Students Meet to Plan For College Hall Sit-In

By JOSEPH DARDZIEL

Organizers and student leaders met in a College Hall room, students discussed and approved three demands for the protest meeting by a sit-in of the administration.

Demands for a rollback in tuition and rent prices have been the main focus of student demonstration of University budget policies, and the list of demands was prepared by the Undergraduate Assembly leaden.

Students were reminded that the protest would not be a criminal or illegal. Organizers said the demonstration would adhere to the University's open expression guidelines. These guidelines specify that employees shall not be prevented from expressing their opinions and that students shall not be prevented from protesting against attending classes. Robert Drukker, a member of the Undergraduate Assembly who has been coordinating protest efforts, said he expected about 100 students to participate in the sit-in tonight. He outlined some initial plans for the protest and laid out some decisions that would be made.

There appears to be some confusion among students involved in the sit-in effort regarding the nature of the demands which protest and what the circumstances under which the protest would be conducted.

On the other hand, the sit-in had been billed as an effort to gauge the reaction of the general community to the students' demands and to determine whether or not a sit-in would be feasible.

Also discussed at the meeting were legal procedures for demonstrating on campus and the possibility of legal repercussions if the sit-in were to proceed. Student leaders said they would not proceed with the sit-in until the administration had acknowledged the demand for negotiations on the three general demands, which would include those for rent increases.

The sit-in would then be advised to the administration if the process for negotiations, if the general community to the students' demands and whether or not a sit-in would be feasible.

Heart Seizure Strikes President During Senator’s Questioning

By United Press International

President Merriam collapsed because of heart problems, hospital officials said, and was taken to a hospital in serious condition.

The president, who had been questioned by the Senate Judiciary Committee, was taken to a hospital in stable condition late Sunday.

The seven anti-war activists, in a letter to the press, said: "The seven anti-war activists which we have been maintaining, show that the administration is taking the wrong steps in its anti-war policies.

The letter was addressed to the seven anti-war activists, which were maintaining a protest against the draft of the resolutions.

It also cites federal regulations, which require non-university students to present to the administration and the University..."

Tuition Increases

Sirs: The recent air of Spring is upon us once more, and so another tuition increase is on our door step. Inevitably, the face of the student is one of anger, frustration, and the desire for answers. The reason for this ingrown complaint is the obvious increase in tuition. The root of the problem lies in the basic nature of education, which is constantly changing. The education we received twenty years ago is not the education we receive today. Tuition increases are necessary in order to keep up with the times.

The University administration has come in for a lot of blame in recent years, but it is important to remember that the University is only a small part of the educational system. The entire system is in a state of flux, and the University must keep up with the changes in order to remain competitive. The University administration is only responding to a larger problem that affects all institutions of higher education.

The other side of the coin is that the educational process here should be improved. The increase in tuition is only a symptom of a larger problem. The educational system is in need of reform, and the University needs to be a part of that reform. The University administration should work with the students to find solutions.

Finally, we look at the demonstration as a test of support for the ideas of the protesting students. The University administration should be open to hearing the concerns of the students and work towards finding solutions that will benefit everyone.

News in Brief

By United Press International

HARTKE WITHDRAWS FROM RACE

MILWAUKEE – Sen. Vance Hartke of Indiana Sunday withdrew as a candidate for the Democratic presidential nomination and endorsed Sen. Hubert H. Humphrey (D-Minn.). Hartke had campaigned arduously in the nation's first primary in New Hampshire, but managed to get only 12 per cent of the vote. A week later, in Florida, he finished with less than one per cent of the vote.

SOLEDAD BROTHER JURY DEADLOCKED

SAN FRANCISCO – An all-white jury reported it was deadlocked Sunday in the murder trial of the two remaining "Soledad brothers" but the judge ordered the panel to return to deliberations. The three women and three men of the jury told Judge J. Lee Vavuris that they had deadlocked 10-2 in jury deliberations. The defendants, Fleeta Drumgo, are charged with beating Soledad prison guard John V. Mills and hurling him to his death in January 1970. The third man charged with the slaying, George Jackson, was killed in an escape attempt at San Quentin Prison in August 1971.

BRITAIN RENEWS MALTA LEASE

LONDON – Britain and Malta signed a new seven-year defense pact Sunday, five days before the British were to have completed military withdrawal from the strategic Mediterranean island. The agreement called for an annual rent of $38.4 million and specifically bars the island's use as a base by the Soviet Union or other Warsaw Pact countries.

JURY ACQUITS ALIOTO

VANCOUVER, Wash. – A Superior Court jury weighing a civil lawsuit against San Francisco Mayor Joseph Alioto and two others Sunday acquitted the defendants of illegally sharing $2.3 million in legal fees. The three defendants still have to face federal bribery-conspiracy charges based on the same events as those in the civil case.

MORE VIOLENCE IN N. IRELAND

BELFAST – Raiders machine-gunned a Roman Catholic social club with about 150 persons inside Sunday night shortly after the provisional wing of the Irish Republican Army reneged on its promise to observe a cease-fire in Northern Ireland. One man was wounded and nine were killed as twelve shots were fired from a speeding car.

BANGLADESH NATIONALIZES MILLS

DACCA – Bangladesh Prime Minister Sheikh Mujibur Rahman ordered the nationalization of hundreds of jute, sugar, and textile mills and at least 14 banks and 12 insurance companies Sunday in a sweeping revision of the new nation's economic policy. Foreign-owned banks and insurance companies were not affected. The national airline and most intercoastal shipping firms were also nationalized.

Law School Poll Favors Voice For Students In Faculty Votes

A referendum conducted at the University's Law School has revealed that 15 per cent of the student body there wish to give students the right to vote in faculty meetings. Larry Tiryak, a member of the Student Advisory Committee and faculty referen
dum chief, has announced the results of the vote after a meeting today, although the exact number of voting student representatives will not be discussed.

The issue was first raised by students last semester after a recommendation calling for an op-
tional fall-plug grading system was defeated in a faculty meeting.

The proposal's defeat marked widespread student protest last fall, after which the students' representative on the faculty was given to a committee for further study. The committee, composed of faculty and student representatives, recently reported that it could not reach a consensus. The three faculty members issued a statement which said no students should be allowed to vote in any faculty meetings.

The specific demands also include measures aimed at improving the quality of undergraduate education here. Under these demands students would require one half of the positions of personal consultants making and constituent appointments and an allocation of 1/4 of the personal personnel granting issues.

Department chairmen would also be required to publish pending promotion and tenure inquiries and an open meeting of the departmental majors would be held to ensure student input into the proceedings. The full-time faculty were asked in each case to be given at least three academic years and two graduate classes a year or evidence from referees to meet that commitment. Finally, among the proposed specific demands, the size of the incoming classes would be determined solely on the University’s ability to meet the students’ academic needs. The University would not be permitted to expand the class sizes solely on the need for additional revenue.

In an interview preceding the meeting Friday, faculty trustee Paul Mariani was quoted as stating the school would not be “very favorable,” but said the stress still existed to press for increased student participation and additional revenue.

The defense has said Douglas, who was the one who did most of the smuggling the letters in and out of the I-ewisburg, Pa. prison for Berrigan, encouraged people to bring them into active plans. The letters were little more than active plans.

Aside from a series of letters already presented, staff and student personnel records and business transactions in process. This measure would include public disclosure of the University budget.

Black Dorm
(Continued from page 3)

Art of 1964 miracles integrated education and housing, Collins, and those students are demanding that college administrations break the law. College administrators should know better than to give in to this blundering.

The fate of the proposal for an all-black residence on the University campus is currently under review with President Crotchett of Western State College, which has been given an open letter on the legality of the proposal by the University's law firm, but has clarified to release a final decision.

The proposal, submitted to the University by the black students, involved the creation of an all-black dormitory on the campus of Western State College. The black residence proposal has already been approved by the University's law firm.

The students’ voice was heard at a meeting on the University’s campus. The students, in this case, were the one who did the best job of all.

They consist that Douglas, while working as a government agent, took several vague ideas which had been circulated in student circles and encouraged people to bring them into active plans.

The letters were little more than “hustles,” which Douglas created in order to make Berrigan feel as if the peace movement was active while he was in prison. Because the changes are in executive and operating law as concerning the job by Judge Douglas the University community will not at least one full court day.

Penn Soars as Flying Dutchmen Get Shot Down by Solow, Sophs

By GLENN UNTERBERGER

Penn's hockey team came out of the Rooster bowl Saturday night with a 2-0 win over Rensselaer Polytechnic Institute in a heart-pounding battle for the Ivy League title.

The third-year coach, who has been with the team for three years, credited the win to the team's strong defensive play and solid goalkeeping.

They had to absorb a 16-1 and 18-3 drubbing at the hands of their Ivy League opponents, but they didn't let that affect their performance against RPI. The team played well defensively, holding RPI to just 10 shots on goal.

The win puts Penn in a good spot in the Ivy League standings, and the team is looking forward to the next game against Harvard.

The game was a close one, with both teams having their chances. However, the Penn defense was able to hold off RPI's attacks and keep the game scoreless until the second period.

In the second period, Penn finally broke the scoreless tie with a goal by senior forward Tom Shriver. The goal was the result of a well-executed power play, with the team getting a two-man advantage on the power play.

RPI tried to respond with a goal of their own, but Penn's goalie, junior Matt Grady, was able to make a great save to keep the score at 1-0.

Penn added an insurance goal late in the game, and the team was able to hold on for the 2-0 win. The victory was a huge boost for the team, who are now tied for first place in the Ivy League with Harvard.

The team will need to continue their strong defensive play in order to keep pace with Harvard, who is currently on a five-game winning streak. However, the team is confident in their ability to compete with any of the other teams in the league.

The next game for Penn is against Harvard, who they lost to earlier in the season. The team will need to play well defensively and capitalize on any opportunities they get on offense.

The team is looking forward to the challenge and is ready to face any opponent that comes their way.
