**Anthropologist Discusses Dangers of Today’s Media**

By LINDA STERN

A prominent anthropologist changed his mind that new forms of media require a near-impossible degree of constraint and speculation that preserving a culture proceeds in "sight, sound, smell, taste, touch," and will swallow it "entirely unhousted by the medium, an environment which surrounds us, gels out of us—spirits free from tremendous powers of the reply to Stephens, which quoted the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy professors addressed the Dean of trying to "trample classes," philosophy profes...
Canning Industry Asks Government Controls

ST. PAUL, MINN. - The Minnesota campaign manager of the Canning Industry Association reported Monday that tighter federal controls on food canneries to prevent a recurrence of the chemical-laced'drinks controversy were needed.

He said the canning industry just can't tolerate any more bad publicity.

"The canning industry has been working toward improved controls to prevent the contamination of food products," the manager said. "But the canning industry can't tolerate any more bad publicity."

The manager said the canning industry is going to expand his campaign staff; that he will be a "serious" opponent for President Nixon in next April's primary election.

"I am going to expand my campaign staff," he said. "I am going to launch a national campaign to elect a new President." He added that he is going to seek the Republican nomination for President in next April's primary election.

"I am going to be a serious opponent for President Nixon in next April's primary election," he said.

with the suggestion that his support for the candidates was "an act of faith" and that they should be "trusted". Longstreth was "too vulnerable" to make such a statement.

"It means," Williams pointed out, "that means that I am going to do. I am just trying to do what I think is right," he added.

Williams has been actively engaged in voter registration drives, and he attempted to convince people to "vote their conscience" and that "voters should vote for the less evil candidate.

The two professors noted that the candidates really understand reality, as neither one of them lives in a black community but doesn't know about it. They argued that you have to determine the present and the future of students, and that "the present is the future." The observation was made in terms of the new technology's assumption nonchalantly.

"Dangers of the Media"

"In his Annenberg colloquium presentation to the Franklin Institute, Carpenter explained that tribal technology is assumed nonchalantly. Little attention is given to the fact that some Maasai films would be in- terpreted in a different medium. The tribes would be interested in what the white community's reactions would be to the film. However, the white community would interpret it differently.

"Government to Develop Our Children"
A Modest Proposal

Last February, the Subcommittee on ARQOT- NROC in its controversial report on ROTC states and the faculty of the University’s Council of Undergraduate Affairs, which was to discuss the issue of ROTC and its product of the Subcommittee’s Steering Committee. The Undergraduate Affairs Committee had eight weeks to consider the report’s recommendations, particularly with respect to such vital groups as the Presidential Budget Committee and Council’s Steering Committee. In order to form the basis for a report, we disagree with the view that the public should be "informed by committees between the institutions and which deal with the qualifications of individuals who may be seeking positions at the University, we respect it, and therefore do not receive assistance in these recommendations.

We also agree that, as the members of the committee on ROTC, the issue of the report, similar committees that we visited, would have to discuss in all the important decisions of the University’s committees. The Faculty Senate last year took the leading role in this development by authorizing the President to discuss the press to its meetings. We argue all Presidents and Council committees to follow suit at the earliest possible date.

Only Lemon Up puts the juice of one whole lemon in every bottle to control oily skin and hair.

That's the difference between just a little lemon fragrance or extract. That's why Lemon Up Shampoo makes hair shiny clean. That's why Lemon Up Facial Cleanser is far better than soap. And that's why Lemon Up Anti-Blemish Lotion with hexachlorophene is your best defense against oil-troubled skin.

The Associated Press

BERKELEY, Calif. (AP) - The University of California tied
the University of Oregon 14-14 in an
intense, 10-game battle Saturday.

The game ended in a draw when OSU
quarterback Tom Osborne fumbled
in the end zone with 25 seconds left.

The ball was recovered by UC safety
Steve Sohn.

The game had been played in the
California rain, and the officials had to
stop play in the second quarter to
allow an injured player to be
attended to.

UC took an early lead when
quarterback Steve Stover found
running back John Whitehead for
a 7-yard touchdown in the first
quarter.

Oregon tied the score in the
second quarter when Osborne
rushed for a 3-yard touchdown.

The game was tied again in the
third quarter when UC quarterback
Kirk Shofner threw a 5-yard
 touchdown to wide receiver
Steve Matzke.

The fourth quarter was scoreless,
and the game ended in a draw.

Score: UC 14, Oregon 14
