U.S. and Cuba Seek Talk On Hijacking

By United Press International

WASHINGTON — The United States and Cuba have agreed to go ahead with plans for talks on the hijackings of American aircrafts, President Lyndon B. Johnson announced here today.

The president said that he was作用 the talks to be held now that the United States and Cuba had agreed to reciprocal terms. They had been agreed to in the past but had been held at the government to curb air piracy by States, under pressure from airline

Department spokesman Charles W. Bray said the main obstacle in interest of both countries. United States recognizes only 12 miles. The Cubans were suggested that the talks, to be con-

Thourons Subsidize Exchange Program

By OLIVIA SHERIDAN

In the past eleven years Mr. and Mrs. John K. ll. Thouron have enabled 150 students from the United Kingdom to pursue their graduate studies in the field of their choice at the University of Pennsylvania, enabling any graduate student at the university to study at the University and 120 British students to study at the University and 120 British students to study at the University.

The program. unique to the University, enables any graduate student from any university of their choice to study at the University and 120 British students to study at the University. Currently, there are 25 students from the United Kingdom at the University, with 50 more on waiting list. Although the application covers the first year only, the scholarship is renewable for a maximum of three years, or until the student is still in school in a degree program.

"Not only is the program looking for scholars, but anyone who demonstrates a good academic standing as well as exhibiting the qualities of a good scholar to be subsidized by the University," Jane Thouron director of the program at the University, said. "While acceptance into the program is not tantamount to acceptance into a university in the United States, the campus office is available for guidance as well as providing increased University regret to students studying here.

Applications deadline is December 1, 1972 for all interested University students. Those students who are interested should be making applications to the British schools of their choice at this time. Further information can be obtained from Mr. T. H. Brown at 335 British students studying here.

The purpose of Wednesday's meeting was not discussed. A Seminar paper was read by Professor of Economics A. M. C. on the topic of the "Topical & Interdisciplinary Studies Handbook." The seminar paper was not given due to the time limit. The seminar paper was not given due to the time limit.

The "Topical & Interdisciplinary Studies Handbook" can help you organize a plan of study around interdisciplinary themes.

Are you having trouble planning your semester?

This handy booklet can be found at SCUE, 13 College Hall and all college offices.

Kaliades: No ‘O’ Means No Go For Columbia Gridders

By DAVE CHANDLER

The Penn and Columbia football teams, which meet this Saturday at Franklin Field, have almost complete respect for one another. But that respect has a definite limit: the Penn team, whose fans call the Quakers, has no respect for Columbia's "O." The"O," for those who have never been to Philadelphia, stands for "Orange." It represents Columbia's athletic teams. Columbia's Athletics Department

Subcommittee on Athletics

July 24, 1972

Dear Mr. President:

The purpose of this letter is to bring to your attention a problem which has arisen in the University community in recent years. The problem is the increasing number of students who are becoming involved in intercollegiate athletics. This trend is of concern to us as members of the Subsequence on Athletics of the Faculty Council.

The problem is a complex one and requires careful consideration. We have identified several specific issues that need to be addressed:

1. The impact of athletics on academic performance
2. The role of athletics in the socialization process
3. The financial implications of athletics
4. The potential for Conflict of Interest

We believe that these issues require immediate attention and that the University should develop a comprehensive plan to address them.

Sincerely,

Subcommittee on Athletics
