Cohen Claims:
He's Only One
To Beat Rizzo
By BEN RIZZO
Forrest County's principal and county superintendent of schools, David Cohen, expressed little surprise Friday night that only about 30 persons came to hear him speak.
In his remarks to the crowd of 100, Cohen urged the education commissioner to review the school's former superintendent, claiming he is the "only candidate that will stick if elect" with Frank Rizzo and build this huge school district.
Cohen admitted that at present his biggest challenge is to find persons still not to commit his name with his recent in City Council. However, he claimed that by the May 15 primary, he will "possibly be the best known of the candidates." 

Major Events
Executive Committee of the College, which initiated innovative modes of living by expanding the traditional learning environment.

Wideman Asked to Research Athletics
By DIRK SMITH
Responding to recent signs of discontent over the University's athletic program, President David R. Meyerson Friday charged the English department's Dr. John Wideman with initiating an internal investigation into League athletic expenditures.
Meyerson asked Wideman a former basketball coach to organize a "highly respected" board to look into ways to improve the League's athletic participation and the administration and educational standards in which it is situated.

Wideman was a former basketball coach at the University and was involved with the administration and educational standards in which it is situated.

By ANITA SAMA
Twelve University and graduate students have been selected to receive the Thouron scholarships for graduate study in England this year.
The scholarship program, established 10 years ago, covers tuition, fees, and travel. The scholarships are awarded to students who have indicated a strong commitment to the study of Great Britain and British studies.

Senior Fined for Painting Town Red
By SCOTT GIBSON
A University student, found guilty of defacing city hall and defacing public property, was fined $50 in Philadelphia Municipal Court.

Firemen put out a small fire in a bathroom floor in Ritter House Monday night. An overturned home-made candle, which had been left for the night, was taken to the Inspector in the area of the same school.

Lao: A Tragic Miscalculation

by marc bedner

Out Now: How?

The recent decision of Laos to be the necessary condition of ?NI's request for military aid is another indication that those who oppose the war must not relax their efforts.

The People's Power Treaty has not been drawn up as one way to express antiwar sentiment. It is clear, however, that only a treaty will end the war. Support of the People's Power Treaty will not end the war. Support of the People's Power Treaty will not end the war. Support of the People's Power Treaty will not end the war. Support of the People's Power Treaty will not end the war. Support of the People's Power Treaty will not end the war.

Many members of Congress have attempted to press the administration with bills attacking Nixon's war policy. Supporters of the People's Power Treaty must insist that Congress consider them in their own interests, which can enhance the killing and destruction in Indochina. All aspects of the war machine must be actively opposed. The movement must continue to increase the number of informed people, and to build backing among regular groups.

The movement must continue to demonstrate that the war is destroying our country. The April 30 demonstrations, coordinated with students from the North, will be a powerful demonstration that the American people are ready for action. But if the movement is to be effective, it must not be hamstrung by the same frustration that has discouraged the students of Paris and London. The present situation in Indochina is like the situation of a few years ago. Now is the time to say, 'No more.'
