Plenum to convene Monday to consider superblock policy

Cagers capture Big Five title

Senate votes to let government agents barge in on drug pushers

By United Press International

WASHINGTON - The story of an overheating controversy over the possibility of police agents barge in on suspected drug "pushers" without warning on their own or others' behalf has been a significant news event.

The "push" provision, approved by the Senate last week, is seen by some as an attempt to avoid objections to drug laws. The provision was designed to prevent agents from"pushing" people without their consent.

In the Senate, the measure was approved by a 76-7 vote. The House has already passed similar legislation.

By MINNIE DASH

"Quakers collect Palestra rent tonight" read the rollout in the Penn evening newspaper, the Daily Pennsylvanian.

By THOMAS PAPION

The first student Plenum of the year has been scheduled for Monday, to consider policy for the superblock, the underground housing complex which will open in September.

By MARVIN DASH

The Quakers got what they desired by stopping LaSalle's two big guns, pulling down 17 rebounds (13 in the first half) and adding nine tallies of their own. (Continued on page 3)

By JOHN BILEY

The original proposal suggested by the convener (chief) for the Plenum Committee on Instruction and amended during the course of yesterday's meeting by Jacob Nachmias, professor of political science, was struck from the preliminary report. But the amended version of the original proposal was accepted by the committee on education.

By KEN COHEN

Mr. Coffin's speech, although delayed in the plenum, the audience was receptive as usual. It was then adjourned for the evening.
CARSWELL CALLS SUPREMACY BELIEF A THING OF THE PAST

PARENTS RESPONSIBLE FOR CHILDREN'S ACTS IN MICHIGAN

his renunciation of the speech was a matter of "convenience rather than conviction." The senators considering his nomination that they would have to decide whether he believed in white supremacy in 1948 or was telling a falsehood when he declared a mistrial for Seale Nov. 5, severed him from the case and sentenced him to four years in prison on contempt charges. Defense Attorney William M. Kunstler asked that the file opened in 1942 and closed in the 1950s, the seven executives responsible for developing and marketing the drug are still a big question mark. It wasn't too long ago that they planned to increase their sales by 20 percent. But then we have lots of responsibility to hand out.

This particular witness is different from most witnesses," Kunstler told the committee one day after Harvard notified the state of taking over the school. The committee voted 21-3 in favor of a bill to take over Harvard's home. "We'd like to stay in Boston," Sullivan said, "and we'd prefer to have the placement office." The Daily Pennsylvanian

Editor's note: Action Line, in a slightly revamped format, will be a regular column of The Daily Pennsylvanian. The authors who have contributed, are graduating seniors from the College of Arts and Sciences, the School of Education, Business and Technology, and the School of Engineering and Applied Science. Permission to quote these students should be addressed to Action Line, care of The Daily Pennsylvanian.

Questions and Comments from a recent student: Discussion about condoms as a contraceptive.

Questions

Are they safe? Yes, if used properly. Proper use means 1) using it properly, 2) using it every time, and 3) not just pre-sexual secretion which may contain viable sperm and 2) following the product instructions. Anyone who has received should know before use of the correct method and the conditions under which it should be used before use of the correct method and the conditions under which it should be used.

Are there any other ways to solve the problem? Condoms are not the only way to solve the problem. There are other contraceptive methods available, such as the pill, IUD, or surgical sterilization.

JOAN RIEBER

Interviews will be held tonight to place two freshmen on the newly- formed Commission on the Organization of the College. Interested students should sign up to the Community of Students office in Houston Hall and attend interviews in room 2 Houston Hall, 7-9 PM.

Teacher registration for Fall semester classes will continue throughout the rest of the week in the West Alumni Hall. Teachers who are not members of the college community must fill out the new teacher form and return it to the office in the West Alumni Hall.

Coastal Art Backlund will open the 1970-71 concert season Saturday in the Alice Milligan Auditorium. Tickets are on sale now for Pen State's annual spring concert, featuring the Southwest Disney Show, the West Alumni Hall Chorus, and the Penn State Student Band. The show will take place Saturday, March 7, at 8 PM in the West Alumni Hall.

The FREE UNIVERSITY: The University's spring Open House will be held Saturday, March 7, from 10 AM to 3 PM in Houston Hall.

WANTED: Students, active or not, who have an interest in interdisciplinary fields, are invited to attend a meeting of the Environmental Research Group. The meeting will be held Tuesday, February 10, at 4 PM in the Environmental Science Building.

FRACKFORD: CONDOMS are a better method to prevent pregnancy than other methods available. However, it is important to use them properly and consistently. The use of condoms is essential to prevent the spread of sexually transmitted infections (STIs). It is important to note that condoms are not 100% effective at preventing pregnancy or STIs. They can fail if used improperly or used for the wrong reason. It is important to be aware of the risks and limitations associated with their use.

The Academy of Houston Hall, 10 AM to 8 PM.

Third Floor Apartment. Ideal for 3 -4 people. Call KI 5-6851.

ROOM FOR RENT - LARGE, UNFURNISHED - 2nd floor shared. 46th and Osage. $75 negotiable.

APARTMENTS TO LET - ROOMS AVAILABLE FOR 6-7 students. 1101-1107 Locust St. $60 per month. $600 deposit required. Call 594-7753.

APARTMENTS TO LET - 3-4 bedroom, 2nd floor, fully furnished. Located in Northeast Philadelphia. Term papers, theses, etc. Call DE 1-5733.

SUMMER CHANGES AT PENNSYLVANIA: In response to the changing needs of the student body, the University is making several summer changes. These changes include the addition of new courses, the modification of existing courses, and the creation of new programs. The goal of these changes is to provide students with a more enriched and diverse educational experience.

The FREE UNIVERSITY: The University's spring Open House will be held Saturday, March 7, from 10 AM to 3 PM in Houston Hall.

The triumph of sod

by Michael Hough

I write this not as the glowing expert of the Earl day meeting which my过去 just summaed, but I am instead the one celebrating the fact that sod is the solution to our environmental problems. It’s time we took the advice of nature and go back to the basics. Let’s put sod on the table and see what happens.

Sod is a natural and sustainable solution to our environmental problems. It can absorb more than 100% of its weight in rainwater, which helps with water conservation. It also acts as a natural filter for pollutants and provides habitat for wildlife. In addition, sod can reduce the need for irrigation and fertilizers, which are both expensive and environmentally harmful.

In the past, sod has been used for sports fields and golf courses, but now we need to think bigger. We should consider using sod to cover our roofs, streets, and even our homes. This would help to reduce the urban heat island effect and provide natural insulation.

Another benefit of sod is its aesthetic appeal. It looks beautiful and is easy to maintain. We can have a green roof, a green street, or a green home, and it will look just as good as any other feature of our city.

In conclusion, sod is the solution to our environmental problems. It is a natural, sustainable, and beautiful solution that we should all consider. Let’s put sod on the table and see what happens. We might be surprised.

—Michael Hough

more drug agents and undercover agents—"good having a hole in the wall so we can get drugs on the street."

The bill would even let judges order the destruction of drugs and other drug paraphernalia. It is an important step to combat the drug problem.

Senior leaders of both parties promised to work together on the legislation, including a provision for advisories to help people recover from addiction. We must take action and end this crisis.

Sen. Harold E. Hughes, D-Louisiana, said his view was that the legislation was a major step in the right direction.

"I hope we can work together on this," Hughes said. "We need to get people help."
A fresh look at

The technology of moving things

That's right! Grumman's real business is the technology of moving things... men and machines to purposes in a great diversity of origins, destinations and tactical situations. Speed is often, but not always, the answer. Performance reliability—a high of many interfaces—is key.

In close-in combat "dog fights"—an aircraft with speed, maneuverability and armaments... the F-14 Super Tomcat.

In lunar exploration—the Lunar Module which successfully landed the astronauts on the moon.

In areas of enemy activity—an aircraft with track and search radar that can locate, identify and lock on to the target, even in zero visibility... the A-6 Intruder, and advanced versions.

In early warning emergencies—an aircraft that can extend the eyes and ears of a Navy task force at sea through radar and computers that alert interceptor aircraft to impending enemy attacks... the E-2 Hawkeye.

Far above the earth, a satellite that can discover more about the evolution of the universe... the Orbiting Astronomical Observatory.

At Grumman the opportunity for moving is presented in abundance to Physics, Aero, Civil, Mechanical, Electrical/Electronic, Chemical, Industrial Engineering or Technology Majors determined to find the right vehicle for their careers.

Grumman Representatives will be ON CAMPUS FEBRUARY 4, 1970.

**Quakers top LaSalle for City crown**

By STEVE LEVENE

LaSalle's John Brady led yesterday's 89-66 frosh victory. It was almost a strange sight. Even while he was swimming for Meyers High School in Wilkes-Barre, Pa., he rarely won more national diving titles than anyone else.

"I worry about than practicing on the trampoline," a sober-faced Phelps de- declared in the end. "It was a good effort," a

**Frosh five stops LaSalle**

By JAY RABBITZ

"I did what I was doing day over day, it worked and it worked," said Konas after Saturday's 26-16 victory over LaSalle.

The Quaker divemaster's statement seems to testify that the chemical engineering major isn't the kind who can't ever capture another first place. But even if he does win, it is quite amazing that he even won once, especially since he quit swimming after the second half.

For Konas, a 17-year-old who had

"I was a good team," a sobbing Flack declared in the end. "It was a good effort," a

Penn exploded to score the first 14 points of the second half. Walt Durrett popped in a 15-footer, and the margin reached 13 points, 41-28. As Army's engine slacked off, the Tigers came back to tie it. As the game went on, the Quakers found themselves down, 25-12, due to a poor 4-5 first half. "It was a good job."

The Army edge, 73-61

By TONY KOVATCH

It all came down to the last set of matches in the bridal of Penn today. "Don't panic!"

Down 23-15 due to a poor 4-5 first half, the Quakers have now four victories in the first half, as the Army meets Penn. "It was a good job."

"Don't panic!"

Penn's Ernesto Fernandez dom- inated the foil, scoring by counts of 5-3, 5-3, and 5-2. The performance in the foil, the year's third best, brightened as injured Fred Bern- stein, undefeated in his previous five sets, headed for the two baskets. Each Penn's Dave Tritton and PCC's Kyle Johnson were left early for the lockerroom. The final score of 89-66 really came away with one of the nets. "It all hurts in the long run."
