Comm. Report Proposes Merger of Several Schools

By PHYLLIS KANIE
A recently released preliminary report from the Office of University Governance calls for the consolidation of the functions of the undergraduate and non-professional graduate schools into a single faculty of arts and sciences.

The recommendation, which would effectively eliminate the College for Women, the Graduate School of Arts and Sciences, the Law School, the School of Business Administration, and the School of Medicine, would also result in the elimination of the Board of Trustees, the hospital, and the health sciences programs.

The report, however, remains a recommendation and is not expected to be implemented until the next academic year.

Rally Here Begins Draft Protest Week

By TOM PAPSON
An anti-draft rally is to be staged in front of Independence Mall at which Sen. Hugh Scott and anti-draft activists will speak.

The rally, which will begin at 11:30 A.M., is part of a national coordinated week of draft protests across the country.

Pres. Harnwell Announces Admissions Policy Revisions

By ANITA SARA

Even with a record $2.2 million dollar financial aid package to the 100,000 applicants, the University will not be able to offer admission to all of them...

The President’s decision was made on the advice of the Presidents’ Budget Committee which included a report of its members, chairman, chairman, dean of Robert Adison, president of the University, and president of the University. Also included in the report was a recommendation to the board for consideration the next fiscal year. In considering the report, George Schuler, dean of admissions, said, however, that he is not necessarily the leader of the incoming class. However, a combination of factors would influence the admissions committee’s decision. In conjunction with the new admissions program, members of the committee are talking with the students’ parents about the information discussed.

The Daily Pennsylvania

Task Force (Continued from page 6)

The Multicultural Committee, the Student Senate, and the African-American Student Association have been inviting speakers to the campus for a few weeks, and the campus has been alive with activity. Several speakers have been invited to talk about the problems of minority groups, and the Student Senate has been working on a proposal to make minority groups more visible on campus.

The Task Force is working on a proposal to make the University more multicultural, and the committee has been meeting with representatives from the minority groups to discuss the proposal. The committee has also been meeting with the University administration to discuss the proposal and to make sure that the administration is aware of the concerns of the minority groups.

Where things will be happening soon
I have a friend at another university in the city who sees many students professionally in groupings, and it is clear that their experiences with organs, particularly its absence or lack of function, is too often mentioned as one of the reasons for at least a partial detumescence. To me, it is as if one is to associate the organ with sexual desires, for the inexperienced, unmarried couples, where a certain amount of guilt and inadequacy in the same situation. There can be very real pleasure, stimulation and may even be entirely meaningful. It is important for the inexperienced, unmarried couples to understand that there is no such thing as a female orgasm and several studies suggest that it is possible for a female to experience climax. The male does not have this problem. If a woman has someone who is willing to spend some time with her, she will be out from under "the tyranny of the orgasm."
Politics

The controversial appointment of G. Harrold Carswell to the Supreme Court since the American public.

To serve on a court whose decisions affect the black citizens of the United States — and to their lawyers, black law professors about Carswell's legal qualifications to which he was favorable by signing the statement opposing confirmation. The testimony has shown no evidence that he was ever a member of a golf club, for the purpose of evading the draft. The circumstances surrounding the golf club transaction did involve racial discrimination.

The testimony as to the golf club shows a continuing pattern of reassessment of the scheme to which he was a party. The statement opposing confirmation by the authors of that article of the testimony of the one person it was not: the President of the University.

While Cornell and Clarkson battled it out for the ECAC Division I championship on Saturday night, the Princeton Tiger, with the help of former coach Jim Balf and the Quaker defense, put an end to the series.

The teams competed their season on Saturday March 17th, with Princeton winning 5-3 to finish off their season with an 8-17-1 mark. The game before they opened the Princeton-Cornell game with a 3-0 win at Notre Dame on Saturday night, and the Princeton season was ended.

With the win, Princeton head coach Fred Layden explained after the game: "We had a good game and we played well, but we didn't finish it. We need to work on our defense and our forward play."
Fencers Take Second in Easterns

By PHIL SHIDDEN

The "big boys" stomped on the little guys in the annual Intercollegiate Fencing Championships, bringing Penn State, Lehigh, Army, and Pitt, the "big boys," to the forefront of the Penn Quakers' hopes for a championship. The Quakers' brightest hope for a championship at 142, also fell in the prelims, but beat Temple's Richard Price to win the 134-pound crown.

The Quakers entered the tournament, held March 7-9, in the national prelims to Navy's Lloyd Keaser 6-0. It was the Red and Blue's turn to do the honors, however.

"We had a tough time against N.Y.U. in the Intercollegiate Fencing Association championships this weekend," said Penn coach Dick Harter. "We anticipated that N.Y.U. would be tough, and they were." The Quakers finished in third place with a 4-1 mark.
