**Technology Conference Opens Thrus.**

By MARK NOVETZ

It is an attempt to explore the implications of an increasingly mechanized society, a National Conference on Technology and Social Change, featuring world renowned scientists and technologists, will open its doors today.

The conference, which is being sponsored by the International Affairs Association (IAA), will commence Thursday and will include such speakers as Lewis Mumford, Robert Troth, and Sidney L. Lipton.

According to an IAA official, the purpose of the conference is "to aid the rendition of technologists and scientists to explain the effects of their work on society." It will inaugurate a series of seminars that will "begin the task of explaining to the layman the things that are happening to him," and what attempts to harness them may have been made.

This conference is in the nature of modern technology and its complex relationship to the social order. Speakers and visitors will include representatives from the educational, industrial, and governmental sectors.

**U. Printing Office Plagued by Management-Labor Job Dispute**

By LINDA STEINFR

The University's printing office, whose work in the past 15 years has been recognized by a "tremendous cultural revolution" in the field of printing, is now facing complex problems due to the recent lay-offs of several employees.

The lay-offs of employees have been a source of great concern to the University's management and labor representatives.

**HEW Scrutinizes U. Employment Practices**

By PHYLLIS KANIS

Present rates have officially been labeled "a scandal," and department chairmen to grant appointments or promotions without "discrimination and nepotism." The principle of the present employment practices is that they are not to be used for personal benefit or influence.

**Blue Cross Identification Cards Will Not Be Issued to Student Subscribers**

By ROSS GIBSON

A University hospital official announced Tuesday that students who currently hold patients with the Blue Cross-Blue Shield program will not be issued identification cards to their patients.

The official, who declined to give his name, stated that this policy is being implemented due to a shortage of identification cards. The official said that if a student were admitted to a hospital, his identity and insurance would be determined by Blue Cross-Blue Shield representatives.

"The identification card will be used by the hospital staff to verify that the patient is a subscriber and to ensure that the patient is being treated as an official subscriber," the official said.

"If I'm in some little hospital with a railroad problem and I need a card, I might be denied the treatment," the official said.

The official said that the identification cards may not be issued to students unless they are present with a doctor or have a valid identification card.

"This is a very important policy," the official said.

The official added that the policy is being implemented to ensure that the University's printing office is not burdened with the additional task of issuing identification cards to students.

"The University printing office is already facing a significant workload due to the recent lay-offs of several employees," the official said.

Broken Promises

The University of Pennsylvania and its president, Martin Meyerson, are to be commended. Concerned for the subtle skills and unaccustomed gratitude with which they have gained national press attention, we are pleased. We would recommend that the Fayette County, Pennsylvania, court of common pleas, which has recently ruled that the edicts of the state's 101 judges are not subject to the Open Records Act, work out an affirmative action plan for ending the university's practice of discrimination.

The university's purpose is to educate, not to build; let us remove the dead weight of buildings and begin the education of the students in the studio of opportunity, the art of living.
Admissions

(Continued from page 1)
However, both alumni and admissions experts report that Dr. Thomas Wood, who recently made an appearance, was a much better predictor of academic success than anyone else. He further expressed the hope that the students would be a much better predictor of academic excellence.

The conference will include four main topics: (1) academic factors, (2) extracurricular factors, (3) social factors, and (4) economic factors. The conference will focus on determining the criteria of how students are selected.

The conference will be held at the University Center on April 12th at 9:00 AM. Free bus transportation will be available.

St. Vincent's Infirmary, 4200 N. Kirkwood Rd., St. Louis, Mo., 63121. For information or to arrange a visit, call 314-453-2233.

A typical case involved a young man who longed to be a priest but had no time and part-time campus assignments. He learned that his desire was possible, not ideal, but it was the best he could do.

For information, contact the Parish of St. Vincent, 4200 N. Kirkwood Rd., St. Louis, Mo., 63121. For information or to arrange a visit, call 314-453-2233.

Rieber Address

(Continued from page 1)
Rieber's address was drafted third, I'll be able to get a laugh. "I'm just glad that, since I'm a third round pick," he laughed. "I'm not drafting for Barry Goldwater during the campaign or protest."

Reiber was also a ninth round pick of the Carolina Cougars of the ABA, but he isn't about to get involved in any politics. "If I didn't think I could make it, I wouldn't try," the senior guard said. "I'll just wait until the 76ers take him. "We were not drafting for politics," he said. "We're drafting for basketball."

DeJardin denied that this was why the University's history department managed to escape from Russia.

Sallier Aims to Give Seddon No Gray Hairs, Only Singles

TONY KASTNER

In a time when the actions of coaches and managers have the potential to affect the outcome of both fans and press, the role of the mentor is crucial. The Quaker mentor has a significant role in helping coaches who struggle to cope with the capricious superstardom of Misty Welch.

Salter aims to give Seddon no gray hairs, only singles.
