Committee Moves to Abolish College 'F'

By MARK MCKINLEY

A unanimous vote of the College Committee on Instruction approved a recommendation to delete all grades of the letter 'F' from the system of the college's grading system.

In a related vote, the committee also approved proposals to change the format of the College's new grading system, and to adopt a permanent form of the committee's recommendation.

It is not clear if the College faculty would accept the proposals. However, the committee said it would work to ensure that the proposals are accepted.

The All-male 'Bottles of Beer on the Wall'

By PHYLLIS KANS

The English Department, with its record of women as senior faculty members, has been the target of much criticism.

When tensions flare over situations that have been widely acknowledged, much of the weight lies upon women who fall for the peculiarly invidious position of being asked to look around and ask, "If everyone else does it, how come I'm not doing it?"

In the wake of the University's treatment of the recent controversy over the symbol of slain in this manmade world, the department is the ground zero of the issue.

Sir: With regard to the current events in West Philadelphia, I am writing to express my deep disappointment with the student body of the University of Pennsylvania. After attending this fine school for a number of years, I am convinced that the student body is being used as a tool by the University to achieve its own ends.

The student body is being used to counteract the image of the University as a parochial institution. This is evident in the diluting of the student body with athletes and other extracurricular activities. It is also evident in the dilution of the educational program with sports and other extracurricular activities.

The student body is being used to achieve the goal of the University, which is to maintain its contacts with the community. The University is not interested in the education of the student body. It is interested in the use of the student body as a tool to achieve its own ends.

CO-OP CONFLICT
Sir: Co-op, community, sharing, food, love and loyalty. The Co-op was a beautiful idea. A common, simple, spooky store, a place where we could all buy what we needed. It was a place where students could be free to be themselves. It was a place where students could be each other's friends.

But most importantly, it is very important that Mr. Teas, and not those whom we choose, be considered the real menace. The real menace lies in the fact that a group of students can take no action to prevent the Co-op's closure. It can and only be a source of shame for those persons who have taken no action to prevent the University's entrance on the altar of the student body. It is our duty to prevent this from happening, to protect the Co-op from those who would destroy it.

MADISON, Wis. — A Federal
Grand Jury Thursday indicted three
Army enlisted men on charges of
possession of unregistered destructive
device.

The indictments were believed to
be the first in which soldiers have
been charged in connection with
recent bombings. They did not act

Barrett E. Zepka, 21, Torrance
County, Calif.

The Federal Bureau of
Investigation in Milwaukee said the
three men were arrested Thursday in
California. The charges are:

\[1\] Unlawfully possessed a destructive
device, in violation of the law enforced
by the Bureau of Alcohol, Tobacco,
and Firearms, with intent to use the
devise in an explosive manner.

\[2\] Possessed and used a destructive
device, in violation of the law enforced
by the Bureau of Alcohol, Tobacco,

Committee Votes Against 'F' and Proposes 'P' for Incidents. First he remarked "There is no reason for penalizing someone for attempting to go a course. Since a transcript is a record of what a student has accomplished, and if it created trouble, the grade of 'F' shouldn't be on your permanent record."

Secondly the removal of 'F' from a student's record would eliminate the psychological fear of failure, he added. Also the committee proposed to drop "pass" from the records since the grade "pass" helps to IP and doesn't have this fear.

Communication Committee

Clarke remarked that he plans to call a meeting of the newly-appointed students within the next week, in order to indicate the "range of expectations." He intimated the possibility that coordinators might provide the impetus to abolish permanent incompletes from a student's record, he commented. News commented that his committee has also approved new philosophy courses on the grounds that they would taught by current members of the department and would strengthen it overall.

Chasidic Jews Visit

Journalists and students from the United States and Canada have been flocking to the Hasidic neighborhoods of New York City to observe Jewish life and culture. This week, a group of journalists, including the author of this article, visited the Chasidic neighborhood of Williamsburg, Brooklyn, to learn more about Hasidic life and customs.

The visit was arranged by the Chassidic community, who welcomed the journalists with open arms. The journalists were able to see firsthand the unique lifestyle of the Chasidim, including their clothing, customs, and daily routines.

The journalists were struck by the sense of community and shared purpose among the Chasidim. They observed how the Chasidim live in close-knit communities, sharing meals and engaging in group activities. The journalists were also impressed by the Chasidim's dedication to their faith and their commitment to maintaining their traditional way of life.

The visit was not without its challenges, however. The Chasidim were not always receptive to the journalists' questions, and some of the reporters were concerned about the potential for misrepresentation or misunderstanding.

Nevertheless, the journalists were able to learn a great deal from their visit to the Chasidic neighborhood. They gained a deeper understanding of the challenges and opportunities facing the Chasidic community, and they left with a newfound appreciation for the complexity and richness of Jewish life.

Anttiwar

Anttiwar, a Finnish antiwar activist, is on trial in Helsinki for his role in the antiwar movement. The trial has been closely followed by the Finnish media and the international community.

Anttiwar is a well-known figure in the Finnish antiwar movement, and his trial has sparked discussions about the role of the media in covering political trials.

The trial has also raised questions about the fairness of the Finnish legal system. Anttiwar's defense attorneys have argued that the trial is politically motivated and that Anttiwar should be released on bail.

Brown-Yale CagerTrip Draws Yawns

Providence, R.I.—This year the mere mention of a trip to New York to play Brown (Nov. 21) and Yale (Nov. 25) in basketball may be greeted with a straight face, serious look and a quick eye to what is on the other side of the table. Browneyer Howard L. Frank has his fourth-ranked Brown team ready to meet this weekend a Providence-Nov. 19, Beekman St. area. They have a SHOPPERS SPECIAL: four newspaper copies at 50c.

The 13th game of the Yale-Brown series will be played Saturday night at the Palestra. The Elis, 4-0 this fall, own a six-game unbeaten streak against the Quakers.

Mermen Hope to Burst Eli Bubble

Brown has finally begun to crack. The 22-year-old Yalies, who have scored 1,180 points in 24 games, have also scored 3,121 points in the last six games. This week's defeat by the Red and Blue squad, which included a 28-29 loss to the Quakers, is the first time that Brown has been defeated in two straight games. The Tigers have only won one of their last six games.

The Elis are strong in the middle, with 6-8 Pete Samson leading the way. The 6-9 Samson has scored 36 points in his last two games, and his brother, Pete, is a sophomore who has averaged 10.5 points per game.

Although the Elis have been in error in recent weeks, they have shown that they can compete with the best teams in the Ivy League. They have scored 220 points in their last three games, and have been outscored by only 10 points.

So who would even think Penn can win? The Quakers have scored 29 points in their last two games, and have scored 28 points in three straight games. However, they have scored 32 points in their last two games.

The Elis have scored 32 points in their last two games, and have scored 30 points in three straight games. However, they have scored 31 points in their last two games.
