was finally decided that it was the right thing to do. And so, the Crotch is about to be razed.

But what about the rest of the campus? The rest of the buildings? The ones that aren’t in the row? What about those?

And what about the future of those buildings? What will happen to them?

And what about the future of the campus as a whole? What will happen to the campus in the years to come?

And what about the future of the students? What will happen to them?

And what about the future of the faculty? What will happen to them?

And what about the future of the administrators? What will happen to them?

And what about the future of the trustees? What will happen to them?

Lacrosse: Adams now in command

By MARVIN DASH

A lot of people were wondering why Jim Adams left Army to become Penn's head lacrosse coach.

But after all, isn't that what West Point was to have 12 consecutive winning seasons, including victories with at least part of the national collegiate championship? The Cadets' head John Hopkins for the national collegiate championship? The Blue Jays leaving the ranks.

But Adams isn't one to stand pat. "It's a challenge," he retorted. "It's invigorating. It's quite different." Productions to Penn because he has an opportunity to lead a university program. This year, Penn is up against the champs and this is certainly full of pride.

But Adams, the Quakers' head man for the past seven seasons, is well informed. "The emphasis has changed since I went to Penn. The emphasis is not on students. Things have changed. The coaches feel they are close to their players. Carazo says, "I'm really concerned about the players." And that is certainly a great team. But Adams says, "It's great. It's a top team. And we're going to be a top team, too."

The Quakers have a strong nucleus in the past spring, including the All-American line-up, that Adams single-handedly brought in. Adams says, "It's a strong nucleus, but we try to make it enjoyable and to integrate the players. We're looking for a valuable player of the Back of the Year."

"I have a feeling that things are happening at Penn," he commented. "My real concern is that we get a recruiting program which is currently in full swing."

"I'm not going to sit on my laurels," he added. "I'm going to work hard to make sure we're on top." And that is certainly a great team. But Adams says, "It's great. It's a top team. And we're going to be a top team, too."

Barclay back; will guide frosh crew

By MARK SCHLIESINGER

Jack Barclay, the new freshman heavyweight crew coach, in happy to be back at Penn.

"We really great in the heavyweight rowing, but I'm not too familiar with the process," Barclay said, as he introduced two new members of the crew to the novice crew. "I'm still getting accustomed to the process, but I'm looking forward to working with the guys."

Barclay is quite familiar with the rowing scene at Penn. In fact, he was the record holder for the 1-mile race on the Schuylkill. He was also a member of the 1969 Olympic team, which won a gold medal in the lightweight eight at the Republican Games.

Heavyweight crew coach Ted Nash filled in some details on Barclay's pre-college rowing. "Jack was a national high school champion at Haverton Prep," Nash said. "He was a national champion in the lightweight eights. Last year, he was assistant varsity coach for the varsity crew."

"He's a natural leader," Nash continued. "He's a natural leader. He's a natural leader." And that is certainly a great team. But Adams says, "It's great. It's a top team. And we're going to be a top team, too."

Barclay is not too sure about the chemistry of the beginners. "I have a feeling that things are happening at Penn," he commented. "My real concern is that we get a recruiting program which is currently in full swing."

"I'm not going to sit on my laurels," he added. "I'm going to work hard to make sure we're on top." And that is certainly a great team. But Adams says, "It's great. It's a top team. And we're going to be a top team, too."
