Morgan exchange students do not find Penn overwhelming

By JOAN KIEDER

The supposedly awe-inspiring reputation and tradition of an Ivy League school has surprised a junior at Morgan State University who is attending the University this semester. While attending a number of University events, he was impressed by the size and the activities of the University, but was also surprised by the efforts the University made to accommodate the exchange students.

The Morgan student, who wishes to remain anonymous, commented on his experience at the University, saying, "I was surprised by the size of the University. There are many activities going on, and it seems there's always something to do." He also noted that the University's facilities were impressive, and that he was impressed by the size of the University's library.

The student was also impressed by the size of the University's student body, and was surprised by the number of international students attending the University. He commented, "I was surprised by the number of international students. There are students from all over the world, and it seems like everyone has something to offer." He also noted that the University's student body was diverse, and that he was impressed by the number of international students attending the University.

The student was also impressed by the University's campus, and was surprised by the size of the University's campus. He commented, "I was surprised by the size of the University's campus. It's very large, and it seems like there's always something to do." He also noted that the University's campus was beautiful, and that he was impressed by the number of trees and flowers on the campus.

The student was also impressed by the University's facilities, and was surprised by the size of the University's facilities. He commented, "I was surprised by the size of the University's facilities. There are many buildings, and it seems like there's always something to do." He also noted that the University's facilities were impressive, and that he was impressed by the number of classrooms and laboratories on the campus.

The student was also impressed by the University's academic programs, and was surprised by the number of academic programs the University offered. He commented, "I was surprised by the number of academic programs. There are many options, and it seems like there's always something to do." He also noted that the University's academic programs were impressive, and that he was impressed by the number of courses and seminars offered on the campus.

The student was also impressed by the University's student life, and was surprised by the number of student organizations on the campus. He commented, "I was surprised by the number of student organizations. There are many options, and it seems like there's always something to do." He also noted that the University's student life was impressive, and that he was impressed by the number of events and activities on the campus.

The student was also impressed by the University's location, and was surprised by the number of attractions in the area. He commented, "I was surprised by the number of attractions. There are many options, and it seems like there's always something to do." He also noted that the University's location was impressive, and that he was impressed by the number of museums and parks in the area.

HARRER (Continued from page 1)
The top five Quakers all broke 26 minutes, an amazing effort considering the 56-degree temperature and a 26-mile-per-hour wind.

Penn also took the frosh race, again ending a Tiger unbeaten string. Bob Kazley of Princeton was first, but Quaker runner was second, both winning by 20-40 seconds.

Bicycle race starts at 3 in HH plaza

By CLARENCE GREENE

Sixty-five years before Wendall Willkie was born, the University must have held its first Wendall Willkie bicycle race, because on the University's top two-wheelers will compete in the 18th annual Wendall Willkie race sponsored by the Willkie Club.

"I'm afraid you've changed the race's format somewhat," At the conclusion of the contest, competitors will be forced to demonstrate from their own appreciation and appreciation for the Willkie Club's capacity in providing a harmonizing point.

In the past, the contestants had been forced to inspect large portions of the field, and the Willkie will undoubtedly appeal.

The war: injured Princetoners vs. respectful Tigers

By MARVIN DASH

In the past Princeton regarded them as kids, but we now respect the Tigers.

The past Princeton victories of 49-7, 28-7, 24-21, and 41-20 at Princeton are now history. Substitutes from last year's victorious team will start. The Tigers have become a serious threat to the Princetonians. We feel that we will be defeated if we don't come out with a good solid effort to win this game.

The Princetonians have a good chance of winning this game if they do not take the Tigers lightly. The Tigers have a tough running back, fullback and are a strong offensive line.

The Princetonians must play well and have a solid defense to win.

On Wednesday, the Tigers will probably have a good running back who has scored many touchdowns.

The Princetonians must have a strong defense and take the Tigers seriously.

Fisher's foot key to frost grid success

By PHIL SHANKLIN AND GARY OLMAN

Chris Fisher, a 6-7, 260 lbs. center, is the key to Princeton's grid success. Fisher is a very large guy who can kick football a long way. His 4.7 40 yard dash is a good speed for a 6-7, 260 lbs. center.

Fisher is the key to the Princeton offense. He has a good field goal kicking ability and can kick a field goal from anywhere on the field.

Fisher's accuracy in kicking field goals is very important to the Princetonians. The Tigers have a very good defense and Fisher's kicking will be the key to the Princetonians' success.

Fisher's kicking ability is very important to the Princetonians. Fisher has kicked field goals in many games and has been very accurate.

Fisher's kicking ability is very important to the Princetonians. Fisher has kicked field goals in many games and has been very accurate.
