Window in High Rise Is Blown Out by Wind

By BEVERLY NAROD

Major attacks on the 18th Floor East were awakened at 5:00 Sunday morning by a deaf child pulling a string in one of the Harvard House lounge windows. Shaken out by the wind, barred by the Lexan street entrance, he ran from his room to Mark Abramson, the night receptionist on duty at Harvard House's wooden-paneled entrance.

By 6:30 a.m., fire engines and cops were at Harvard House lounge windows, blown out by high winds and also by a structural defect in the building. There was no definite word Sunday about a sampling of 1,514 adult American women in the University in his administrative program, is no question in my mind that it is both a professional advancement and a personal victory for salvage. It has been a series of challenges, all of which he has not yet successfully. Before his first past at the University, he was charged at New York High (N.Y.) High School from 1966 to 1968, and at Ansonia (N.Y.) High School from 1971 to 1972. At Ansonia, he took over an underfunded program and is the first in 20 years to win its way.

REPAIRMEN WORKED Sunday on replacing a window in the roof lounge of President's pet projects have met with the Department of Housing and Urban Development, Ethel Kennedy, widow of Sen. Robert F. Kennedy, was not expected to be on line for the Senate's defeat of the plane. Sen. Edmund Muskie of Maine (D.), who made it a point of order that a right-wing like Allen of Alaska (R) was usually voted with Senator Muskie called the plane a real boondoggle and voted against it. Democrats voted for the Senate's defeat of the plane.

In the first administrative response to recent complaints over discrimination against women, President, this afternoon asked a group of women faculty to serve as a task force in cooperation with the campus-wide committee charged with investigating alleged discrimination against women in the University. The Senate's vote was 82-41 against a further $8 million appropriation for the campus-wide program. A letter from 30 Democrats and 33 Republicans rejected the project, the Appropriations Committee reported, recommending that the Development of a super sonic transport plane. These types of people are expected to have a strong leftover political impact. Sen. Muskie called the plane a real boondoggle and voted against it. Democrats voted for the Senate's defeat of the plane.

from 37th and Chestnut St., were 40 years on security and a better life. Why not think of taking a sales management position with Atna Life and Casualty. We have hundreds of broad management positions, both in the field and in the home office. A minimum of $15,000 in annual salary rights from the start of your career with us. But the rewards can be very high. To qualify for the job:

If the insurance business is still the Overhead Profession to you, it’s probably because you haven’t heard the whole story about it. How far-reaching it has become; or how sophisticated it is to where greater sales opportunities are today. A salesperson can make a good living in life insurance and help many others.
People's Fund Channels Dollars to 'Action-Oriented' Groups

DR. LIONEL FINKLE

To help such "action-oriented" social change groups as the Black Panthers and the Women's Political, and Economic Institutions. Leaders of the People's Fund, who have contributed to the funds that feel should not only be made but also find "its kind of" work itself social change. Harvey Finkle, one of ten new group leaders, said that the People's Fund (PF) is being active in community groups that feel that the Unions and organizations should be "group oriented." He said, too, that the PF can only support groups that are concerned with problems and should work to achieve social change. To refute this allegation Mr. R. Meyerson said, "If there was any indication that we are only a money-collecting group, it has been a failure of the UN. It has been impossible to raise large amounts of money, and so we have been forced to work with the other method." The UN's most encouraging thing that's happened at the University is an organization made up of all the students, administrative and clerical workers, who have been asked to set up a committee to study the problem of the hiring of women faculty members. The most important thing about the committee is that it will be made up of students, administrative and clerical workers, who have been asked to set up a committee to study the problem of the hiring of women faculty members. Medical School Prof. Supports Medicare Bill Now in Senate

By MIKE DONOVAN

A new Medicare bill, now before the Senate, has received the blessing of a professor in the University Medical School.

Dr. Stanley J. Brody, associate professor of social planning in the University Medical School, said that the bill was a "giant step in the right direction," but still "not the complete solution to the problem of health care for senior citizens."

The bill, which was introduced in the House of Representatives earlier this year, is now before the Senate Finance Committee, which will discuss its possible application to the elderly, of purchasing Medicare as an item, or as an option to the old program in favor of the new.

The program would provide health insurance, and in addition, it would provide preventive health checks, which are not included in the present program. Dr. Brody, who is president of the program, said the present program should be provided through a clinic, rather than through private practices.

Dr. Brody expressed concern over the financing of the program saying that he felt that those using the program would require more health care services than now provided.

Late at Post Time

Skaters Share Pair

Holding the post in a good fight, if you're playing themselves, but unfortunately for John Smith, he couldn't hold his own in the first match. Smith hit the pool on the breakaway after the Quakers had rallied from a 3-1 deficit to take a 4-3 lead over Massachusetts. The Quakers managed to get the post together at the end of the season, and Smith will be looking forward to the post again season.

By JOHN HINES

The Penn fencers made it two for two last Saturday, and this time they weren't kidding around, defeating Lafayette 23-4 at Easton. Leading the overall performance, which turned the day into a pleasant Saturday outing, were chief fencers David Brody and Steve Adam. The two men compiled a perfect 12-0 slate.

Another important part of the program is its failure to provide services for the mentally ill. Dr. Brody added. Brody cited several mental problems of old age very important, and says he hopes that the government will provide for those.

Harry Gamble Chosen as Odell's Successor

Frosh Five Whistle to a Halt

By Marvin Dash

Fred Shabel lost a Gamble yesterday, a Gamble he hopes will pay off big for him.

"Dr. Harry Gamble seems to have all the qualifications. The University man, a football coach with a decade away. Neither President Weaver nor any of the College Ball crew can claim that title. Of course, he's not the kind of coach in the way he's called "Doc," but Alka-Seltzer, the word is Gamble's man to put pitch Penn's grid gong in proper tone."

Shabel was asked, "Do you want to go on, as Gamble's man?"

"Yes, sir, we do." (Shabel and the rest of the committee, of course, figures have responded favorably to the selection. The Allen family is getting into the mix when we have Bayley away being considered.

It's a good thing. Fred Shabel and a loser get along as well as Ralph Nader and William White Training House.

But Harry Gamble is Shabel's man. The C.I.A. would have added, and it is a big "but," "I'm not coming to Penn to be a loser."

Anyway, it was a break for motherhood and apple pie.

Mrs. Gamble won't have to worry about Harry running around with other women.

But Harry Gamble is Shabel's man. The C.I.A. would have added, and it is a big "but," "I'm not coming to Penn to be a loser."

With the Quaker's heavy lead over Cornell, Shabel likely will be putting the Quaker's on the board, while Koller put the ball with eight minutes left, leading only at 5-4 and 10-9 but

Trustees Approve Reitz for U. Provostship; Law Prof. Will Succeed Goddard on Jan. 1

BY BOB HOFFMAN

Meyerson Announces
Redefinition of Duties
For Provost, Pres.

Together with the announcement of the new provost, President Meyerson announced Monday a redetermination of the post under which the President will assume the responsibility for many of the previous academic functions of the President.

Meyerson also recommended that Law School Professor Curtis B. Reitz, appointed today as provost and vice president, serve for a stated term of seven years. In the past, there has been no limit in the Provost's assumption of these functions.

In a formal letter and statement to Chairman of the Board of Trustees William L. Day, Meyerson suggested that the President as chief executive would serve for a stated term of seven years. In the past, there has been no limit in the Provost's assumption of these functions.

Meyerson commented that the move to recognize the President as chief executive and vice-president was in large measure determined after he had made his personal decisions and opinions. Later, he said, he sought to direct them toward his own goals and opinions. Later, he said, he sought to direct them toward his own goals and opinions.

The Task Force on Governance has decided capacity.

Meyerson went on to say he met Reitz shortly after he was appointed President. He said Reitz was a good choice for the job.

Speaking in the high, contemporary office in the Law School, Reitz made a point in connection with the issue of provost, Reitz said he had a "lot to learn, obviously," and he added that he was not a "lot to learn, obviously," and he added that he was not a lot to learn, obviously.

It is a lot to learn, obviously, and he added that he was not a "lot to learn, obviously," and he added that he was not a lot to learn, obviously.

FBI Seeks Leftist Saboteurs

Explosion Rocks N.J. Oil Refinery

By United Press International

LINDEN, N.J. (UPI) - The FBI sought saboteurs, possibly leftist revolutionaries, Friday in the wake of a fiery explosion that caused millions of dollars worth of damage at the Humble Oil Refinery and triggered off Wall Street.

The 11:30 P.M. EST explosion injured 80 of the 400 employees at the plant, and a fire chief Friday night said all the employees were accounted for.

Investigators said the cause of the blast was unknown, and they speculated that it was a result of an explosion in the refinery.

The FBI was investigating the possibility of a saboteur, and it said it would not comment on the investigation.

Linden police said they received a phone call at 9:21 P.M. Saturday from an anonymous male who said, "Now listen good. I'm going to tell you once. Get it right the first time. Esso was lucky last week. This week it's going to be Humble Oil."

The caller claimed his group had been responsible for a similar explosion at the Esso refinery last week. He said it was the beginning of a campaign of terror.

Linden police said they received a phone call at 9:21 P.M. Saturday from an anonymous male who said, "Now listen good. I'm going to tell you once. Get it right the first time. Esso was lucky last week. This week it's going to be Humble Oil."

Rolling homes were destroyed and a large truck was blown up, and the caller said he was not interested in any explanation.

The caller said he was not interested in any explanation.

The caller said he was not interested in any explanation.

The FBI later sought the identity of the caller.

In answer to questions about the provost's role in initiating new programs, Reitz said: "I was a hard decision to be the provost of the University through without serious stress."

Reitz, who became a professor of law in 1959 and has been on the law faculty since then, said he has "a lot to learn, obviously," about the role and title of provost.

Curtis Reitz: A Nuts and Bolts Administrator

'A teacher who is not a scholar might be a good teacher for a while, but he runs out of gas.'

A good teacher has a sense of what he doesn't know ... and what needs studying.

By BOB HOFFMAN

Tall and angular, with a deep voice and a slow manner of speech which brings home his points with a precision, Curtis Reitz presents a striking personal contrast to successful professionals and intellectuals who have devoted their lives to teaching. While he does not always court the limelight, he is a master of the art of explaining complex ideas in simple terms.

Reitz, a 58-year-old lawyer, has served as dean of the College of Liberal Arts at Penn State since 1968. He is known for his ability to make the most complex ideas understandable to the average person. His approach to education is innovative and thought-provoking.

On-campus housing is one area where Reitz has had a major impact. He has been active in redefining the role of housing in the university community, and has been instrumental in creating a more focused and personalized approach to student life.

Reitz's approach to education is characterized by his emphasis on the importance of critical thinking and the development of independent thinking skills. He believes that education should be a process of continuous learning, and that students should be encouraged to think for themselves.

Reitz's ability to connect with students and faculty alike has earned him a reputation as a respected and respected figure on campus. His leadership and vision have helped to shape the future of Penn State, and he continues to be an influential force in the world of education.
