Davies scales pole, foiling flag-foul-up

By ROBERT DAVIES

The University of Pennsylvania officials who were investigating the possibility of disciplinary action against the student who climbed the pole after discovering the flag had been cut have decided not to take any action. The student who climbed the pole, who was identified as a member of the Student Action and Support Committee (SASC), was observed by campus guards and then phoned Mr. Russell and Provost Goddard.

The incident occurred during a protest against the University's decision to cut the flag that was raised on top of the Administration Building on September 21. The flag was cut, and the student climbed the pole to get to the top. The student was observed by campus guards and then phoned Mr. Russell and Provost Goddard.

The student who climbed the pole said that he did not want to harm anyone or destroy property. He said that he was simply trying to make a statement about the University's policies.

The student was apprehended by campus guards and taken to the University Health Center for medical examination. He was later released without charges.

The University has announced that it will not take any disciplinary action against the student. However, the University has said that it will continue to investigate the incident and may take further action if necessary.

UPCOs officials set November Plenum to consider constitutional amendments

By JOHN RILEY

The University of Pennsylvania Constitutional Officers have scheduled a November Plenum to consider constitutional amendments. The Plenum will be held on campus and is open to the public.

The untouchables of the University are being held in response to a petition, with considerable more than the necessary 500 signatures, submitted for consideration by the Faculty.-

The Constitution Committee is set to meet at 9 a.m. on November 6 to consider the proposed amendments. The Constitution Committee is made up of representatives from the different University groups, including the Faculty, the Student Body, and the Administration.

The proposed amendments include changes to the structure of the University, including the creation of a new faculty position, the establishment of a new student organization, and the removal of certain restrictions on student activities.

The amendments will be voted on by the University community, and the results will be announced in a subsequent meeting.

Kite and Key delays of a new constitution

By JOHN RILEY

The Kite and Key Society's new constitution, which has been under fire in recent weeks, was approved by the Steering Committee of the Kite and Key on Monday. The new constitution was approved by a vote of 5-2, with the two dissenting votes coming from the Faculty.

The new constitution includes a number of changes to the current constitution, including the establishment of a new executive officer position, the creation of a new budgetary committee, and the removal of certain restrictions on student activities.

The new constitution will be presented to the University community for approval at the next meeting of the Kite and Key Society, which is scheduled for November 6.
Arab guerrillas raid southern Lebanon, Egyptians to meet with King Hussein

By United Press International

Arab guerrillas hôm raiding in southern Lebanon hurled hand grenades and machine gun fire at a Lebanese army convoy yesterday, military authorities in Beirut reported. Other anti-Israeli rebels also fired machine guns and rocket-propelled grenades at the vehicle near Tyre.

Officials of the Lebanese government said the rebels were probably Palestine Liberation Organization guerrillas fighting with the Egyptians. The attack killed at least three soldiers and seriously wounded two others, according to the authorities.

 Rebels from the Palestine Liberation Organization hurled hand grenades and machine gun fire at a Lebanese army convoy yesterday, military authorities in Beirut reported. Other anti-Israeli rebels also fired machine guns and rocket-propelled grenades at the vehicle near Tyre.

"We will act here immediately," said a guerrilla leader in the raid. The guerrillas said they were acting in support of the Egyptians who have been fighting the Israelis in the area.

end of student deferments sought by House Democrats

By United Press International

WASHINGTON--A band of Democratic Congressmen hope to achieve the first major step in their two-year battle to end the draft system in an effort to wipe out student deferments.

Advocates of wide-scale reform of the draft system will make their move Monday when President Nixon's re-election campaign calls for the constitutional amendment to be submitted to Congress for consideration.

The House wants an end to all deferments for college attendance, but the Senate wants an end to all deferments for college attendance, but the Senate wants an end to all deferments for college attendance.

Rep. Richard Ottinger, D-N.J., who spearheaded the House effort, said Monday that he was "very optimistic" that Congress would vote to submit the amendment for consideration.

The Senate Appropriations Committee yesterday approved a bill that would provide for the increased spending of $10 billion in the next fiscal year.

The bill was approved by a narrow margin, with the Democrats in the House and the Republicans in the Senate voting for the measure.

The bill provides for an increase of $10 billion in the next fiscal year, with the money to be used for military and domestic programs.

The House Appropriations Committee has already approved a bill that would provide for the increased spending of $10 billion in the next fiscal year.

The bill was approved by a narrow margin, with the Democrats in the House and the Republicans in the Senate voting for the measure.

The play's the thing

The usual far party movie-and-Electric Factory syndrome was pleasantly broken this weekend by Penn Players' presentation of three workshop productions. The performances made one fact evident: the demand for good theatre on this campus is quite high. Each production—from Wednesday night on—played to a standing-room only audience; on Saturday night alone, the ushers turned away nearly 500 persons, necessitating extending the run through Tuesday.

Again, we commend Penn Players for an excellent set of three productions.

Mr. Dean and Collegians: In my capacity as a junior I am sure to be a "dis-
sident" in this regard to urge you not to adopt it. It is not easy because its intentions are laudatory: to express our feelings about the crisis as being faced is a war our role of which cannot be unsupp-
ported.

Along with many of you, I have op-
posed our faculty's resolve to adopt a resolution. From the beginning I regard it as a reasonable desire of the faculty to adopt a position of neutrality and to express, as far as it desires, the intent of its members. I regard this resolution, however, as not enough. We must express our feelings and stand for our principles, and I find I must stand alone.

The idea that the College Faculty is a political group is a manifestation of the false assumptions as to the present purposes, however, descriptive these views may seem, cannot afford us the opportunity to participate in the debate on the issue at hand. Science and education functions of the University, as well as the preservation of the academic freedom which is the hallmark of the University, are primary considerations.

The other principle of my dissent is that the faculty as a faculty must take a position on the issue of the Vietnam War. It must be clear that the faculty is not only capable of expressing its views, but that it must do so. The decisions of the University, as well as the preservation of the academic freedom which is the hallmark of the University, are primary considerations.

I believe that in the present situation, the role of the faculty is to act as a political unit which they had no intention of joining when they accepted the responsibilities of their duties. To repeat, the faculty is not con-
cerned with the issue at hand; it is concerned with the preservation of the academic freedom which is the hallmark of the University.
Tigers prove no Penn offense, McCullough, MacBean - 42-0

By MARVIN DACH
(Special to The Daily Pennsylvania)

PRINCETON, N.J. — You can't play football without an offense. Penn tried it Saturday, and lost, 42-0. The reason? The Tigers' defense could have been worse if the quarterback had ever thrown a pass anywhere near the center. Instead, he could have been worse if the quarterback had ever thrown a pass anywhere near the center.

It could have been worse, because the offense could have been worse if the quarterback had ever thrown a pass anywhere near the center. Instead, they could have been worse if the quarterback had ever thrown a pass anywhere near the center.

The Tigers' defense, which was consistently on the field for the entire game, allowed the Quakers' offense to score zero points. By halftime, the Quakers had managed to get a first down, and on the ground and had a total of four first downs, all in the second half. In fact, Penn's offense was so ineffective that the defense was able to focus on other aspects of the game.

The Tigers' defense was bolstered by the performance of their star defensive players, including MacBean and McCullough. MacBean, in particular, was a force on the field, consistently disrupting the Quakers' offensive plays. His performance was key to the Tigers' victory, enabling them to maintain a strong defense throughout the game.

In conclusion, the Tigers' defense proved that Penn's offense was no match for their superior performance. The defense's dominance allowed the team to secure a decisive victory, proving that even the best offenses can be held in check by a well-organized and aggressive defense.
