New restaurant
has free coffee

By STEVEN LINDER

Taps, pokers, a giant American flag, "electric colors," and free coffee characterize the new restaurant Marco Polo.

Located on the corner of 41st and Chestnut Streets, the Marco Polo operates seven days a week. Its doors open at 1 A.M. Thursday, 2 A.M. Friday and Saturday and 1 A.M. on Sunday.

"Business is only so-so," Miss Tyler said about the restaurant. "I'm sure it will pick up in the spring," she added.

The Marco Polo opened in March of this year, and its location was picked with the attraction of University atmosphere.

"We get about 600 or 700 kids in here each night," Miss Tyler said. "We don't expect this to be a very profitable restaurant."

"We get straightshooting, middle-of-the-road--anyone who is hungry," Ms. Tyler said from behind the counter as she prepared food for customers. "We're just having a good time," she added.

As Miss Tyler continued to prepare some food, this reporter observed the unusual decor of the restaurant. On the walls were posters ranging from black and white to psychedelic, from "Black is the walls are taped a plethora of posters ranging from

**Masculine....**

The dean of admissions announced Tuesday that he is in the process of admitting 110 more girls to next year’s freshman class and—what's more important—100 MORE MEN.

Our first reaction was one of delight. After all, there was nothing less repulsive, subtle males blithely skipping through College Hall Green who had filled our heads. But then we viewed the decision in the cold light of day—and after a cold shower.

What is that dean of admissions trying to pull? Did he really think that the joys of the flesh would deter our search for truth?

First, there is absolutely no reason to waste Ivy League schooling on a woman. A Feminine education is too valuable to be spent on future dishwashers, baby-carriage pushers and secretaries. A woman should be in the home, near heart and husband; it is not in the stacks (open or not) of the library.

Secondly, if women want to benefit from the economic advantages of a University, all they have to do is let them marry a Penn man. Surely, no one, be it the dean of admissions or any other feminine, will argue that women can be uplifted intellectually, culturally or physically by not letting them marry a Penn man. What we are concerned with is the giving of a Penn education to these women who have been denied opportunities for ever, not the giving of a Penn education to the women who have been denied opportunities only because of their sex.

We protest.

The Daily Pennsylvanian's misreporting of the admission decision last May was based on the erroneous assumption that the decision had been reached by the Rieber Committee. It was a decision with the assurance that it has been brought to the attention of the representatives of the students, and does not exclude them in any manner.

The 1970 Record will not include a special section on fraternity and sorority Rush. In the past the Rushbook has run a double-page spread each Friday (the day after the Rush) and a single-page spread for each activity, including group photographs.

Editor-in-chief Joe Kaplin said that there will be "not too many differences or statements" concerning the role of fraternities and sororities at the University.

While keeping the existence of organizations like the Record, Kaplin explained that the 1970 Record would not be an "extension" of these organizations at the University.

"So it will be Rush?" Joe Kaplin has been an overgrown high school yearbook writer, twenty existing activities, and crowding as many pictures as possible. The facitvity from 1962 to 1966, and all the same, Kaplin says that the student body, last year, just wasn't ready for the change, and "in a similar way the 1969 Record showed this change."

"The overall approach of last year's book was conveying attitudes through photographs, light through photographs. There isn't going to be a book that is just photographs."

"It's going to be a book that is a combination of copy and pictures."

The 1970 Record, the editor concluded, "won't be like last year's, but won't be like the 1960 to 1968 books either."
