Mc Govern vawons on women's rights

McGovern's alleged position on abortion was a subject of hot debate at the convention. He is said to have changed his mind on this issue completely, from stating that there should be no restriction on abortion, to stating that the issue should be an "open question." In fact, it is said that he has been "on both sides of the abortion issue."

However, in a speech to the University City Science Library, McGovern stated that he would have no "open question" about abortion, but would rather have a "final decision" on the issue.

In any case, McGovern's alleged position on abortion is now being debated at the convention. Some say that he has "changed his mind," while others say that he has "stated his position."

The convention has been heated over this issue, with many people expressing their opinions and beliefs on the matter. The convention will continue to be debated until a final decision is made.

Avoid the landlord rip-off

By Ken Kilminik and Frank Rapoport

The Fair Housing Act of 1972 is in effect, but landlords are still being served with notices to repair broken windows and holes in the walls. These notices are usually served by the city's Department of Housing and Community Development, which is located in Room 23, Irvine, is working in this direction.

The Fair Housing Act of 1972 makes it illegal for landlords to discriminate against tenants because of their race, color, religion, national origin, sex, or familial status. It also makes it illegal for landlords to charge different rent for different reasons, such as because a tenant is black or white, or because a tenant is a student or a non-student.

In order to avoid the landlord rip-off, you should make sure that you understand your rights under the Fair Housing Act. You should also check the lease and put your initials next to the terms that you have agreed to in the lease.

According to Codding, $1.1 million is needed for remodeling. This figure would include air conditioning for the active building, which Coding said would make Houston Hall, along with a student center, an ideal convention center, and thus an income generating source for the future months. Coding said that it would be possible to complete the extensive renovation program with the money supplied by the referendum proposal.

Mrs. Emerson said another problem in the referendum was that it is unfair to students to run an extra financial burden on future students of the next ten years.
